

# Ice-Supersaturated Regions

Peter Spichtinger and Klaus Gierens

---

## Table of contents

1. [Introduction](#)
  2. [Global distribution](#)
  3. [Properties](#)
    - a. [Statistics of relative humidity and supersaturation](#)
    - b. [Distributions of temperature and absolute humidity, sources of ISSRs](#)
    - c. [Horizontal and vertical sizes of ISSRs](#)
    - d. [The situation of ice-supersaturation layers relative to the tropopause](#)
  4. [Literature](#)
  5. [Links](#)
-
