

Please Participate in the Internet Speed Test

Purpose: This survey is part of Alachua County's Local Technology Planning Team's Broadband Initiative to determine the internet/broadband needs for all residents of Alachua County. The primary goal is to identify unserved and underserved areas and work to determine a strategy for increasing the availability and accessibility of internet/broadband services in Alachua County. Please have a person in your household, who is 18 years or older and makes household decisions about technology or the internet, complete the survey, detach the bottom half, and mail it back. **NO STAMP IS NEEDED.**

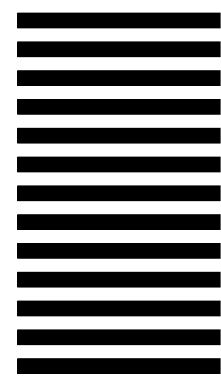

Terms of Use and Privacy Statement: By participating in this survey you are agreeing that Alachua County and representatives from your Local Technology Planning Team, established by the Department of Economic Opportunity, may seek to contact you to follow up on your service needs. Results will be shared with community planners to identify service solutions. Therefore, your address in the beginning demographic section is critical to identifying unserved and underserved areas. No identifying information will be published. This data is strictly for use by your Local Technology Planning Team and the Florida Department of Economic Opportunity's Office of Broadband. We invite all Alachua County residents to complete this survey.

Thank you in advance for your time. You may alternatively fill out this survey online at: <https://bit.ly/35rPyNC>
