### Slide 9

- Applicability – Countywide or Targeted Locations
  - Countywide: 30,411 septic systems
  - 25 Year Travel Time: 3,507 septic systems
    - High Springs: 1,639 septic systems

### Slide 12

- Actual base load reductions could be achieved by
  - Performance-based treatment system
  - Requiring modifications to systems for non-“system failure” problems, for example not meeting the minimum separation distance between the drain field and the wettest season water table.
  - Both of these potential requirements are prohibited under F.S. 381.00651.

### Slide 18

#### Update Fertilizer Code

- Update Landscape Irrigation Code
- Media Outreach Campaign
- Increase Role of County Staff in Consumptive Use Permits
- Enhanced Monitoring and Research
- Turf buyback program
