## What Are We?

Article VIII of the Florida Constitution creates the Office of the Property Appraiser as an independent governmental unit.

## What Do We Do?

The Property Appraiser is charged with valuing all the property in Alachua County and administering all the property tax exemptions in an equitable manner.

### What Does That Mean?

### Our tasks fall into 5 major areas

- Identify and list all property in Alachua County
- Value all Real Property
- Value all Tangible Personal Property
- Administer exemptions and classified use (agricultural) properties
- Extend taxes

### Identify and list all property in Alachua County

- Review and process all deeds and related documents
- Identify all improvements in the county
- Map all the properties in the county
- Identify all tangible property
- Identify all railroad and mineral rights in the county

# Value all Real Property

- 3 approaches to value
  - Sales Comparison
  - Cost
  - Income
- Computer Assisted Mass Appraisal

### Value All Tangible Personal Property

- Self reporting system
- Historical cost
- Auditing

# Administer Exemptions and Classified Use (Agricultural) Property Programs

- Exemptions
  - Homestead
  - Widows & Widowers
  - Disability
  - Blind
  - Seniors
  - Veterans

# Administer Exemptions and Classified Use (agricultural) Property Programs

- Classified Use
  - Value in Use VS. Value in Exchange
  - Agricultural
  - High Water Recharge
  - Conservation

### **Extend taxes**

- Certification
- Budget
- TRIM

### The Tax Roll Process

- All properties in Alachua County are valued at Just Value.
- All exemptions, deferred amounts and classified use differentials are subtracted from the Just value.
- The result is the Taxable Value.

### **EXAMPLE**

Taxes equal Just Value less deferred values minus exemptions multiplied by the millage rate.

\$150,000 Just Value, less

\$25,000 Deferred Value, equals

\$125,000 Assessed Value, less

\$50,000 Homestead Exemption, equals

\$75,000 Taxable Value

\$75,000\*Millage Rate=Taxes

# What is Capping?

- Homestead properties are capped at 3% or CPI (which ever is lower)
- Non-homestead properties are capped at 10%
- Agricultural properties are not capped

### How does it work?

Year one after purchase Just Value = \$100,000 Year two reappraised, up 7% = \$107,000 Cap limits increase to 3% or the CPI =\$3,000 Year two assessed value = \$103,000 Homestead exemption - \$50,000 Taxable value = \$53,000 Deferred amount =\$4,000

# Tax Roll Approval Process

Our work is reviewed by Florida Department of Revenue

•We submit the tax roll to the DOR annually by July 1

DOR reviews using statistical analysis, (LOA, COD, PRD) and approves, disapproves or issues letters of incomplete.

Our tax roll has always passed DOR Review

## **Budget Calendar for Jurisdictions**

Property Appraiser certifies preliminary roll – July 1
Jurisdictions meet and set their budgets
The budget is divided by the total taxable value
This calculation yields the millage rate
Millage rate is certified to the Property Appraiser

### **TRIM Process**

The millage rate is multiplied by the taxable value of the individual properties on the roll

This is extending the taxes and calculates individual tax bills

TRIM notices are prepared and mailed mid August

Final budget and millage hearings are held and rates are set in September

# TRIM (TRUTH IN MILLAGE)

In mid August our office mails out the TRIM notice to all property owners in the county. The TRIM notice contains the following information:

- Property Appraiser Value Information
- Taxing Authority Information
- Taxing Authority Hearing Information
- •Non-Ad Valorem Assessments
- •Explanation of each section
- •Deadline for filing a petition with the Value Adjustment Board

### EXPLANATION OF 'PROPERTY APPRAISER VALUE INFORMATION' SECTION

MARKET (JUST) VALUE - The most probable sale price for a property in a competitive, open market involving a willing buyer and a willing seller.

ASSESSED VALUE - The value of your property after any "assessment reductions" have been applied. This value may also reflect an agricultural classification. If "assessment reductions" are applied or an agricultural classification is granted, the assessed value may be different for School versus Non-School taxing authorities and for the purpose of calculating tax levies.

APPLIED ASSESSMENT REDUCTION - Properties can receive an assessment reduction for a number of reasons including the Save Our Homes Benefit and the 10% non-homestead property assessment limitation. Agricultural Classification is not an assessment reduction, it is an assessment determined per Plorida Statute 193.461. EXEMPTIONS - Any exemption that Impacts your property is listed in this section along with its corresponding exemption value. Specific doilar or percentage reductions in assessed value may be applicable to a property based upon certain qualifications of the property or property owner. In some cases, an exemption's value may vary depending on the taxing authority.

TAXABLE VALUE - Taxable value is the value used to calculate the tax due on your property. Taxable value is the assessed value minus the value of your exemptions and discounts.
