

County Manager's Budget FY24-25

Where Nature and Culture Meet

Alachua County, FL

ALACHUA COUNTY MANAGER BUDGET FISCAL YEAR 2024-2025

The annual budget document fulfills multiple roles. As a policy document it outlines policy objectives, showcases budgetary goals, strategies, and priorities, and details financial policies and processes. It also serves as a comprehensive financial plan, encompassing revenues, expenses, fund balances, reserves, debt management, and capital programs. Additionally, it presents historical data and trend analyses to inform decision-making.

The budget document provides an overview of the organization's operations, encompassing its structure, departments, and performance metrics. It also acts as a means of communicating strategic initiatives and associated costs to the community in a clear and understandable manner. This communication is facilitated through various elements such as the County Manager's Budget Message, Budget in Brief, as well as narrative explanations, schedules, summaries, and visual aids like charts and graphs throughout the document.

This book presents the County Manager Budget Book for Fiscal Year 2024-2025. It has nine sections: 1. Introduction including the County Manager Message and Budget in Brief, 2. Consolidated Reports, 3. Functional Department Budgets 4. Budget Process and Fund Structure 5. Debt Management 6. Capital Budget and Financial Plan 7. Strategic Performance 8. Long Term Financial Forecasting and 9. Appendices

INTRODUCTION

To the Alachua County Commission:

I am honored to present the Tentative Budget for your consideration. The FY25 Tentative Budget is particularly significant as we approach celebrating the 200th anniversary of Alachua County's founding on December 29, 2024.

As I look ahead to commemorating the bicentennial, I am reminded of our rich and storied history, including the dark chapters and the progress we have made. This milestone offers us a unique opportunity to both honor and reconcile our past while looking forward to a future filled with promise and potential.

The 2025 budget underscores our commitment to fiscal responsibility while addressing the dynamic needs of our rapidly growing county. Because of our commitment to the responsible stewardship of taxpayer dollars, I recommend a general fund millage rate reduction for the eighth consecutive year.

We recognize and embrace the unique challenges and opportunities that lie ahead. Thoughtful budgetary decisions will ensure that Alachua County remains resilient and adaptable in the face of evolving circumstances. By leveraging innovative solutions and building solid partnerships, we intend to enhance our service delivery and programs and create a more sustainable and equitable community for all.

In line with our vision for a thriving community, we have strategically allocated resources to bolster essential services such as housing, public safety, transportation infrastructure, parks, environmental stewardship, and economic development.

This budget emphasizes the importance of operating a healthy, sustainable workplace with realistic and reasonable expectations of our employees. Workforce retention is essential to our organization and our goal of achieving the Commission's strategic priorities. In recent years, we have expanded existing programs and services and established new ones to serve our residents. We must be mindful of growing programs and services faster than staff's ability to adjust and that we provide the training and resources required for expansion.

Thank you for your support and engagement throughout this budgeting process. Together, we will continue to build a future that reflects our community's shared values and aspirations.

ALACHUA COUNTY'S SHARE OF PROPERTY TAX DOLLARS

In FY24, the County received 58.20 cents of every County controlled property tax dollar. Of this amount, 12.12 cents were used for County departmental operations, and 1.35 cents funded capital projects. The remaining 44.73 cents were distributed as follows: 37.09 cents to the Sheriff; 4.97 cents to other Constitutional and Judicial offices; .78 cents to cities for community redevelopment; and 1.89 cents were held in reserves. The following chart illustrates how the Commission allocated its property tax dollars.

PROPERTY VALUES AND MILLAGE RATES

FY25 represents the eighth consecutive year Alachua County's property values are rising and the General Fund Millage is lowered. This Tentative Budget demonstrates an 8.68% increase in General Fund Values and a 9.24% increase in the Municipal Service Taxing Unit – Law Enforcement Values. The increases are based on estimated taxable values provided to us by the Property Appraiser on June 1, 2024.

The Property Appraiser will submit certifiable values on July 1, 2023; revenue estimates will be adjusted accordingly. At their July 9, 2024, meeting, the Commission will be asked to set the tentative millage rates at the evening public hearing.

FY25 Proposed Millage Rates June 1, 2024

FY24 Projected Revenue	155,300,408	29,755,707
Difference	12,962,168	2,748,736

GENERAL FUND

I recommend reducing the General Fund Millage rate, for the eighth consecutive year, to 7.6180 mills. The General Fund provides resources for most County departments and Constitutional offices. The FY25 General Fund sum of all property tax revenues is \$168,262,576. The total of all General Fund revenue sources is \$245,785,239.

The General Fund budget totals include many revenue sources such as Ad Valorem Tax, State Sales Tax, Communications Service Tax, and Public Service Tax.

MUNICIPAL SERVICES TAXING UNIT (MSTU), MUNICIPAL SERVICES BENEFIT UNITS (MSBU) & GAS TAX

MSTU Law Enforcement

I recommend no increase to the MSTU Law Enforcement Fund millage rate of 3.5678. The FY25 MSTU Law Enforcement total from property tax revenue is \$32,504,443. The total from all MSTU law Enforcement revenue sources is \$39,045,736.

MSBU Fire Protection

We fund Fire Protection through an MSBU assessment fee. I am not recommending an increase to the Fire Assessment. It will remain at \$90.69 for Tier 1 and \$8.31 for Tier 2. Further evaluations and discussions of the Fire Assessment Fee Study will continue. The total budget for this fund is \$35,013,678.

MSBU Stormwater

We fund Stormwater through an MSBU assessment fee and I am recommending a \$10.00 per unit increase. Stormwater management is vital for preventing flooding, protecting water quality, preserving natural habitats, supporting public health, and maintaining infrastructure integrity. While initial investments and ongoing maintenance are costly, the long-term benefits, environmental protection, public health, and infrastructure resilience justify these costs. With the increase, the total fund budget would be \$3,608,594.

MSBU Refuse Collection

I recommend raising the tipping fee for FY25 from \$57.00 to \$65.00, which represents an increase that will significantly impact our ability to manage and improve waste disposal services. This increase per ton is critical to ensure we can continue providing reliable, environmentally responsible waste management services while preparing for future challenges, including reserves, to manage any unexpected expenses or revenue shortfalls without compromising service. The total budget for all waste funds will be \$38,061,918.

Gas Tax Fund

The projected Gas Tax revenue for FY25 is \$15,586,158. The cost of providing transportation system services has outpaced Gas Tax revenues. Although the Gas Tax includes an annual increase of 5.67%, it fails to keep pace with inflation. To offset this deficiency, General Fund transfers, including 20% of the Communication Service Tax and the WSPP Surtax, will dramatically increase our level of service.

Wild Spaces Public Places (WSPP), Infrastructure Surtax

On November 8, 2022, Alachua County voters passed the ten-year one-penny surtax. The distribution is one-half penny for conservation lands and parks and one-half penny for roads and affordable housing. The associated dollars in this budget are \$13,865,668 for land conservation, \$3,466,417 for parks, \$12,132,459 for roads, and \$5,199,626 for housing.

COUNTY INITIATIVES AND IMPERATIVES

COLA and Minimum Wage Increase

Each of our revenue funds will pay its fair share of the Florida Retirement System (FRS) contributions, health insurance increases, employee compensation increases, and reserves.

I recommend providing County Commission employees with a 6% Cost-of-Living Adjustment (COLA). This recommendation includes an equivalent level of funding for Constitutional and Judicial Officers' employees. Regarding a health insurance increase, I recommend shifting more of the cost to the employers and relieving more of the burden of premiums from the employees. This shift will make the County and Constitutional Officers more competitive in hiring and retaining talent.

Continuing the effort to reach a living wage, the FY25 Tentative Budget recommends increasing the County Minimum Wage from \$17.00 to \$18.00 an hour. I recommend this increase for all County, Constitutional, and Judicial employees funded by the County.

Public Safety

The majority of County funds continue to be directed towards improving public safety. Increases in Law Enforcement, additional Fire Rescue Stations, and a commitment to modernized fleet and equipment remain ongoing priorities. The FY25 budget reflects a commitment of \$128 million to Law Enforcement and \$81 million to Fire Rescue services.

Pavement Management Plan

Between the WSPP surtax, Gas Tax, and the Commission's commitment to General Fund resources, the FY25 budget includes \$44 million to maintain and improve the road

system. The recently approved pavement management plan prioritizes the timing and location of road paving throughout the County. Through a combination of WSPP, grants, gas tax, and general fund dollars, a quarter of a billion dollars is available to address road projects of the surtax ten-year period.

Housing Initiatives

Housing remains a priority moving into FY25, as demonstrated by various ongoing housing projects. The Budget Inn, currently under renovation, is scheduled for completion and ready for move-in before the end of FY25. This project will bring 36 one-bedroom furnished apartments to the forefront. Similarly, the purchase of the Scottish Inn will add 30 one-bedroom apartments, introducing a new dynamic to housing in Alachua County. A unique pilot program on this property will feature container homes, with an estimated 20-30 units, potentially revolutionizing affordable housing.

Looking ahead, Alachua County is reviewing the Sunrise Apartments, currently owned by the Saint Francis organization.

Additionally, the Infrastructure Sales Surtax, approved by voters, will fund the development of single-family homes on 13 acres on the east side of Gainesville. This initiative aims to provide housing and ensure generational retainage and wealth, supporting long-term community stability and prosperity.

The Housing Trust has been actively providing housing vouchers and is working on a pilot program for Copeland as a blighted area initiative. The County continues receiving SHIP funding for home purchase assistance, repairs, and housing needs. Annually, \$1.5 million from the general fund is allocated to house individuals and families, further underscoring the commitment to creating diverse housing opportunities and fostering generational wealth through single-family home ownership.

Economic Development and Tourism

To enhance Alachua County's economic vitality and continued tourism promotion, we are excited to announce the combination of the Economic Development Office and the Tourism Office. This move will create a focused strategy to attract both businesses and visitors. By combining efforts, we effectively showcase our County's opportunities to promote sustainable economic growth while continuing to increase tourism for the benefit of our businesses and attractions.

Revenue Recovery

The FY25 Budget includes unfinished Revenue Recovery projects approved by the Board, including Broadband Deployment assistance, Santa Fe Hills Water System improvements, Public Health support with the development of the Central Receiving Facility and Eastside Clinic, relief from adverse economic impacts with continued food security projects, and housing initiatives that align with the Commission's strategic initiatives.

Addressing the County’s Critical Building Needs

This budget continues the planning and execution of Phase 1 of the Facilities Master Plan, which includes a combination of financial and implementation strategies. The Plan aims to consolidate offices, increase building efficiency, and create sustainable, citizen-focused spaces. Phase 1 (2023-2026) includes:

- The incorporation of Court Services into the new Civil Courthouse building
- Locating permanent space for the Environmental Protection Department
- Building a Chill Water Central Energy plant and Parking Garage at the court complex
- Moving Fire Rescue Headquarters and the Emergency Operations Center into the Armory site
- Building a new Animal Resources facility
- Relocation of County Administration to the current civil courthouse upon completion of the new civil courthouse

CONCLUSION

The FY25 Tentative Budget demonstrates a commitment to addressing the community's evolving needs. It emphasizes fiscal responsibility, strategic resource allocation, the value of our workforce, and building a sustainable and equitable community.

INTRODUCTION TO ALACHUA COUNTY

WHERE NATURE AND CULTURE MEET

Alachua County's seat, Gainesville, was established in 1854 on land that was part of a grant that the King of Spain gave to Don Fernando Arredondo in 1817. The name "Alachua" is a Seminole word that means jug and the County likely takes its name from the sinkhole in Paynes Prairie.

Alachua County is proud of its history, having over 65 listings on the National Register Historic Places including two National Historic Landmarks: Marjorie Kinnan Rawlings House and Farm and the Dudley Farm.

Alachua County encompasses 969 square miles and includes the municipalities of Archer, Alachua, Gainesville, Hawthorne, High Springs, LaCrosse, Micanopy, Newberry, and Waldo. Located in the north central part of Florida, 85 miles from the Georgia state line, 50 miles from the Gulf of Mexico and 67 miles from the Atlantic Ocean.

The County has an estimated year-round population of 293,040 (4/21/23) including 50,000 University of Florida students which is a 1.80% increase over prior year.

Alachua County is a political subdivision of the State of Florida and is guided by an elected five-member Board of County Commissioners. Florida Statutes, Chapter 125 establishes the powers and duties of the County Commission and the County Manager.

The County Manager is appointed by the Board of County Commissioners and is responsible for carrying out the directives and policies of the Board. The County Manager is also responsible for the management and supervision of all functions and personnel under the Board of County Commissioners. The County Attorney, who is also appointed by and responsible to the Board of County Commissioners, provides legal counsel to the Board and departments/offices of the Board of County Commissioners in all manners of civil law relating to Alachua County.

Alachua County has five Constitutional Officers, which include the Clerk of the Court, the Property Appraiser, the Sheriff, the Supervisor of Elections, and the Tax Collector. Constitutional Officers are elected to administer a specific function of County government and are directly accountable to the public. Other elected officials of Alachua County include the Judiciary, State Attorney, and Public Defender.

The Board of County Commissioners is obligated to fund the operating budget of elected officials partly or in whole. Alachua County also has several appointed Boards and Committees that serve in an advisory capacity to the Board of County Commissioners.

Alachua County is committed to fiscal responsibility as well as providing responsive, quality services to our citizens. As mandated by Florida law, we adopt a balanced budget yearly—revenues must offset expenditures.

The County continues to provide many beneficial services to the community; however, macroeconomic, and other external factors, such as state mandates, continue to increase the costs for these services.

As with any government, there are always going to be calls for either more services, demand for efficiency or changes in levels of taxation. The County continually balances these interests through a series of budget preparation meetings.

COUNTYWIDE VISION & VALUES

Mission Statement:

Alachua County's mission is to provide responsive service to citizens and responsible stewardship of county resources for current and future generations.

Alachua County's proposed millage rate at 7.6180 mils, reflecting a reduction of 0.0234 mils. MSTU Law Enforcement Millage rate remains unchanged at 3.5678 mils. The Board of County Commissioners will hold a public hearing on July 9, 2024 at 5:01 p.m. to set the tentative millage and assessment rates. Further special budget meetings will be held in August and final public hearings to adopt the millage rate, assessment rates and budgets will be held on September 10, 2024 and September 24, 2024.

This budget incorporates updated revenue sources based upon property values as of June 1, provided by the Alachua County Property Appraiser. Revenue projections from the State Department of Revenue along with the Property Appraiser's final property values come in the month of July and the Office of Management and Budget will update revenue estimates accordingly.

The County Manager budget maintains support for existing initiatives and departments, aligning with the strategic goals and priorities set by the Alachua County Board of County Commissioners. Importantly the budget is balanced and adheres to all County budget and financial policies.

The implementation of the 1 cent surtax is anticipated to generate funding for various purposes, including the realization of the parks master plan, improvements to road infrastructure, and affordable and workforce housing and land preservation.

Assessments are proposed as follows:

- Fire Assessment Tier 1 \$90.69 per Unit – No Change.
- Fire Assessment Tier 2 \$8.31 per Unit – No Change.
- Stormwater Assessment Increase of \$10.00 per unit.
- Solid Waste Tipping Fee Increase From \$57.00 per ton to \$65.00 per ton.

FY25 REVENUE ESTIMATES

Alachua County prepares budget allocations based on various revenue streams:

The largest source of County revenue ***Non-Operating Revenue (\$241m – 29.87%)*** Revenues received were not attributed to a service or good. This is mainly composed of available fund balance.

Ad Valorem Tax (\$207m – 25.66%) and Other Taxes (\$63m – 7.81%). The former is also known as Property Tax, while the latter is composed of General Sales & Uses Tax, Utility Service Taxes, and Communications Service Tax. Ad Valorem taxes are the greatest source of revenue for the County. The tax is levied per \$1,000 value of taxable real and tangible personal property. It is based on a millage rate adopted annually by the Board of County Commissioners. 1 “mill” represents \$1 for every \$1,000 of taxable value.

Charges for Services (\$103m – 12.80%), include: waste management, animal services, and emergency medical services. To supplement this group, the County collects ***Permits, Fees, & Special Assessments (\$40m– 4.97%)***. These fees are assessed to items such as permits, impact fees, and special assessments on property.

Intergovernmental Revenue (\$45.6m – 5.66%) is a source of revenue derived from other government entities. It usually comes in the form of grants, entitlements, shared revenues, or payments in lieu of taxes.

Other Revenue Sources (\$43.3m – 5.36%) Other revenues collected for items such as court fees, interest, sale of assets, donations, Debt Proceeds, Fines & Forfeitures, Miscellaneous Revenue, Transfers from Constitutionals.

Operating Transfers In (\$63.4m – 7.87%) For accounting purposes, transfers in are designated as revenues; they serve the purpose of acting as intermediaries for fund appropriation.

FY25 EXPENDITURE ESTIMATES

Alachua County acts to protect citizens, serve the community, and improve the community’s way of life. The following monetary values are by department and rounded to the nearest whole number. The next few pages provide a snapshot of how expenditures are allocated.

The expenditures are shown by function, classification, program, department, and department allocations. Included is also a staffing history.

Consolidated Reports

CONSOLIDATED REPORTS

The consolidated reports provide a comprehensive overview of the Alachua County's fiscal health, highlighting key metrics such as revenue, expenses, fund balance, and reserves.

Revenue Analysis: comprehensively outlines the County's income sources, including property taxes, grants, fees, and other revenues. It analyzes revenue trends, compares actual figures to budgeted amounts, and provides insights into financial performance. This section sheds light on income generation and the County's reliance on diverse revenue streams.

Expense Breakdown: A breakdown of expenses delineates how financial resources are allocated across different departments and programs offering transparency of fund allocation. Stakeholders evaluate spending priorities and efficiency.

Reserve Analysis: The report evaluates the adequacy of reserves in meeting short-term and long-term financial obligations. It assesses reserve levels against established policy thresholds, providing assurance of the County's ability to address contingencies and maintain fiscal sustainability. Moreover, reserve analysis may inform strategic decisions regarding reserve allocation and replenishment to mitigate financial risks effectively.

FUND BALANCE

The Alachua County Budget Management Policy aligns with best financial practices by setting fund balance levels to address cash flow and emergencies. This is vital due to the delay in property tax revenues received two months after the fiscal year starts. Adequate fund balances prevent short-term borrowing needs in October and November, covering critical expenses like payroll and budget transfers without disruption.

Additionally, robust fund balances not only ensure operational stability but also signal fiscal health, acknowledged by bond rating agencies such as Fitch and Moody's. A healthy fund balance can improve bond ratings, demonstrating the County's dedication to financial prudence and facilitating better borrowing terms. This clarity emphasizes the significance of fund balances, promoting a transparent comprehension of the County's financial management.

Fund Balance depicts the County's fiscal position on the first day of a given fiscal year. Conversely, it can also be defined as the amount of revenue remaining from the previous fiscal year after all expenses are paid. If revenues exceed expenditures, fund balance is positive and carries forward as revenue to the following year. If expenditure exceeds revenues, any existing fund balance from a prior year is reduced.

CHANGES IN FUND BALANCE

Changes in Fund Balance greater than 10% is driven by changes in anticipated revenues or spending down of available funds to complete projects

The fiscal year 2024-25 budget has \$241,056,418 appropriated fund balance, a 5.90% increase from prior fiscal year.

Animal Resources Department Narratives

Mission Statement

The Department of Animal Resources' mission is to promote public safety for the welfare of citizens and animals. Animal Resources accomplishes this through education, adoption, sheltering, enforcement, and the rescue of animals that may be stray, injured, unwanted, neglected, or abused.

Vision Statement

To promote the adoption of shelter pets, the welfare of animals, and the importance of the human-animal bond.

Executive Summary

Animal Resources manages shelter operations for up to 5,000 cats and dogs annually and responds to about 8,000 animal-related incidents each year. The team collaborates with local animal welfare organizations, veterinarians, the UF College of Veterinary Medicine, and community volunteers.

Animal Resources enforces federal, state, and local laws, including rabies regulations and animal licensing requirements. They oversee programs for reunification, adoption, volunteering, and fostering across the county and organize events to promote animal welfare and community education.

With an on-staff veterinarian and medical team, along with a student clerkship from the UF College of Veterinary Medicine, Animal Resources provides medical care such as sterilizations, vaccinations, biosecurity, and post-operative care. The staff also conduct forensic exams, investigate animal cruelty cases, and assist in their prosecution.

Program Descriptions

Animal Resources Sheltering Program provides temporary care, shelter, and rehabilitation for lost, abandoned, and surrendered animals, ensuring their well-being through medical care, behavioral support, and adoption services. By facilitating adoptions and offering comprehensive care, we aim to reduce homelessness and improve animal welfare, creating a compassionate community where animals are treated with respect.

Veterinary Services Program provides comprehensive medical care to ensure the health and well-being of animals through preventive, diagnostic, and therapeutic services. Offering high-quality care that enhances pets' lives and supports responsible ownership. Services include routine check-ups, vaccinations, spaying/neutering, emergency care, and specialized treatments. By promoting preventive care and advanced treatments, we aim to keep pets healthy and foster strong bonds with their families.

Animal Resources Department Narratives

Animal Resources Education, Volunteer, and Outreach Program's mission is to promote responsible pet ownership, raise awareness about animal welfare issues, and encourage community involvement. The program offers education and public awareness campaigns to inform the public about proper animal care, the importance of spaying/neutering, and preventing animal cruelty. Volunteers play a crucial role by assisting with daily shelter operations, participating in outreach events, and providing foster care for animals in need. Through community partnerships, events, and volunteer opportunities, we strive to create a supportive network that benefits both animals and people.

Animal Resources Field Operations Program is committed to protecting public health and safety while ensuring the welfare of animals within the community by responding to reports of stray, injured, or dangerous animals, enforcing local animal control laws, and conducting investigations of animal cruelty and neglect. Field officers work diligently to rescue animals in distress, reunite lost pets with their owners, and educate the public on responsible pet ownership. We also collaborate with law enforcement and other agencies to address issues such as wildlife management and disaster response involving animals.

Animal Resources Dispatch Program is the critical communication hub for coordinating timely responses to animal-related incidents. Ensure efficient and effective dispatching of field officers to handle emergencies, including stray, injured, or dangerous animals, as well as cases of animal cruelty or neglect. The dispatch team operates a 24/7 line, receiving and prioritizing calls from the public, local authorities, and other agencies.

FY 2024 Major Priorities

Infrastructure

- Continue facility improvements such as covers over the play yards, astroturf with splash pad installation, and minimize invasive pests.
- Continue activities towards building/acquiring and opening a new Animal Resources facility.

Public Safety

- Strengthen law enforcement partnerships to increase quicker response when needed.

Social and Economic Opportunity

- Continue to make operational improvements and implement departmental policy and procedures that will not only raise the quality of care for our animals and the quality of service to our citizens but also increase productivity and efficiency.

Animal Resources Department Narratives

- Continue to support and conduct regularly scheduled Animal Advisory Committee meetings.
- Work with Land Conservation and Management to mitigate fire risk in the wooded areas surrounding the current Animal Resources facility.

Significant Budget Variances

The FY25 County Manager Budget includes 1.0 FTE Dispatcher position.

Mission Statement

The Department of Budget and Fiscal Services' mission is to facilitate the optimal use of County government resources through budgeting, operational performance, procurement and contract administration, risk management and employee benefit services, business systems administration, facilitate and support of county-wide broadband, Cenergistics contract administration, and countywide fiscal services support. Budget and Fiscal Services also oversees the functions of the department of Facilities Management.

Vision Statement

Ensure quality customer service, transparency, and fiscal accountability for all stakeholders.

Executive Summary

Budget and Fiscal Services manages the activities of Management and Budget, Procurement and Contracts, Risk Management, Operational Performance Management, Business Systems Administration, and provides oversight to fiscal staff and fiscal services for most departments under the Board of County Commissioners.

Budget and Fiscal Services facilitates the optimal use of County government resources, guides future operational decisions, and assists the County Manager to identify opportunities to better serve our customers and citizens. Ultimately, the budget as presented by the County Manager and adopted by the Board of County Commissioners is an organizational expression of community and agency priorities. The Budget and Fiscal Services staff are committed to the County's mission of providing responsive service to citizens and responsible stewardship of County resources.

Program Descriptions

Fiscal Services is responsible for the support of the County Department's fiscal operations, ensuring the effective use of public funds through comprehensive budget preparation, financial reporting, revenue collection, and expenditure management.

Office of Management and Budget (OMB) is tasked with overseeing the county's financial planning and resource allocation. It develops and manages the annual budget, conducts financial forecasting, and monitors expenditures to ensure fiscal responsibility. The OMB prepares financial reports, analyzes budget performance, and provides recommendations to optimize resource use. It collaborates with county departments to align budgetary allocations with strategic priorities and ensures compliance with financial regulations. The office aims to enhance financial transparency, accountability, and sustainability, supporting effective governance and the delivery of public services.

Budget and Fiscal Services

Department Narratives

Procurement manages the county's procurement program by contracting goods and services, including professional services and construction. This program consists of all the steps leading to determination of appropriate solicitation and contract type, selection of contractor/vendor, negotiation and award of contract, and numerous other administrative actions.

Risk Management is responsible for identifying, assessing, and mitigating risks to county operations, assets, and employees. It develops and implements policies and procedures to manage risks related to public safety, financial losses, legal liabilities, and property damage. Oversight of insurance programs, conducts risk assessments, manages claims and litigation, and ensures compliance with health and safety regulations. Additionally, it provides training and resources to county departments to promote risk awareness and prevention, aiming to minimize the impact of adverse events and ensure the continuity of county services.

Executive Summary

The Community and Administrative Services Department provides internal and external customer service, through oversight of CareerSource North Central Florida, Equal Opportunity, UF/IFAS Extension Services, and Visit Gainesville-Alachua County, FL as well as the departments of Information & Telecommunications Services and Parks and Open Space.

Program Description

Equal Opportunity promotes diversity, equity, and inclusion within the county's workforce and public services. It ensures compliance with federal, state, and local anti-discrimination laws, addressing issues related to race, gender, disability, and other protected categories. The program conducts training, investigates complaints, and implements affirmative action plans to foster a fair and inclusive work environment. Additionally, it collaborates with county departments to eliminate barriers and enhance access to opportunities for all residents, striving to create an equitable community where everyone can succeed.

Visit Gainesville/Tourism Office promotes and develops local tourism to boost economic growth and community engagement. It markets the county's attractions, events, and cultural heritage to attract visitors, supporting local businesses through tourism initiatives. The office collaborates with stakeholders to implement tourism strategies, provides resources to tourists, and organizes events showcasing the county's unique offerings. By fostering a vibrant tourism sector, the office aims to increase local revenue, create jobs, and enhance the visitor experience while preserving the county's cultural and natural assets.

UF/IFAS Cooperative Extension provides practical research-based education and consultation to address local needs in the areas of agriculture, horticulture, natural resources, family and consumer sciences, and 4-H youth development. Teaching sustainable agriculture, environmental and family resources management reduces the use of water and energy and increases the health and economic viability of local communities.

Community and Strategic Initiatives

Community and Strategic Initiatives Department Narratives

Mission Statement

The Department of Community and Strategic Initiatives' mission is to promote sustainable, equitable, and economically resilient communities through innovative solutions and inclusive engagement.

Vision Statement

Community and Strategic Initiatives is committed to providing the highest level of citizen-focused service and a future where all Alachua County residents can thrive in a sustainable, equitable, and economically resilient community.

Executive Summary

Community and Strategic Initiatives Department provides internal and external customer service, through Sustainability, Equity, and Economic Development Strategy (SEEDS):

Sustainability: Protecting Alachua County's resources and preparing for climate change through mitigation and adaptation.

Equity: Recognizes that sustainable, long-term solutions require addressing inequities and root causes of struggle, suffering, and oppression.

Economic Development: works to grow opportunities for all residents to have an improved quality of life, meaningful work, and a shared stake in the community.

Innovation: Balance stable, sustainable development with innovative, creative thinking to achieve county priorities.

Inclusiveness: Engages with all residents, especially marginalized community members and leaders, to ensure that everyone has a voice in shaping the future of Alachua County.

Program Description

Sustainability staff support protecting Alachua County resources and preparing for climate change through mitigation and adaptation, such as reducing energy consumption, promoting renewable energy, moving Alachua County towards a Zero Waste community, preparing for climate emergencies, and managing special projects and assignments.

Equity and Outreach staff provide enhanced quality of life, generate diverse economic growth, create vital partner projects with marginalized community members and leaders, and create equitable access to resources and services for all Alachua County residents.

Economic Development staff grow vibrant and resilient opportunities for all residents to have an improved quality of life, meaningful work, and a shared stake in the community. This economic outcome is achieved by:

Supporting private sector innovation and entrepreneurship.

Community and Strategic Initiatives Department Narratives

Connecting people and businesses with county programs and departments.
Expanding collaboration between the county and other stakeholders to provide sustainable and equitable economic improvement.

FY 2024 Major Priorities

All Other Mandatory and Discretionary Services

- SEEDS continues to seek grant funding for various initiatives affiliated with the EMPOWER Project, a coalition of County, City, and community groups focused on ensuring our most marginalized residents are not left behind in the green energy revolution.

Environment

- Sustainability is working with Solid Waste & Resource Recovery and Procurement to develop a comprehensive sustainable procurement policy for the county's procurement practices. During FY24, this policy will be created, workshopped, and implementation will begin (pending Board approval).
- In collaboration with the Environmental Protection Department, the Sustainability Office is working to turn the Climate Vulnerability Analysis into a Climate Action Plan. We are currently assembling County and City staff groups that correspond to the vulnerability areas identified in the analysis. These groups will develop draft versions of a plan and present them to the Citizen Climate Advisory Committee and to the Board, with final drafts planned for October 2024.
- Equity Office is working with Environmental Protection to infuse equity within the Climate Action Plan and its sub-elements to contribute to the presentation to the Board in October 2024.

Housing

- The Equity Office will complete the Farmworker Housing Community Engagement Pilot and make recommendations to the Board of County Commissioners and Growth Management in FY 2024. We aim to improve and support Alachua County's focus on farmers, local food, and housing.

Social and Economic Opportunity

- Food System Project Management – Oversee and bring back regular Board updates on all Food System-related professional service agreements: Fresh Food Pathways, Small Farmer Grants, and Food System Workforce Development. Where practical, integrate these results in a fully updated web-based Food Systems GIS Map.

Community and Strategic Initiatives Department Narratives

- EcoLoop Program Management – Bring to the Board at least one proposal suitable for lease negotiations, present the proposal to EDAC and EPAC BoCC advisory boards, negotiate a long-term lease, and assist, if needed, with County support for using industrial development revenue bonds.
- The Equity Office will launch the Equity Advisory Council in FY 2024 to work with the Core Strategic Leadership Team to create an inclusive process that gets every voice heard. This Council will provide its first update to the Board in May 2024.

Social and Economic Opportunity; Housing; Environment

- The Alachua County Energy Efficiency Program is beginning its second pilot in FY24. Program staff and community partners will be working to improve outreach, answer questions, and move our applicants through the upgrade phase.

Community Support Services

Mission Statement

The Department of Community Support Services' mission is to be a place of hope and support where individuals are seen, voices are heard, wounds are healed, and people are strengthened.

Vision Statement

Department of Community Support Services (DCSS) will be recognized as a community partner and leader in program innovation by providing unparalleled access to premier health and human services, which support the sustainable wellbeing of all citizens.

Executive Summary

Department of Community Support Services (DCSS) is funded and administered by the Board of County Commissioners (BoCC) and is responsible for addressing the health and human service needs of the residents of Alachua County. Department of Community Support Services is dedicated to enhancing the wellbeing of individuals, families, and communities. It provides essential services through its programs and partnerships with Non-Governmental Organizations, government agencies, and community organizations. Supports families in poverty, homeless individuals, crime survivors, those in emotional distress, children and youth in crisis, low-income seniors, and veterans. The department develops care systems, leads service initiatives, and coordinates support for the county's most vulnerable residents.

Program Description

Community Agency Partnership Program (CAPP) collaborates with local nonprofit organizations to address critical community needs such as healthcare, housing, and education. By providing funding and resources, CAPP empowers these agencies to enhance their services and improve the quality of life for residents. Through this partnership, the program fosters a stronger, more resilient community by ensuring that essential support is accessible to those in need.

Community Health Offering Innovative Care & Educational Services (CHOICES) program provides low-cost health services to uninsured residents, focusing on preventive care and chronic disease management. Through partnerships with local healthcare providers, the program offers medical, dental, and mental health services to improve overall community health. CHOICES aims to reduce health disparities by ensuring access to essential care for vulnerable populations.

Community Support Services

Community Stabilization Program (CSP) offers financial assistance and support services to residents facing housing instability due to emergencies or economic hardships. By providing temporary rental assistance, utility payments, and case management, the program helps individuals and families maintain stable living conditions. This initiative aims to prevent homelessness and promote long-term self-sufficiency for vulnerable community members.

Crisis Center provides 24/7 crisis and suicide intervention services to individuals in emotional distress through its confidential hotline and in-person counseling. Trained volunteers and staff offer compassionate support, helping callers navigate through their crises and connect with necessary resources. The center also engages in community outreach and education to promote mental health awareness and suicide prevention.

Foster Grandparent Program pairs seniors with children who have special needs, providing mentorship, support, and companionship. Through this intergenerational initiative, volunteers offer personalized attention and care, enriching the lives of both the children and the elderly participants. The program fosters meaningful relationships, enhances educational outcomes, and promotes community cohesion.

Housing Program assists low-income residents in securing affordable and safe housing through various initiatives and resources. By offering rental assistance, home repair grants, and first-time homebuyer support, the program aims to improve living conditions and promote housing stability. This comprehensive approach helps to address housing disparities and enhance the quality of life for the county's most vulnerable populations.

Social Services Programs provide essential support to residents in need, helping with food, housing, healthcare, and financial emergencies. By connecting individuals and families to vital resources and services, these programs aim to enhance well-being and promote self-sufficiency. Through collaborative efforts with local organizations, the county ensures a comprehensive safety net for its most vulnerable populations.

Veteran Services Program provides comprehensive assistance to veterans and their families, helping them access benefits, healthcare, and support resources. Through personalized counseling and advocacy, the program ensures veterans receive the entitlements and services they deserve. This initiative honors the sacrifices of veterans by promoting their well-being and enhancing their quality of life.

Victim Services & Rape Crisis Center offers confidential support and advocacy to survivors of sexual assault, domestic violence, and other crimes. The center provides a range of services, including crisis counseling, legal assistance, and medical accompaniment, to help survivors navigate their recovery journey. Dedicated to fostering a safe and supportive community, the center also engages in prevention education and outreach efforts to raise awareness about these critical issues.

Community Support Services

FY 2024 Major Priorities

Housing

- Develop a Community Land Trust and implement a workforce housing ownership program under the 1.0% Infrastructure Surtax.
- Continue to work towards the renovation of the Budget Inn to one- bedroom apartments in conjunction with Florida Department of Commerce, utilizing CDBG-CV funds. Purchase a second motel and rehabilitate to efficiency units utilizing Affordable Housing component funds from the Emergency Rental Assistance 2 program.
- Recommend revisions to the County Conveyance policy and if approved by the Board, implement changes to escheated property conveyance.

Social and Economic Opportunity

- Work with local governments and community providers to develop a plan and identify projects to address substance abuse, utilizing Opioid Abatement Funds.
- Contract with a provider to implement a Syringe Exchange Program and required components across Alachua County.
- Develop and release an RFP for the implementation of a Reentry Hub to assist residents returning from incarceration. Based on ranking, contract for services.
- Conduct a total review of CAPP to include re- examining funding priorities, proposal evaluations, and funding mechanisms to align with the Board of County Commissioner (BoCC) direction to be more inclusive of small agencies. Survey current agencies regarding the CAPP process to assess the process and provide input. Develop and release an RFA solicitation for the CAPP funding cycle beginning FY 2025.
- Continue to collaborate with the Copeland Community to address priority projects to include a community cleanup day, park upgrades, and host a community educational water workshop.
- Collaborate with East Gainesville communities to implement a community engagement plan seeking suggestions from the community on what they would like to see for the former Ability Housing Property and present to the BoCC.
- Re-Brand the Community Stabilization Program to revitalize it to have a greater impact on communities and meet the needs of residents through community participation, education, food accessibility, human service needs, neighborhood improvements, and special initiatives.
- Purchase and launch a new cloud-based phone system for the Crisis Center hotline system.
- Implement new suicide prevention policies and procedures for clients and callers of the Crisis Center.
- Work with the community to determine the best structure for homeless outreach to serve Alachua and surrounding counties of the homeless Continuum of Care.

Community Support Services

- Strive to reach more Veterans in the outskirts of Alachua County to include rural populations by having events in the smaller cities to bring attention to Alachua County Veteran Services.

Significant Budget Variances

FY25 Budget: Metamorphosis and OPUS programming has moved from Court Services to Community Support Services. The budget includes additional program funding and funding for the Crisis Center enhanced telephone system.

Department Narratives

Mission Statement

The Department of Court Services' mission is to reduce the need for incarceration by rendering timely and accurate information to the Courts while providing a continuum of cost-effective, community-based services to the citizens of Alachua County with emphasis on accountability and preserving public safety.

Vision Statement

Services will be professional, responsive, and consistently available to the community. Dignity and fairness will serve as our guiding principles. We will have a seamless continuum of treatment, social services, and community supervision programs readily available and tailored to the needs of the individual client. No one will be incarcerated who can be effectively and safely managed in the community.

Executive Summary

Department of Court Services is primarily a general fund department which has a long history of providing an array of screening, supervision, and treatment services for people under the jurisdiction of County and Circuit courts of Alachua County.

The department is organized into two divisions: Investigations and Community Supervision, and Clinical and Treatment Services. The Department provides an array of services to clients, including internal and external stakeholders, such as the judicial and law enforcement community, County staff, and the Board of County Commissioners.

Program Description

First Appearance is the initial court appearance where a judge informs defendants of the charges against them, advises them of their rights, and determines conditions for release from custody. Defendants are also informed of their right to legal representation during this proceeding, which typically occurs within 24 hours of arrest. The purpose of the First Appearance is to ensure due process and fair treatment for individuals facing criminal charges while safeguarding public safety.

Pretrial Supervision involves monitoring defendants who are released from jail before their trial, ensuring they comply with court-ordered conditions while awaiting resolution of their cases. Through regular check-ins, electronic monitoring, and support services, the program aims to reduce the risk of flight and promote public safety. By providing alternatives to incarceration, pretrial supervision seeks to address the root causes of criminal behavior while safeguarding the rights of the accused.

Court Services Department Narratives

Community Service offers individuals an opportunity to contribute positively to their community while fulfilling court-ordered obligations or seeking restitution for minor offenses. Participants engage in various projects, such as environmental cleanup, neighborhood beautification, and assisting local nonprofits, under the supervision of program coordinators. Through meaningful service, individuals not only fulfill their legal responsibilities but also develop valuable skills and foster a sense of civic responsibility within themselves.

Probation provides supervision and support to individuals who have been convicted of criminal offenses, allowing them to remain in the community while meeting their court-ordered obligations. Probation officers work closely with participants to ensure compliance with the terms of their probation, which may include regular check-ins, drug testing, and participation in rehabilitative programs. By promoting accountability and rehabilitation, the program aims to reduce recidivism and support the successful reintegration of individuals into society.

Day Reporting involves individuals reporting to a designated facility during the day instead of being incarcerated, allowing them to maintain employment or attend treatment programs while under supervision. This program offers an alternative to traditional incarceration, aiming to address the root causes of criminal behavior while promoting community safety.

Treatment Courts (Drug, Mental Health, and Veterans) offer specialized interventions and support to individuals struggling with substance abuse, mental health disorders, or facing challenges related to their military service. Through a collaborative approach involving judges, treatment providers, and support services, participants undergo comprehensive treatment plans tailored to their specific needs. These programs aim to address the root causes of criminal behavior, promote rehabilitation, and empower participants to lead healthier, more productive lives while reducing recidivism rates.

Metamorphosis Residential Treatment Center offers comprehensive support and rehabilitation services for individuals struggling with substance abuse and addiction. Through a combination of evidence-based therapies, counseling, and personalized treatment plans, participants embark on a journey of recovery in a supportive and structured environment. The program aims to address the underlying factors contributing to addiction while empowering individuals to build healthier lifestyles and achieve sustained sobriety.

Opus Outpatient Treatment Services provides personalized and flexible treatment options for individuals seeking recovery from substance abuse and addiction. With a focus on evidence-based therapies, counseling, and support groups, participants receive comprehensive care tailored to their unique needs and goals. The program emphasizes long-term recovery and equips individuals with the skills and resources necessary to maintain sobriety and lead fulfilling lives.

Mission Statement

The Environmental Protection Department's mission is to support a community ethic of environmental resiliency and responsible environmental stewardship of the water, air, and living resources in Alachua County. Land Conservation and Management acquires, improves, and manages environmentally significant lands that protect water resources, wildlife habitats and natural areas suitable for resource-based recreation.

Vision Statement

Environmental resiliency will be achieved and clean water, air, and land, and healthy flora and fauna will be preserved and protected in Alachua County by optimizing, not compromising, the balance between natural systems and people and be a leader in conserving, restoring, and maintaining the most important natural areas of Alachua County.

Executive Summary

Alachua County is known for clean water, air, greenspace, and abundant fish and wildlife. Our local environmental resources range from the clear springs and underwater caves on the Santa Fe River, to scenic prairie vistas, the Lake Santa Fe and the Newnan's-Lochloosa-Orange Lake systems, Gainesville creeks, the eastern wetlands and flatwoods, unique stream to sink basins, the Floridan aquifer, and good air quality. Our citizens share strong community values for enjoying and protecting these precious natural resources for current and future generations. Alachua County's long-standing support for local environmental protection programming is an affirmation of these community values.

Program Description

Water Resources focuses on protecting and managing the county's water resources through monitoring, regulation, and community education. By conducting water quality assessments, enforcing environmental regulations, and promoting sustainable practices, the program aims to safeguard the health of local water bodies and ensure a reliable water supply. Additionally, the program engages with the community to raise awareness about water conservation and the importance of maintaining a healthy ecosystem.

Natural Resources is dedicated to the conservation and management of the county's natural habitats, wildlife, and ecosystems. Through habitat restoration, species protection initiatives, and environmental monitoring, the program works to preserve biodiversity and maintain ecological balance. Additionally, the program engages the community in environmental stewardship through educational outreach and volunteer opportunities, fostering a collective commitment to protecting natural resources.

Environmental Protection Department Narratives

Petroleum Cleanup and Tank Compliance oversees the remediation of petroleum-contaminated sites and ensures compliance with state and federal regulations for storage tanks. By conducting site assessments, coordinating clean-up efforts, and monitoring tank systems, the program mitigates environmental hazards and protects public health. Additionally, the program provides guidance and support to tank owners and operators to prevent leaks and spills, promoting environmental safety and sustainability.

Hazardous Materials is responsible for managing and mitigating risks associated with the storage, use, and disposal of hazardous substances. Through regular inspections, emergency response coordination, and community education, the program ensures the safe handling of hazardous materials to protect public health and the environment. Additionally, the program provides resources and support for businesses and residents to comply with hazardous materials regulations and promote safe practices.

Land Conservation and Management focuses on preserving and managing natural areas to protect biodiversity, water resources, and scenic landscapes. By acquiring and restoring critical habitats, the program ensures the long-term conservation of native species and ecosystems. Additionally, the program promotes public enjoyment and education through the development of trails, recreational opportunities, and outreach initiatives, fostering a community connection to the natural environment.

Arboriculture Program is charged with implementing the County tree planting program and with the mission to establish High Value Trees, appropriate for site conditions on County owned rights-of-way, developed County properties, and properties directly influencing the public sphere.

Mission Statement

The Department of Facilities Management's mission is to provide safe, clean, productive, well-maintained and energy efficient Alachua County Facilities for our staff, constitutional offices, and all citizens of Alachua County.

Vision Statement

Our vision is to create and maintain a professional, innovative, accountable, and respected Facilities Management team that is efficient and responsive to the needs of its customers.

Executive Summary

The Facilities Management Department maintains both county owned and leased facilities that keep Alachua County government working efficiently. The goal of the Facilities Management Department is to ensure that every citizen, constitutional officer, and staff member enter a building that is safe, clean, and environmentally sound. Facilities Management continues to look for ways to perform services in a more cost and time efficient manner.

Program Descriptions

Facilities Management and Building Services is dedicated to the upkeep and repair of county-owned buildings and infrastructure, ensuring safe and functional environments for public use and county operations. Through custodial services, routine inspections, preventative maintenance, and timely repairs, the program addresses structural, mechanical, and aesthetic issues to prolong the lifespan of facilities. Additionally, the program emphasizes sustainability and efficiency, implementing energy-saving measures and environmentally friendly practices in all maintenance activities.

Capital Preservation Program focuses on the long-term maintenance and enhancement of county-owned assets, including buildings, infrastructure, and public spaces. By prioritizing projects based on need and impact, the program ensures that critical facilities and infrastructure remain safe, functional, and efficient. Mission Statement

The Department of Fire Rescue's mission: Public servants dedicated to enhancing and caring for the lives of those in our community through preparedness and an immediate response to all of life's emergencies.

Vision Statement

Alachua County Fire Rescue, a diverse organization, is recognized as an innovative leader in public safety services that is sought out and emulated by others.

Executive Summary

The Fire Rescue Department provides a full range of emergency and non-emergency life safety services to the citizens and visitors of Alachua County. Those services include Fire Protection/Suppression, Emergency Medical Services/Rescue, Emergency Management, and Enhanced 911 services.

Fire Protection/Suppression Services are provided throughout the unincorporated areas of the County and the Cities of Alachua, Archer, Hawthorne, Micanopy, and Waldo. Reciprocal automatic aid is also provided to all municipalities within Alachua County via the Fire Services Network.

The department is the primary and sole provider of emergency (911) and non-emergency Advanced Life Support (ALS) Emergency Medical Service (EMS) Transportation services in Alachua County. The Department is also a provider of ALS non-transport first responder services throughout the County.

Program Descriptions

Emergency Management services are provided Countywide, irrespective of political boundaries. County Emergency Management is the "authority having jurisdiction" for disaster management.

Enhanced 911 Office addresses services are provided throughout Alachua County. Alachua County, except for the Town of Micanopy and a portion of the City of High Springs, is addressed on a countywide grid.

Emergency Medical Services/Transport All services provided by the Fire Rescue Department are provided under the authority of Alachua County Codes/Ordinances, Florida Statutes, adopted 2004 Fire/EMS Master Plan and 2012 Update, Board of County Commissioner (BoCC) Fire Service Delivery Core Principals, and the National Fire Protection Association (NFPA).

Fire Rescue Department Narratives

Fire Rescue Department, under the Policy and Funding of the BoCC, works diligently and steadfast in the provision of emergency services to the citizens and visitors of Alachua County. The increasing demands placed on the health care systems throughout the country have impacted the complexity of patient needs and placed increased pressure on the entire healthcare community, including medical transport. The cost of preparedness and response have placed increased pressure on both financial and human resources within the department.

Fire Service-Municipal Service Business Unit (MSBU) Funded

Fire Response LOS Fire/EMS Master Plan Update and BoCC Fire Service Delivery Core Principals identifies three LOS standards (Rural, Urban Cluster, and Urban). Due to the suburban nature of unincorporated area, the county does not consider measurements of urban response standards. ACFR is measured in two of the three areas, Rural and Urban Cluster.

The Office of Emergency Management (OEM), by federal, state, and local laws, is responsible for the protection of life and property through a comprehensive emergency management program. This program consists of actions and activities that help prevent, prepare for, respond to, recover from, and mitigate the effects of disasters and/or emergencies in an all-hazards (natural, technological and human- caused) approach within Alachua County.

Mission Statement

The Department of Growth Management's mission is to enhance the quality of life for present and future generations in Alachua County by guiding growth and development through policy development, public participation, and coordination with municipalities and other government agencies, and to provide for the health and safety of the citizens of unincorporated Alachua County by ensuring compliance with building codes, land use, zoning, development regulations, and other applicable laws.

Vision Statement

To facilitate a built environment that makes efficient use of land, promotes multi-modal transportation, protects natural resources, promotes social equity and economic prosperity, and provides for safe and affordable housing.

Executive Summary

The Alachua County Growth Management Department works to create a community where people want to live, work, play and visit. The community's vision of quality of life is a sustainable community that promotes economic opportunity, protection of natural resources, and social equity in the interest of the health, safety, and welfare of the public. This is carried out through the County's comprehensive plan, land development regulations, development review and application of codes governing safe building construction and minimum housing, and through economic development initiatives.

Program Descriptions

Development Review Program oversees the evaluation and approval process for new development projects, ensuring they comply with local regulations and community standards. By coordinating with various county departments and stakeholders, the program addresses environmental, infrastructural, and safety concerns, promoting sustainable and orderly growth.

Planning Division serves the public through implementing Alachua County's Comprehensive Plan (CP) to ensure the successful balance of economic development with environmental protection, with continued growth in a manner that enhances communities.

Zoning Division supports the successful development of business and residential communities in Alachua County through the adoption of progressive zoning regulations that benefit and protect the citizens. The division supports the centralized permitting services initiative to enhance customer service.

Growth Management Department Narratives

Building Division ensures public health, safety, and welfare through the enforcement of federal, state, and local codes and ordinances governing construction. Plan reviews, permit issuances, and inspections are performed for structural, electrical, plumbing, gas, heating, air conditioning, refrigeration, solar, and ventilation systems for all residential and commercial construction projects to ensure compliance with these codes.

Transportation Program within Alachua County Growth Management is dedicated to enhance mobility, safety, and accessibility throughout the county. Through strategic planning, infrastructure improvements, and public transit initiatives, the program addresses the evolving transportation needs of residents and businesses. Additionally, the program collaborates with regional partners and stakeholders to develop integrated transportation solutions that support economic vitality and environmental sustainability.

Mission Statement

The Department of Information & Telecommunications Services' mission is to design and maintain a connected community environment where information can flow seamlessly between government, citizens, and organizations by providing high quality customer service and expansion of the County's use of technology.

Vision Statement

To create and implement technology by which all residents, businesses, local governments, and employees can access timely, secure, and relevant government information at any time and from anywhere. Information & Telecommunications Services (ITS) strives to improve business processes, develop technology tools, and provide customer service in an efficient and cost-effective manner while remaining current and modern in an ever changing and fluid environment.

Executive Summary

The Information & Telecommunications Services (ITS) Department is constantly striving to provide the highest level of information technology service to the employees of Alachua County, as well as electronic information for the citizens of Alachua County. We accomplish this by continually upgrading the information technology infrastructure to meet the growing demands for new services. ITS is proactively moving the County's operating systems into the new technology age.

Program Descriptions

Network Program is dedicated to maintaining a secure, reliable, and efficient information technology infrastructure to support county operations. Through ongoing monitoring, maintenance, and upgrades, the program ensures that county departments have access to the necessary technology and resources to deliver essential services to residents. Additionally, the program implements cybersecurity measures to safeguard sensitive data and protect against potential threats.

Applications Program focuses on developing and maintaining software solutions to optimize county operations and enhance service delivery. Collaborating with departments aims to improve efficiency and effectiveness in various areas, from permitting to public records management. Additionally, the program provides training and support to ensure that county staff can utilize these applications effectively, fostering innovation and productivity across the organization.

Client Services Program is dedicated to providing comprehensive technical support to county employees, ensuring smooth operation of IT systems and services. Through a helpdesk and onsite assistance, the program offers troubleshooting, training, and guidance to address various IT issues and challenges. Additionally, the

Mission Statement

The Department of Public Works' mission is to provide stewardship of assigned County-owned fleet equipment, infrastructure – including transportation, and works with the community to support growth that balances environmental, social and community development needs.

Vision Statement

Collaborate with the community, county departments, and other agencies to plan, build and maintain the community's infrastructure to the highest standards allowable.

Executive Summary

The department's commitment to maintaining and enhancing critical infrastructure, facilities, and services essential for the community's well-being and economic vitality. Through comprehensive planning, efficient operations, and sustainable practices, Public Works ensures the reliability and safety of transportation systems, utilities, and public spaces. By prioritizing collaboration, innovation, and responsiveness, the department aims to meet the present and future needs of residents while fostering a resilient and thriving community.

Program Descriptions

Fleet Management Division ensures in-shop and road repair services are available or scheduled (preventative maintenance) and unscheduled maintenance of county owned vehicles and off-road equipment. Service is provided by fleet mechanics, support personnel, and/or contracted vendors.

Road Maintenance crews are now divided into six (6) units: Mowing, Grading, Stormwater, Construction, Right of Way Maintenance, and Traffic Maintenance. By moving to task-oriented units, Public Works continues to improve its response time and service requests completion rates.

Stormwater Crew continues to improve the County's drainage system and maintain existing structures. The department continues its implementation of an asset management and work order system, Cityworks. With the resources that are available to the department, we incorporate sustainable methods into our daily work, while continuing to strive to achieve the goals of the Commission's Strategic Guide and the Energy Conservation Strategies Committee report.

Engineering and Operations (includes Development Review and Transportation) The Division's funding continues to struggle to keep up with the costs of providing transportation system services. The difficulty comes primarily from the continued"

flattening” of the gas tax revenue, while costs of providing mandated services have continued to increase with inflation. Even with the many positive decisions in recent years to generate additional funding for roads, transportation system needs outweigh the anticipated revenues.

FY 2024 Major Priorities

Infrastructure

- NW 1st St/CR 2082/CR 234 (from Entrance to Paynes Prairie Maintenance Office to US 441) – Major Rehab
- NE/NW 53rd Ave (from US 441 to SR 24) – Major Rehab
- The stormwater division will be enhancing Ellis Park by designing wicks to mitigate downstream flooding.

Significant Budget Variances

The FY25 County Manager budget includes Radar Data Recorders and the reduction of the 12.0 FTE construction crew. Fund 149 Gas Tax budget has also been adjusted due to gas tax revenues not keeping pace with inflation.

Solid Waste and Resource Recovery Department Narratives

Mission Statement

The Department of Solid Waste and Resource Recovery's (SWRR) mission is to provide clean, efficient, economical, and environmentally sound management of solid waste resources in Alachua County.

Vision Statement

Focus on transitioning the current disposal and transfer system to a resource recovery based system to maximize the efficient and cost-effective use of our resources.

The Department of Solid Waste and Resource Recovery will:

- be a benchmark leader in efficient, cost effective and integrated resource recovery,
- use the latest, viable and cost-effective technology in the industry,
- be recognized locally and nationally as a model for programs and customer service,
- be networked with other providers of resource recovery.

Executive Summary

The Department of Solid Waste and Resource Recovery provides a variety of solid waste and resource recovery management services, including receiving, collecting, processing, and transporting solid waste, and recycling and various methods of promoting waste reduction. The goal of the Department is to continue to develop a resource recovery-based facility as the focus of our business model.

The priority issues facing the Department in the next Fiscal Year are the continued implementation of the adopted zero waste strategy report and implementation plan, addressing the capacity issues at the rural collection center and household hazardous waste facilities and addressing infrastructure issues at the Leveda Brown Environmental Park.

PROGRAM DESCRIPTIONS:

Leveda Brown Environmental Park and Transfer Station (LBEP) is the hub of the Solid Waste and Resource Recovery's system. This facility is responsible for the safe and efficient management of all municipal solid waste and much of the recycling generated within Alachua County. The facility hosts, on site, the Hazardous Waste Facility, and the Materials Recovery Facility (MRF) is located within the Leveda Brown Environmental Park. This facility receives, processes, and markets recyclables. In Alachua, a dual stream recycling system is predominately utilized where fibrous materials such as paper and cardboard are collected in a separate bin from containers such as plastic or glass bottles and aluminum or steel cans. At the Materials Recovery Facility there are two distinct sorting lines which process these streams so that they remain separate and keep contamination to a minimum. The materials received at this facility come from both residential and commercial sources.

Solid Waste and Resource Recovery Department Narratives

Hazardous Waste Management provides a County-wide system for the proper disposal, reuse, and recycling of hazardous materials, automotive fluids, household chemicals, unwanted pharmaceuticals, waste vegetable oil, latex paint and electronic waste generated by households and small businesses. Hazardous Materials are collected primarily at the Hazardous Waste Collection Center (HWCC), located at the Leveda Brown Environmental Park and Transfer Station. Additional drop off sites are located within each of the five Rural Collection Centers. Through a grant from the Florida Department of Environmental Protection (FDEP), Hazardous Waste Management conducts hazardous waste collection events in 9 neighboring counties.

Rural Recycling and Solid Waste Collection Centers consist of five Rural Collection Centers are located throughout the unincorporated area of the County offering alternative disposal sites for limited amounts of municipal solid waste as well as recycling and Household Hazardous Waste drop off and reuse areas. These services are available to citizens countywide and are primarily used by those citizens in the unincorporated area who do not have curbside services. Non-county residents may use the centers by purchasing a non-resident permit.

Waste Collection and Alternatives manages the curbside collection contract, provides customer service, coordinates enforcement for compliance to the curbside contract and solid waste ordinances, manages and/or assists other departments with non-ad valorem assessments, provides a variety of public education and outreach programs, manages a multi-media advertising campaign promoting waste reduction, and operates the Tools for Schools program.

Solid Waste Engineering and Compliance Monitoring provides oversight and technical expertise on all solid waste management activities, programs, and processes. It ensures that all solid waste facilities and operations comply with all state and federal regulations. In 2014, the Board of County Commissioners approved the acquisition of 647 acres of land which contain two closed landfills that are under a consent order from the Florida Department of Environmental Protection for continued monitoring and remediation.

FY 2024 Major Priorities

All Other Mandatory and Discretionary Services

- Oversee the transition of commercial customers to the exclusive commercial waste franchise.

Environment

- Mitigate the stormwater intrusion issues at the closed Southwest Landfill.

Non-Departmental

Non-Departmental Departmental Narratives

Mission Statement

To manage County-wide accounts in a professional and accurate manner as stipulated by Florida Statutes and Generally Accepted Accounting Principles.

Summary of Services Provided

This collection of funds includes Debt Service, Reserves, Computer Replacement Fund, and Vehicle Replacement Fund in addition to Special Expense, Indirect Costs, and County-wide revenue and transfer activities.

Computer Replacement Fund

This fund purchases replacement computers and electronic equipment per the Computer Equipment Replacement Administrative Regulation #03-03 (AP-06). Departments contribute to this fund on an annual basis in order to ensure that funds are available for use when replacement equipment is required. The Information and Telecommunications Services Department manages this fund and works closely with Management and Budget to efficiently coordinate the replacement procedure.

County-Wide Revenue and Transfer Activities

Efficiently manages and accounts for intra-departmental transfers and transfers to the constitutional offices in addition to non-department specific revenue receipts while complying with Florida Statutes and Generally Accepted Accounting Principles.

Debt Service

Ensures that the long-term debt of Alachua County is administered in the most cost-efficient and prudent manner possible within the parameters of Generally Accepted Accounting Principles and Florida Statutes. Funds set up for Debt Service are used to record budget, liabilities, and payment of principal and interest related to the long-term debt of Alachua County. The County has refunded certain obligations by placing amounts into escrow accounts that have been invested so the accumulated investment and interest earnings will be sufficient to pay the remaining principal and interest on the refunded obligations as they become due.

Indirect Costs

A recognized accounting/budgeting methodology used to apportion costs incurred by the General Fund. Indirect costs include central services shared with other funds. Such costs include shared administrative expenses where a department or agency incurs costs for support that it provides to other departments/agencies (e.g., legal, finance, human resources, facilities, maintenance, technology).

Non-Departmental Departmental Narratives

Reserves

Management and Budget ensures that sufficient reserves are budgeted to provide funding for unanticipated contingencies and follow amounts found in the Budget Management Administrative Procedures adopted by the Board of County Commissioners. The Board of County Commissioners' approval is required to expend these funds.

Special Expense

The Special Expense budget accounts for expenditures which are non-departmental in nature. This budget is administered by Management and Budget and includes such programs as unemployment compensation for Board departments, external auditor costs, the Value Adjustment Board attorneys, and the cost for TRIM mailing. The use of these funds requires specific approval from the Assistant County Manager for Budget & Fiscal Services.

Vehicle Replacement Fund

This fund purchases replacement vehicles per the Fleet Replacement Regulation #03- 02 (AP-15). Departments contribute to this fund by a percentage of the purchase price on an annual basis, in order to ensure that funds are available for use when replacement vehicles are required. Fleet Management manages this fund and works closely with Management and Budget to efficiently coordinate the replacement procedure.

Mission Statement

SERVICE TO THE COMMUNITY FIRST, COMMITMENT TO THE EMPLOYEES
ALWAYS

“...through our partnerships we are ACSO – **A**lways **C**ommitted to **S**erving **O**thers.”

The goals are:

Goal #1: Provide the Highest Level of Protection to our Citizens and Community

Goal #2: Provide the Highest Level of Professional Service to our Citizens and Community

Goal #3: Provide our Employees with the Support, Development and Resources that Promotes Excellence in Protection and Service.

Summary of Services Provided

The Sheriff is a Constitutional Officer entrusted with powers and duties prescribed in Florida State Statute (FSS). We are an accredited Agency at the Excelsior level that is organized into three key areas: Operations, Support Services, and Administrative Services. The Sheriff's Leadership Team is comprised of an Undersheriff, Majors, Chief of Staff, and General Counsel. All personnel are expected to provide superior service to the community that we have been entrusted to serve.

Operations includes areas such as Patrol, Aviation Unit, Juvenile Relations, Special Teams, Training, School Resource Officers and Crossing Guards, Teen Court, Rural Deputies, and K-9 Unit.

Support Services includes areas such as Criminal Investigations, Professional Standards, Major Crimes, Forensics, Court Security, Warrants, Victim Advocate, False Alarm Reduction Unit, and Policy & Accreditation Unit.

Administrative Services includes areas such as Information Technology, Accounting and Budget, Human Resources, Records, Combined Communications Center, Fleet, Property, Evidence, and Facilities.

The Alachua County Jail is an accredited facility at the Excelsior level under the purview of the Sheriff through an Interlocal Agreement with the Board of County Commissioners.

Constitutional Officers – Sheriff

The Combined Communications Center is an accredited facility that operates under an Interlocal Agreement and provides our community with effective emergency public safety communication services to safeguard life and property. It is responsible for the rapid and accurate collection, exchange and dissemination of information relating to emergencies and other vital public safety functions. Call takers at the Center answer incoming telephone calls received on emergency 911 lines, administrative non-emergency lines, and various other sources. These calls are triaged to determine what type and level of service would provide the most effective level of assistance for the situation. Calls are entered into a Computer Aided Dispatch System and sent to Radio Operators who dispatch the appropriate law enforcement, fire, and/or emergency medical resources to the scene.

Judicial

Judicial

Mission Statement

While each of the Judicial Offices have distinct missions, they have in common the same goal of promoting justice for all citizens of Alachua County.

Court Administration:

To provide professional management to ensure the proper operation of, and the public's access to, the court.

Office of the State Attorney:

To seek Justice for Florida.

Pursuant to Article V Section 17 of the Constitution of the State of Florida the State Attorney is charged with being the Chief Prosecuting Officer in all criminal trial courts in his/her respective circuit and shall perform all other duties prescribed by general law. Chapter 27 and 29 of the Florida Statutes and the Florida Rules of Criminal Procedure further elaborate upon the duties of the State Attorney. The State Attorney with the aid of appointed assistants and staff shall appear in the circuit and county courts within his/her judicial circuit and prosecute or defend on behalf of the State, all suits, applications, or motions, civil or criminal, in which the State is a party. The Eighth Judicial Circuit is comprised of Alachua, Baker, Bradford, Gilchrist, Levy, and Union counties.

Office of the Public Defender:

The Public Defender is responsible for representation of people facing a loss of liberty throughout the 8th Judicial Circuit. The Public Defender represents clients charged with felony, misdemeanor, and criminal traffic offenses. The Public Defender represents children charged with criminal offenses. The Public Defender also represents clients in certain civil proceedings, such as those facing commitment under Baker Act and other mental health proceedings; and those facing civil commitment pursuant to the Jimmy Ryce Act. The Public Defender provides administration and management of its personnel and all fiscal matters relating to State and County budgeting. In addition, the Public Defender maintains an electronic case management system to assist with case processing and records management. The Office is headquartered in Gainesville, with branch offices in Macclenny, Starke, and Bronson.

Office of the Regional Conflict Counsel:

To protect constitutional and statutory rights in a cost-effective manner and provide legal representation to indigent defendants when appointed by the Court primarily in those cases when the Public Defender has a conflict.

Judicial

Guardian ad Litem:

The Guardian ad Litem Program (GALP) is appointed by the court to advocate for the best interests of children who have been abused, neglected, or abandoned. Each child is represented by an advocacy team: Volunteer Child Advocate (VCA), Child Advocate Manager (CAM), and Program Attorney. The team provides best interest advocacy for the children in the courtroom and at other critical meetings where important decisions are being made. These meetings include but are not limited to meetings involved in permanency, placement, medical care, adoption, and independent living. Children are visited at least once each month by the VCA and/or CAM for the purpose of building a relationship with the child and gathering information that will allow the GALP to be the voice for children in the courtroom and the community.

Budgeting & Fund Structures

BUDGET PROCESS

The budget serves as a multipurpose document, functioning as a policy, financial, communication, and operations guide. Outlining strategic priorities, providing details of revenues and expenditures, and facilitates clear communication with stakeholders. This comprehensive approach ensures readers understand the organization's direction, financial health, and operational efficiency, empowering informed decision-making and effective management.

OPERATING AND CAPITAL BUDGET PLANNING

BOARD PRIORITIES

The Alachua County Board of County Commissioners and County Leadership initiated a strategic planning process in 2020. The Board formally adopted the FY 2022 – FY 2026 Strategic Plan on February 8, 2022, and redefined the Strategic Guide on February 28, 2023. The Board's mission, values, and strategic guide are incorporated to align the budget. More information about the County's Strategic Plan, focus areas, and departmental metrics can be found in Section 8.

BUDGET PLANNING

During the January Board meeting, the Board officially approved a budget calendar. This calendar outlines important dates for Statutory Public Hearings and Special Budget Meetings. It is distributed to the public, staff members, as well as Constitutional and Judicial offices.

In early February, County departments evaluate the impacts on program service levels and determine their internal service requirements for the upcoming budget year. This is done through utilizing the department's budget workbook and submitting budget proposal requests. Additionally, the capital planning process involves assessing capital needs and identifying projects by departments, while also reviewing ongoing projects. Both processes enable the Office of Management and Budget (OMB) and County Administration to conduct financial analysis, evaluate projects, and plan for the impacts on both capital projects and operating budgets.

BUDGET WORKBOOK

The Budget workbook equips departments with various documents to facilitate budget planning by providing budget and actual financial histories. These components include:

- Budget Adjustments Tab: Lists all line-item changes to existing department budgets, including new requests.
- Schedule 1 Personnel Detail Tab: Provides staff data charged to the department, including open positions.
- Schedule 2 Certifications Tab: Presents the current list of staff certifications, if any.
- Data History Tab: Offers a five-year history of actuals and the current budget, along with actual revenues and expenses.
- Contract Worksheet Tab: Supplies data from the procurement's contract management system.
- Computer Inventory Tab: Furnishes departmental data from the computer replacement and Information Technology inventory.
- Travel Calculator Worksheet Tab: Assists in identifying in-state and out-of-state travel costs, including hotel, registrations, meals, and transportation expenses.

BUDGET PROCESS

- Memberships, Certifications & Non-Travel Training Tab: Identifies departmental costs related to memberships, certifications, and non-travel training.
- Promotional - Public Purpose Tab: Aids in identifying eligible program-related costs utilizing taxpayer dollars for educational or employee morale programs.
- Vehicle List: Pre-filled by OMB based on information provided by Fleet.
- Grant Worksheet: Helps departments identify existing and proposed grant-related revenues and expenses.
- Goals & Metrics: Establishes goals for the budget year linked to the department budget.
- Capital Projects & Other: Lists existing projects for review with the budget analyst and outlines the process for proposing new projects. It includes a Building List Master List developed by Facilities, OMB, and Risk for review and notifications of any changes.
- Budget Proposal Request is a supplemental form for which, should a department wish to make a new request for the upcoming budget year, details of the request must include justification, links to strategic goals along with costs for 5 years.
- An Employee Calculator is included in the Budget Proposal Request to ensure that salary plus benefits plus all related operational costs are captured in the request.

BUDGET AND FINANCIAL POLICIES SUMMARY

Alachua County Board of County Commissioners and its staff have a fiduciary responsibility to its citizens to be stewards of public funds and plan for adequate funding to carry out public services. The County Board of Commissioners has established and maintains sound financial and budgeting policies and procedures to comply with all applicable state and federal laws.

OMB periodically reviews and revises the budget and financial policies of the Board of County Commissioners. During the March Board meeting, the Board officially approves any policy updates recommended by OMB. Additionally, at this meeting, the Board engages in discussions with staff regarding strategic priorities and focus areas.

ETHICS POLICY: The Office of Management and Budget embraces professional ethics as recommended by the Government Finance Officers Association and has adopted a Statement of Ethics defining the standards we hold in the course of our duties.

BUDGET MANAGEMENT: Policy to exercise the highest level of budgetary control per Florida Statute Chapter 129 with an emphasis on transparency to communicate the County's annual budget process from conception to finality, including amendments throughout the fiscal year.

CAPITAL PROGRAM: The Capital Program provides the means through which Alachua County plans a programmed approach to utilize financial resources to meet the County's service and facility needs. A five-year plan for capital improvements is developed and updated annually.

BUDGET PROCESS

DEBT MANAGEMENT: Policy to recognize the capital improvement needs of the County and utilize debt to maximize the County's ability to provide the highest-level services and infrastructure, considering existing legal, economic, financial and debt market considerations while balancing the taxpayers' ability and desire to pay.

ENERGY CONSERVATION INVESTMENT: Policy which annually funds capital projects meeting the Board of County Commissioners' energy and utility objectives as found in the comprehensive plan and financial policies.

FINANCIAL MANAGEMENT: Policy to establish the framework for the County's overall financial planning and management which also demonstrates for the citizenry, credit rating industry and prospective investors the County's commitment to sound financial management and fiscal integrity.

HEALTH INSURANCE MANAGEMENT POLICY: The County's Self-Insurance Review Committee has reviewed and recommended a Procedure for Fund 507 Reserve Management.

MUNICIPAL SERVICES BENEFIT UNIT CITIZEN-INITIATED PROGRAM: Policy for the creation of citizen-initiated Municipal Services Benefit Units (MSBUs) along with the procedures for levying, collecting, adjusting, supporting, and enforcing the units. The policy outlines the administration of non-ad valorem assessments levied for publicly owned roads, road related capital improvements, and periodic maintenance of included roads.

PERFORMANCE MANAGEMENT: This policy establishes the framework for the County's commitment to performance management. Performance Management has specific guidelines and best practices documented by the Government Finance Officers Association (GFOA) and the International City/County Management Association (ICMA).

PUBLIC PURPOSE: Revenues received by the County are public funds and as such their use must serve a public purpose. Public Purpose is defined as a county action or direction, the primary purpose for which provides a declared public benefit. The Board hereby declares that the following objectives support the County's overall mission and serve a valid public purpose.

OPERATING BUDGET DEVELOPMENT AND REVIEW

Each department, including constitutional and judicial officers, is tasked with creating their operating budget requests. These requests are submitted to OMB in late February. Constitutional officers follow a different timeline, submitting their budgets in May and June as outlined by Florida Statute and local regulations. From February to May, all budget requests undergo analysis, and revenue estimates are revised. Simultaneously, the

BUDGET PROCESS

capital and financial plan budget is developed and reviewed, although it follows a distinct process detailed in the subsequent section.

CAPITAL BUDGET AND FINANCIAL PLAN

The Capital Budget and Financial Plan (CFPB) outlines a five-year strategy for allocating funds for public physical improvements. This plan details proposed capital projects, their start dates, anticipated funding amounts (including operating impacts), and the financing methods for each expenditure. Annually, OMB leads the process of developing a capital program and budget.

BUDGET ELEMENTS

The County's budget is constructed based on revenues, expenditures, debt, and reserves, in alignment with the Board of County Commissioners' Strategic Guide. According to Chapter 129 of the Florida Statutes, local county governments must adopt balanced budgets, and this statute outlines the requirements for the county's annual budget.

REVENUES

Revenues Florida State Statute 200.065(2)(a)(1) provides that each taxing authority shall utilize not less than ninety-five percent (95%) of taxable value for budget. The General Fund budgets Ad Valorem revenues will be based on a 95% tax collection rate, or a rate that is consistent with prior years' collection trends as computed against the Current Year Gross Taxable Value as shown on Form DR-420 provided to the County by the Alachua County Property Appraiser.

Revenue projections for all major non-ad valorem revenue sources will be based on prudent trend analysis that considers current and projected economic conditions. Budget projections for State shared revenues will consider State of Florida estimates that are contained in the Local Government Financial Information Handbook and on the State of Florida website as one of several factors for determining final revenue estimates.

The use of revenues which have been pledged to bond holders will conform to bond covenants which commit those revenues.

EXPENDITURES

Office of Management and Budget staff review with department directors their respective budgets at the department and program level and allocate appropriations to specific line items.

Personal services for bargaining employees will be estimated based on collective bargaining provisions governing salary adjustments, whereas personal services for non-bargaining unit employees are based on parameters defined by the County Manager and approved by the County Commission.

BUDGET PROCESS

Health insurance premiums and related benefit contributions to be paid on behalf of County employees will be estimated based on current market conditions that affect annual premium adjustments. Reviews will be completed annually and will be used to assist with recording medical reserves, monitoring liquidity and medical inflation and to facilitate State compliance.

Incorporated into department operations includes program or activity costs, and what benefits are derived from these programs or activities allows the County to make informed funding decisions. Departments shall utilize performance measures to track performance, support operational improvement, and determine effective use of resources for each program. Inflationary factors and changes in population will be considered in preparing cost of service delivery.

Internal Service Funds will be self-supporting whenever possible. Internal service fees and the direct impact to County operating budgets shall be analyzed annually as part of the budget process and will be budgeted centrally for all departments.

DEBT

The County shall review its outstanding debt on an on-going basis for the purpose of determining if the financial marketplace will provide the County with the opportunity to refund any issuance for debt service savings. Revenues pledged are appropriated for debt service payments and any remainder is appropriated for general use purposes.

RESERVES

A Reserve for contingency requests in the General Fund, MSTU Law Enforcement and MSBU Fire Funds and Gas Tax Fund must be approved by the Board of County Commissioners. A reserve for contingency shall be calculated and budgeted by the Office of Management and Budget at a level not less than 5% of the General Fund, MSTU Law Fund, and MSBU Fire Fund and Gas Tax Fund operating revenues, respectively, and an amount not greater than 10% of the total budget and in accordance with Florida Statute Chapter 129.01(2)(c) for each operating fund. If the reserve for contingency falls below 50% of the minimum level, the reserves shall be reestablished over a period not to exceed three fiscal years.

The Self-Insurance Risk Program will be funded at a confidence level of a minimum of 75 percent, based on an annual Cost of Risk Allocation Study and may include use of accumulated retained earnings to maintain this confidence level. Budget for the Self-Insurance Risk Program are made by Board approval as stated in Alachua County Code Chapter 28. The County shall maintain two months of anticipated claims for a Reserve for Contingency/ Catastrophic Loss in the Self-Insurance Risk Fund.

Health Insurance Fund will be maintained at a level that will, together with purchased insurance policies, adequately fund medical claims risk in accordance with Chapter 28 of the Alachua County Code.

BUDGET PROCESS

Retained Earnings in the Solid Waste Fund shall be maintained at a beginning balance of \$2,500,000.

FUND BALANCES

BEGINNING FUND BALANCE represents the residual resources available to be used at the end of the previous fiscal year. Some influences taken into consideration when calculating a projected beginning fund balance for the next fiscal year include:

All authorized positions are budgeted at 100% for the year. However, due to a variety of factors, primarily turnover, not every department will use their entire Personal Services budget.

Grants and Aid from the County to other governments and non-profit agencies are budgeted at the full allocation. However, most of these grants are reimbursements for services provided with a maximum allocation by year end and routinely a balance remains.

Contracts for Services and Capital Equipment are budgeted at the full estimated amount so the contract or purchase order can be awarded. However, there are some contracts where not all work is completed by year end, some equipment will not be received by year end, or actual costs are less than the published not-to-exceed amount.

ENDING FUND BALANCE represents the amount protected to ensure fiscal stability and positive cash flow particularly during the beginning of a fiscal year prior to the receipt of new revenue (ad valorem, sales tax, fuel tax, et cetera).

FUND BALANCE (total budgeted Fund Balance) is the difference between Beginning and Ending Fund Balance and represents the revenue offset for the budgeted Reserves and some of the one-time expenditures anticipated in the coming fiscal year. A study of changes in fund balances can indicate financial trends and fiscal health. Extreme quantities of fund balances or large fluctuations may indicate policy adjustments by the governing body or changes in budget procedures.

- General Fund – The budgeted Estimated Ending Fund balance will be at a minimum 10% of projected revenue.
- MSTU Law Enforcement, MSBU Fire Fund and Gas Tax Fund – The budgeted Estimated Ending Fund Balance will be at a minimum 5% of projected revenue.
- All Other Operating Funds – The amount of ending fund balance to be budgeted shall be analyzed and determined during the annual budget process.
- To the extent feasible, the actual unassigned plus assigned ending fund balances for the County's General Fund, MSTU Law Enforcement and MSBU Fire Funds will be at least 2 months of the appropriations.

SUMMARIES AND DEPARTMENTS

The budget document provides summaries which demonstrate the Fund to Department Relationships, Sources and Uses, Sources and Expenses by Major Fund, Reserves by

BUDGET PROCESS

Major Fund and Fund Balances. For each department, there is a department title, program organization chart with full-time equivalent (FTE) position counts, mission statement, program services description, goals, performance, and 3-year historical summary of expenditures.

BUDGET ADOPTION AND CITIZEN INPUT

Alachua County actively encourages citizen participation in the budget process by hosting various public hearings and budget meetings throughout the year, all of which are open to the public.

The Truth in Millage (TRIM) Act, established by the Florida Legislature in 1980, aims to inform taxpayers about their tax obligations to each governmental entity. This law requires the property appraiser to send a TRIM notice to property owners, detailing the taxes levied and the amount owed to each taxing authority. The specific requirements for compliance are outlined in Florida Statute 200.065.

In June, the County Manager presents the proposed budget, along with the Budget Message, to the Board. Additionally, during the first Board meeting in July, the Board sets the maximum millage rate. Special Budget Meetings with the Board are scheduled for August, during which departmental budgets are reviewed in detail with the County Manager, Deputy County Manager, and Assistant County Managers.

In September, the Board finalizes the budget at the second of the two mandatory public hearings, where citizens can provide input. Based on this feedback or actions taken by the Board, adjustments to the tentative budget may be necessary before final adoption. During the final public hearing, the Board officially approves the final millage rates and budget through a resolution.

BUDGET AMENDMENTS AND MONITORING

Budgetary control is maintained at the department level, with support from OMB. Departments can amend their budgets following County policy outlined in the Budget Management Policy (refer to Appendices). The County Manager has the authority to authorize budget adjustments between Functions, as defined by the Uniform Chart of Accounts (also known as the Uniform Accounting System Manual for Florida Local Governments), up to \$50,000. Adjustments between categories that do not affect Function or Accounting Fund totals can be approved by the County Manager. Quarterly reports on budget adjustments will be generated and included in the Board agenda alongside the quarterly Financial Reports. The Board of County Commissioners must approve all other amendments.

Monitoring budgets is essential to ensure financial resources are used efficiently and projects stay on track. Regular oversight by OMB and departments helps identify potential issues early, allowing for timely adjustments to prevent overspending.

FUND STRUCTURE

BASIS OF ACCOUNTING AND BUDGETING

BASIS OF ACCOUNTING

The accounts of the County are organized based on funds and account groups, each of which constitutes a separate accounting entity. A fund is a group of functions combined into a separate accounting entity (corresponding to a corporation in the private sector) having its own assets, liabilities, equity, revenues, and expenditures and/or expenses. The types of funds used are determined by Generally Accepted Accounting Principles (GAAP). The various funds are the result of the diverse nature of the County's operations and compliance with legal provisions. These funds have been grouped by type to facilitate understanding of the financial statements.

BASIS OF BUDGETING

Alachua County's Governmental and Fiduciary Funds are prepared on a modified accrual basis. Revenues are recognized when measurable and available under budgetary basis. The following revenues are considered to be susceptible to accrual: taxes, charges for services, interest, state revenue sharing, federal forestry revenue, insurance agent revenues, 5th & 6th cent gas tax, federal and state grants, planning and zoning revenue, communication services tax, and special assessments.

Obligations are budgeted as expenses and generally recorded when the related fund liability is incurred. An exception is principal and interest on general long-term debt which is recorded when due.

The budgets of the proprietary funds (enterprise and internal service) are prepared on an accrual basis. The revenues are recognized when earned and their expenses are recognized when incurred.

Florida state law requires that receipts from all sources be budgeted at 95% of anticipated receipts.

FUND STRUCTURE

The financial activities of the County are recorded in separate funds. Each fund is considered a separate accounting entity. The operations of each fund are accounted for within a set of self-balancing accounts that include assets, liabilities, fund equity, revenues, and expenditures, or expenses, as necessary. An account group is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

FUND 001 GENERAL FUND - The general operating fund of the Board. This fund is used to account for all financial transactions not required to be accounted for in another fund. The majority of revenues are collected as ad valorem taxes and other revenues include fines, fees, and licenses. Generally, all departments are supported by the General Fund. However, more than half is dedicated to Public Safety which includes the County Jail, County Sheriff, Emergency Medical Services and Court Services.

SPECIAL REVENUE FUNDS - Funds used to account for special assessments and specific governmental revenue sources. Major capital projects that are restricted by law, or administrative action, for expenditures for specific purposes are not considered are legally restricted to specific expenditures. Municipal Service Taxing Unit (MSTU), Municipal Service Benefit Unit (MSBU), County Gas Tax, CHOICES and grants are in this category and are examples of special revenues that have legally restricted expenditures.

Fund 008 - Municipal Service Benefit Unit Unincorporated (MSBU) - Pays for County services (excluding Sheriff) dedicated to the unincorporated area of the County.

Fund 009 - Municipal Service Taxing Unit (MSTU) Law Enforcement - Pays for the majority of the Sheriff's patrol in the unincorporated area of the County through transfers to the Sheriff.

Fund 010 - CHOICES Program Fund - Voter approved on August 31, 2004, funded by a ¼ cent sales tax which was approved through December 2011 to provide health care services to the County's working citizens who need help.

Fund 011 - Municipal Service Benefit Unit (MSBU) Fire Protection - Provides firefighting and related services to citizens in the unincorporated area of the County.

Fund 021 - Wild Spaces Public Places Surtax - Voter approved November 8, 2016, an eight-year, half-cent sales tax to acquire and improve conservation lands and create, improve, and maintain parks and recreational facilities within Alachua County. On March 28, 2017, the County Commission adopted Resolution 17-36 establishing the Wild Spaces Public Places Citizens Oversight Board.

Funds 140 & 142 Wild Spaces Public Places, Road Repair, Fire Stations and Affordable Housing One Percent Sales Tax - On November 8, 2022, Alachua County voters passed this ten-year one-cent sales tax to acquire and improve lands for conservation, wildlife habitat, water quality, and recreation; operate and maintain parks and recreation facilities; repair roads and improve road safety; construct and renovate fire stations and other public facilities; acquire lands for affordable housing; fund economic development projects pursuant to Florida Statute 212.055(2)(d) (3); provide citizen oversight and independent audit.

Fund 144 - Combined Communication - Fees and fines collected by the Sheriff, pursuant to Section 121.37 of the Code of Ordinances of Alachua County, shall be deposited by the Sheriff into a special revenue fund.

Fund 146 - Stormwater Management - Board of County Commissioners adopted a stormwater assessment providing a dedicated funding source to allow the County to better measure and manage the County's stormwater system, improve the condition of stormwater infrastructure, provide pollution prevention education, monitor water quality, eliminate illegal connections and discharges, and enforce stormwater codes more proactively.

Fund 148 - Municipal Service Benefit Unit (MSBU) Refuse - Accounts for all revenues and expenditures related to refuse/garbage collection within the mandatory designated County collection areas in accordance with Florida Statute 403.706(1). The Refuse Collection Center is run by the County.

Fund 149 - Gas Tax Uses Fund - Primary operating fund of Public Works – Road & Bridge Department. The primary revenue source for this fund is fuel taxes as well as transfers in from the General Fund and Gas Tax Revenue Bonds.

DEBT SERVICE FUNDS - Funds used to record the funding and payment of principal and interest and other costs on debt to the County's long-term debt.

Fund 287 - 2016 Series Public Improvement (Bond) - Finance the costs of acquisition and construction of certain capital improvements within the County and to finance the costs of refunding certain Public Improvement Bonds.

Fund 288 - 2016 Series Gas Tax Refunding (Bond) - Finance the costs of acquisition and construction of certain road improvements within the County.

CAPITAL PROJECTS FUNDS - These funds are used to account for the acquisition or construction of major capital facilities.

Fund 300 - Capital Projects Fund - Accounts for bond proceeds and other allocations for general facilities improvements.

ENTERPRISE FUND – A fund used to report operations that provide services financed primarily by user charges. Alachua County has two such funds: Solid Waste; and Permits & Development.

Fund 400 - Solid Waste System Fund - Accounts for revenues and expenses associated with refuse/garbage disposal, recyclable reclaiming, care of closed landfills, and collection activities outside the mandated designated Alachua County collection area.

Fund 403 - Collection Centers - Accounts for the revenues and expenditures associated with the rural collections centers that collect solid waste, yard trash, bulk items, household hazardous waste and recycling items.

Fund 405 - Waste Management Assessment - Accounts for the revenues and expenditures associated with Alachua County's Waste Management Assessment.

Fund 406 - Closure/Post-Closure - Maintains the liability related to the closure of the Southwest Landfill.

INTERNAL SERVICE FUNDS – A fund used to account for goods or services provided by various departments to other departments of the Board on a cost-reimbursement basis. The County uses internal service funds to account for Computer Replacement, Vehicle Replacement, Telecommunications, Fleet Management, Self-Insurance, and Self-Funded Health Insurance.

Fund 501 - Self Insurance Fund - This fund was established for the purpose of self-insuring the County's Workers' Compensation and Liability exposures.

Fund 503 - Fleet Management - Encompasses all the costs associated with purchasing and maintaining Alachua County's Fleet.

Fund 507 - Health Insurance - Self funded insurance plan funded by County employees. This fund was established in accordance with Section 112.08 of Florida Statutes.

FIDUCIARY FUNDS (Trust & Agency Funds) are used to account for assets held by a governmental unit in a trustee capacity or as an agent for individuals, private organizations, other governmental units, or other funds. For instance, the Alachua County Housing Authority and the Law Library are two such funds.

Debt Management

DEBT MANAGEMENT

The Constitution of the State of Florida does not impose a debt limit. However, as part of the annual budget process, the Board of County Commissioners implements a comprehensive set of Financial Policies. These policies are designed to establish and document a framework for fiscal decision-making, enhancing the County's financial management. Among these policies, Debt Management stands out, providing guidance on the County's borrowing practices through various targets and ratios. These measures aim to strike a balance between the flexibility needed to secure capital and ensuring ongoing access to capital markets. Specific targets include:

- The current debt service costs without the dedicated limited ad valorem debt service shall not exceed 35% of the total General Fund.
- Debt service costs on "Direct Debt" shall not exceed 5% of total General Fund
- Debt service costs on "Direct Debt" shall not exceed 10% of total General Fund operating expenditures.
- Total net direct indebtedness shall not exceed 3% of the full valuation of taxable property in the County.
- Total net direct indebtedness shall not exceed \$750 per capita.
- Per capita debt shall not exceed 5% of per capita income.

The County consults with its financial advisors and bond counsel to explore the most cost-effective financing options for all debt issuances. This adherence to prudent fiscal management has allowed the County to make several long-term infrastructure improvements for its residents.

The County currently receives a bond rating from the national bond rating organization Moody's: "Alachua County has a very good credit position, and its Aa2 rating matches the US counties median of Aa2. Notable credit factors include a robust financial position, an extensive tax base and a healthy wealth and income profile. It also reflects a negligible debt burden and a somewhat elevated pension liability." - Moody's Investors Service. New York: Moody's Investors Service, 19AD. Issuer Comment December 16, 2020.

FUNDING MECHANISMS FOR GOVERNMENT

The Florida Constitution does not limit the amount of ad valorem taxes a county may levy for the payment of bonds authorized by voter referendum. The County is limited by Article VII, Section 9 of the Florida Constitution, however, to a maximum levy of 10 mills per \$1,000 of the assessed value of real estate and tangible personal property for county purposes other than the payment of voted bonds.

The County currently has the following major non-ad valorem revenues as follows:

- the local government half-cent sales tax,
- the communications services tax,
- the local option infrastructure surtax for community reinvestment,
- the voted fuel tax (9th ¢),
- the local option fuel tax (1-6¢),
- the county fuel tax (7th ¢),
- the constitutional fuel tax,
- the 4th cent tourist development tax,
- the 5th cent tourist development tax,
- traffic surcharge revenues, and

Many of the non-ad valorem revenues discussed here are limited in terms of use. For example, the county fuel tax and local option fuel tax are limited to transportation and road improvement related costs, including debt service payments on transportation bonds; the 4th and 5th cents of the tourist development tax are limited to capital construction and maintenance of tourist-related facilities such as convention centers, sports arenas, and stadiums. The primary, unrestricted direct revenue sources available as security for a non-ad valorem/non-enterprise bond issue are the local government half-cent sales tax, the communication services tax, and the constitutional fuel tax.

There are various mechanisms for government borrowing, either long-term or short-term, and they can be repaid through tax revenues, user fees, or special assessments.

LONG-TERM DEBT is a commonly used means of financing large capital assets such as infrastructure, buildings, and large pieces of equipment. By spreading out the debt payments over many years, local governments can also smooth out their expenses and create a more predictable cash flow.

SHORT-TERM DEBT can be used to cover a temporary cash-flow deficit or provide for an interim method of financing until long-term borrowing has been secured.

GENERAL OBLIGATION (GO) DEBT is secured by the full faith and credit of the government issuing the debt. The County pledges its tax revenues unconditionally to pay the interest and principal on the debt as it matures. If the debt is in the form of a bond, the bond owners have a legal claim on all the general income of the jurisdiction if a default occurs.

REVENUE DEBT relies on a pledge of specific revenue generated by the issuer for repayment.

SPECIAL ASSESSMENT DEBT is debt repaid from assessments against those who directly benefit from the project the funds have been used to finance.

DEBT LIMITATION is total current debt service on “Direct Debt” less any dedicated limited ad valorem debt service measured as a percent of the current total General Fund revenue less any General Fund ad valorem revenue.

On September 12, 2014 the County issued \$9,900,000, its Series 2014 Revenue Bond in order to acquire Building at 515 N. Main, new fire station, new rescue station, HVAC system for Criminal Courthouse, and ERP financial software, approved by the Board of County Commissioners on April 14, 2015 - Resolution Number 14-81.

PLANNED FUTURE DEBT ISSUANCES

In 2025, the County intends to issue in capital revenue bonds rate-backed debt for the purpose of the following projects:

Animal Resources Building: The issuance of debt for the new Animal Resources Building is a strategic investment aimed at enhancing the county's animal care infrastructure. This project is essential to meet the growing demand for animal services, provide better facilities for the care and shelter of animals, and ensure compliance with modern standards for animal welfare.

The debt issuance will fund the construction of a state-of-the-art Animal Services Building, which will include advanced veterinary facilities, increased capacity for housing animals, and dedicated spaces for community education and outreach programs. This project is designed to improve the efficiency and effectiveness of animal services in the county, ultimately leading to better outcomes for both animals and residents.

Warehouse: Facility will serve as a centralized hub for storing essential equipment, supplies, and emergency resources, ensuring quicker and more organized distribution throughout the county. By consolidating storage and logistical operations under one roof, the county anticipates significant cost savings, improved inventory management, and increased responsiveness to community needs. This purchase underscores the county's commitment to proactive infrastructure development and resource management, ultimately aiming to better serve its residents and support ongoing municipal projects.

Fire Training Tower: The certified fire training tower will enhance our ability to provide comprehensive certifications and education, offering a wider range of fire-based and Urban Search and Rescue (USAR) courses at no extra cost to staff. As multi-use high-rise buildings increase in Gainesville and Alachua County, this facility ensures our readiness for such emergencies. It addresses recruitment and retention challenges by enabling internal certification and the establishment of our own Fire Academy, reducing sponsorship costs for external training.

Vehicle Replacements: Issuing debt for capital vehicle replacements is a strategic investment to ensure the county's fleet remains reliable, efficient, and safe. This debt issuance will fund the procurement of new vehicles allowing for the county to place orders in a timely fashion. By updating our fleet, we can enhance operational efficiency, reduce maintenance costs, and improve service delivery across various county departments, including emergency services, public works, and transportation. This continued proactive approach to fleet management ensures we meet the needs of our community effectively while maintaining fiscal responsibility through structured, long-term repayment plans.

CONCLUSION

The County actively and aggressively monitors market opportunities to refinance, defease or redeem its outstanding debt to achieve lower debt service costs. When legally and economically feasible, lower interest rate debt or available reserves will be issued to pay off higher interest rate debt.

In summary, as confirmed by its credit ratings, the County's financial condition is characterized by strong debt service coverage from pledged revenue, a broad and varied local economy, and strong financial management.

Capital Budget and Financial Plan

PURPOSE OF THE CAPITAL BUDGET & FINANCIAL PLAN

The Capital Budget and Financial Plan (CBFP) serves as a strategic tool for Alachua County to efficiently manage its financial resources to meet its service and facility needs. The five-year capital budgeting process aims to achieve several objectives:

1. Streamlining departmental requests to minimize delays and ensure alignment with departmental improvement programs.
2. Establishing evaluation procedures and priorities to assess proposals based on public needs, comprehensive planning, project interrelationships, and cost considerations.
3. Planning proposals over an extended period to achieve the Capital Improvements Budget and Financial Plan.
4. Anticipating necessary projects and aligning them with the county's existing and projected fiscal capacity.

As per the Capital Budget and Financial Plan Policies, all capital improvement

WHAT IS THE DIFFERENCE BETWEEN A CAPITAL ASSET AND A CAPITAL PROJECT?

The following definitions for a capital asset and capital project help distinguish the difference between the two types of capital items and how they are handled in the budget process.

Definition of a Capital Asset – An item with a value of \$15,000 or more and an expected life of more than one year, such as equipment, furniture, and automobiles. These items are included in the operating budget.

Definition of a Capital Project – A project expected to have a useful life greater than five years and an estimated cost of \$150,000 or more. Capital projects include the construction, purchase, or major renovation of buildings, utility systems, or other structures, purchase of land and major machinery and equipment. Projects meeting the above definition will be included in the Capital Budget Financial Plan and will be tied to the operating budget within each identified fund and department/division.

WHAT ARE CAPITAL IMPROVEMENTS?

Capital improvements comprise the essential infrastructure that counties require to deliver vital services to residents and accommodate new growth and development. They aim to maintain and enhance the existing infrastructure, as well as anticipate future county expansion. These projects involve significant non-routine capital expenditures, typically exceeding \$150,000. They include the acquisition of equipment and land, as well as the design, construction, renovation, rehabilitation, or expansion of capital assets. Capital projects typically have a useful life expectancy of at least ten years. A wide range of projects include capital improvements, as illustrated by the examples below:

- Fire, court and sheriff buildings.
- parks, trails, open space, recreation centers, and other related facilities.
- water and wastewater treatment plants, transmission pipes, storage facilities, and pump stations.
- roads, bridges, traffic signals, and other traffic control devices.
- water control structures and stormwater retention ponds.

GUIDELINES AND POLICIES USED IN DEVELOPING THE CAPITAL BUDGET AND FINANCIAL PLAN

The County's Strategic Vision Plan, along with its budget and financial policies, provides broad parameters for the development of the annual capital plan. Considerations include the following:

- Does a project support the County Commission's strategic priority?
- Does a project qualify as a capital project, i.e., cost more than \$150,000 and has an expected useful life of at least ten years?
- Does a project prevent the deterioration of the County's existing infrastructure, and respond to and anticipate future growth in the County?
- Does a project encourage and sustain quality economic development?
- Can a project be financed through growth in the tax base or development fees, when possible, if constructed in response to residential or commercial development?
- Is a project responsive to the needs of residents and businesses within the constraints or reasonable taxes and fees?

Master plans help determine which projects should be included in the Capital Budget Financial Plan and the timeframes in which the projects should be completed. For example, the Parks and Open Space Plan and the Fire Rescue Master Plan provide valuable guidance.

Economic forecasts are also a critical source of information and guidance throughout the capital planning process. These forecasts assess external factors such as whether the local economy is growing or contracting, population growth, inflation in construction materials, the value of land, and other variables that may affect the County's ability to finance needed services and capital projects.

The County policies that are followed include the Capital Budget and Financial Plan and the Debt policies. Each serve as a set of guidelines and principles that an organization follows to manage its finances effectively. It outlines the strategies, procedures, and rules governing various aspects of financial management.

CAPITAL BUDGET AND FINANCIAL PLAN ASSESSMENT PROCESS

The CBFP process entails an assessment of many valid competing needs, a determination of priorities, an evaluation of costs and financing options, and an establishment of achievable completion timeframes. The analysis process involves many familiar questions:

- Do we need it?
- Can it wait?
- Are there other options?
- What must wait if we proceed with it?
- Can we afford it?
- Do we need financial help to attain it?

If the purchase plan progresses, a decision regarding the initial cost must be made. However, the County also needs to secure longer-term financing to cover certain expenses for capital improvements. For instance, loan repayments add to the overall cost of a capital improvement project. Since most major capital improvements cannot be funded solely from revenue generated in a single year or by adjusting income and expenses, it's crucial to consider the long-term financial implications.

As part of the annual budget process, the Office of Management and Budget oversees the County-wide effort to revise and update the County's capital plan. Staff from all County departments participate in a thorough review of existing projects and the identification of new projects for inclusion in the Capital Budget Financial Plan. Throughout this capital planning process, adherence to legal requirements and available financial resources is crucial, with the County Commission carefully considering citizen input.

While only the first year of the plan is formally appropriated by the Commission, the following four years serve as planning guidelines. The County Commission retains authority over funding decisions for future years. Once projects are chosen for inclusion in the capital plan, decisions are made regarding which ones should be prioritized for the

initial five years. The County Commission then assesses the recommended Capital Budget Financial Plan during budget workshops, considering staff recommendations before reaching a final decision.

IMPACT OF THE CAPITAL BUDGET FINANCIAL PLAN ON THE OPERATING BUDGET

The operating budget of Alachua County is directly impacted by the Capital Budget and Financial Plan (CBFP). Most new capital improvements entail ongoing expenses for routine operation, maintenance, and repairs once completed. Additionally, the creation of new capital facilities may require the establishment of new staff positions. Meanwhile, existing county facilities and equipment, once considered state-of-the-art, now require rehabilitation, increased maintenance, renovation, or upgrades to accommodate new uses and address safety and structural concerns.

Each department provides estimates for future operations and maintenance costs associated with new projects in the CBFP. These operating costs play a crucial role in determining which projects move forward within the CBFP. Implementation timelines are established to stagger projects over time, allowing for the funding of large-scale projects that have significant impacts on the operating budget.

The Office of Management and Budget assesses both current and future debt obligations and available resources for funding the planned projects. The majority of capital projects are financed through revenue-backed financing, impact fees, and the Infrastructure Surtax Fund.

REVENUE PROCEEDS

County revenue proceeds typically include property tax, sales, tax, state shared revenues, fees for service and investment income. These sources are pledged as collateral for financing.

IMPACT FEES

Impact fees are an imposed fee on new development as a total or partial reimbursement for the cost of additional facilities made necessary for growth. Impact fees are restricted to use on capital projects that are necessary to add infrastructure capacity. Currently, the County imposes three impact fees: 1) Fire; 2) Transportation (Mobility); 3) Parks.

SURTAX

On November 8, 2022, Alachua County voters passed the ten-year one-cent surtax. One-half cent of the tax is restricted for use related to conservation lands and parks and

one-half cent for roads and affordable housing. The County receives a portion of the tax proceeds based upon a distribution formula developed by the Florida Department of Revenue. Population is the key component to the calculation.

AMENDING THE CAPITAL BUDGET AND FINANCIAL PLAN

Throughout the fiscal year, circumstances may necessitate amending the approved Capital Budget and Financial Plan to address unforeseen needs. A systematic procedure has been established to facilitate the submission and assessment of each requested amendment.

Amendments to the project list, as originally adopted by the Board of County Commissioners in the Capital Budget and Financial Plan, require approval through a budget amendment process. An amendment to the Capital Budget and Financial Plan becomes necessary under the following conditions:

- The project was not initially included in the adopted CBFP.
- The project is removed from the approved CBFP.
- Project costs exceed those outlined in the adopted CBFP.
- There is a change in the proposed financing method for the project compared to what was initially indicated in the CBFP.
- There is a fundamental alteration in the project's scope and focus compared to what was outlined in the CBFP.

WHAT IS IMPORTANT TO KNOW WHEN REVIEWING THE CAPITAL BUDGET FINANCIAL PLAN PROGRAM?

The Capital Budget Financial Plan serves as a long-term planning tool, but only the funding allocated for the first year is officially approved by the County Commission. Future appropriations are reviewed by the Commission in subsequent years.

Key points about the Capital Budget Financial Plan:

- It offers a comprehensive view of capital planning, covering projects funded from all sources.
- It complements the Operating Budget document and is intended to be used in conjunction with it.
- It reflects the current goals and intentions of the County Commission.
- It's a dynamic process subject to changes over time, influenced by factors such as organizational shifts, funding uncertainties, emergencies, delays, or plans from other entities. Despite inevitable changes, the thorough long-term planning and analysis involved in developing the Capital Budget Financial Plan offer numerous benefits.
- Summaries of Capital Budget Financial Plan data, presented in tables and graphs, help readers grasp the Countywide impact of the plan.

WHAT ARE THE KEY ELEMENTS OF THE CAPITAL BUDGET FINANCIAL PLAN?

The following describes key elements of the details included in the CBFP:

Capital Improvement Element (CIE) – Includes information on the project’s impact on the County’s Comprehensive Plan, which assists the County in determining if the project meets state statutory requirements.

Capital Budget Financial Plan Category – The Department and/or Function within the County that is responsible for the project. The categories may include the Department and/or Function based on direction from County Commission.

Capital Budget Financial Plan Status – Identifies if the project is an Existing CBFP Project, Existing CBFP Project – Revised Request, Existing CBFP Program, or New Request.

Cost Center – Includes account segments for Fund, Department, Division, Activity, and Sub Activity.

Expenditure Type – Groups of expenditures separated into the following categories:

- Planning/Design/Engineering – any outside contractual service needed to complete a project.
- Land Acquisition – any purchase of land needed to complete a project.
- Construction – any outside contractual service of construction crews needed to complete a project.
- Equipment/Materials/Furniture – any purchase of these items needed to complete the project.
- Professional Fees – services procured as independent professional services, such as architectural or consulting services needed to complete a project.
- Technical Software/Hardware – any purchase of these items needed to complete the project.

Funding Strategy – Includes the proposed funding source(s) and amounts for the project. Some of the County’s new asset expansion projects include funding from Developer Agreements. These projects are noted as such in project detailed information. Typically, a Developer Agreement provides for the County to reimburse costs associated with the new asset over a period of years.

Object Code – Includes the last four digits of the accounting code that are considered the line items, which describe the type of expenditure being made.

Operating Budget Impact – Provides narrative on the impact to the operating budget and includes the estimated project cost by expenditure category.

Operation Budget Impact – A narrative of the anticipated impact the project has on the operating budget is included in the CBFP Detail Sheets. Many projects can significantly impact the operating budget such as maintenance, staffing, utilities, and equipment. It is important to consider these issues prior to adopting the project so additional savings or costs are factored into the decision-making process.

Programmed Funding – CBFP project funding that has been appropriated in prior years, appropriated in the current year budget, and/or Un-Appropriated but planned during the next four fiscal years.

Project Number – The number/letter sequence used primarily for tracking the project.

Project Description – Includes a description and specific justification for the project.

Project Rationale – If the project is needed to meet service demands, environmental impacts, health, or safety issues, or is mandated by law, it will be discussed in this part of the form. Also, the location and type of work performed will be included.

Schedule of Activities – This table breaks out the Project Activities (see Expenditure Type) with Timeline (From-To) and Amount (Programmed Funding) for the project.

Title – A descriptive name given to each project.

CAPITAL BUDGET AND FINANCIAL PLAN QUESTIONS AND ANSWERS

1. What type of costs are included in the Capital Improvement Project?

All expenses related to design, construction, and any other preparations necessary for facility use are encompassed within the project.

2. What happens if a department is not able to expend/encumber funds by year-end that were approved in the budget for that fiscal year?

Any capital project funding previously approved but not spent or committed in the prior fiscal year can be reallocated through a budget amendment.

3. Some departments customarily forecast what will not be expended/encumbered during the current fiscal year and budget the unexpended funds estimate in a “reserve for future capital outlay” or “provision for re-budgets” account.

This account will grant the department access to funding through a capital project amendment in the upcoming fiscal year, prior to the completion of the actual budget reconciliation.

4. How much money/funds are available for projects?

Each year, available funds are determined based on projected tax revenue and financing strategies.

5. What is the process for amending a Capital Project budget?

Any alteration to a capital project that affects its total cost or involves transferring funds from a reserve account necessitates an Amendment and approval from the Board of County Commissioners (BoCC). However, changes solely related to adjusting funding timing between years do not require BoCC approval.

6. How are operating expenditures associated with a Capital Project handled?

When a capital project is requested, all costs, including future operating impacts, are evaluated. Once the project is completed and operational, the operating and maintenance costs must be funded with operating revenues. Departments include in their budgets the operating expenses that are needed when the capital project is completed and becomes operational.

7. If a project won't begin for three (3) years, would it be included in the Five-Year Capital Budget and Financial Plan?

All projects requiring funding over the next five years are part of the Five-Year Capital Budget and Financial Plan. If there are known costs or projects extending beyond this timeframe, they should be listed as future funding needs. These estimates can then be incorporated into long-term financial planning models.

POTENTIAL REVENUE SOURCES FOR CAPITAL PROJECTS

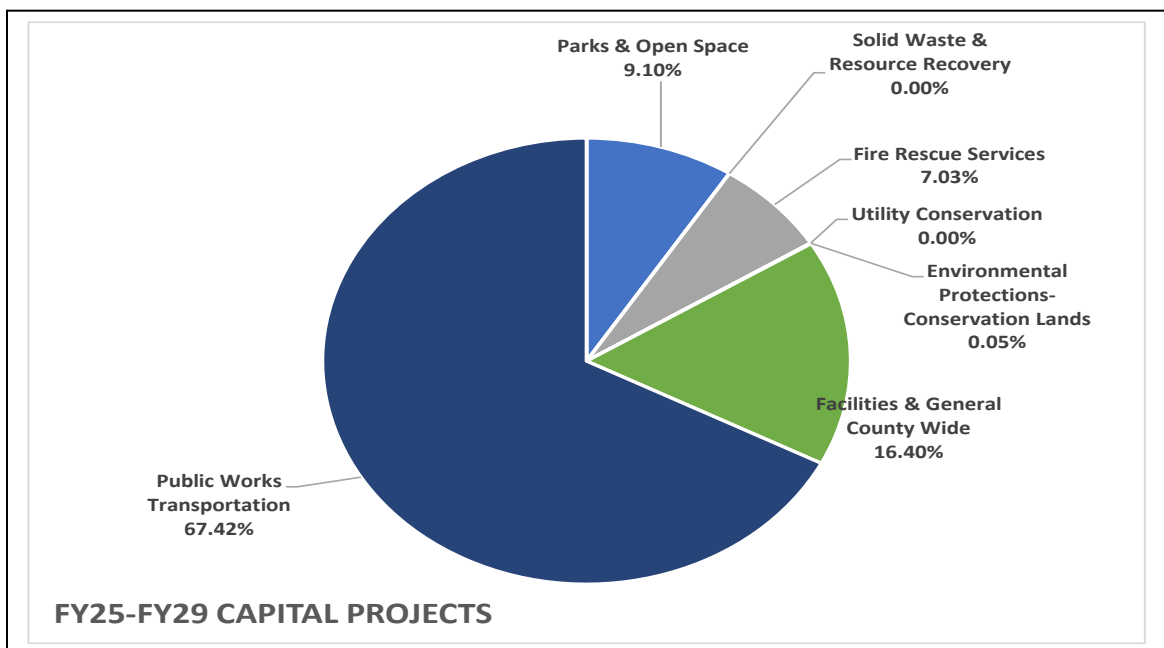

The following are potential sources of revenue for capital improvements. If the source of funding is restricted to items/departments, these restrictions are indicated.

Fund Name	Fund	Use
Transportation Trust Fund	341	Restricted for use for transportation operating costs and infrastructure needs.
Constitutional (2nd) Gas Tax	353	Restricted for use by the Public Works Department, further restricted for use by F.S. 206.411, 206.47, 335.075, 336.41
Local Option Gas Tax	350	Restricted for use by the Public Works Department, F.S. 336.025.
MSBU Fire Assessment	011	Fire Services
MSBU Solid Waste Assessment	400	Solid Waste Services
MSBU Stormwater Assessment	146	Stormwater Services
MSTU Law Enforcement Unincorporated	009	Sheriff Law Enforcement Services
Tree Mitigation Fund	264	Restricted for the purchase and/or planting of trees/landscaping for community enhancement.
Fire Impact Fee	340	Restricted for use for growth related Fire capital equipment and structures.
Parks & Recreation Impact Fee	339	Restricted for use for Parks growth related capital expenditures.
NW Transportation District Impact Fee	336	
East Transportation District Impact Fee	337	
SW Transportation District Impact Fee	338	
Multi Modal Transportation Mitigation	354, 355, 356	Restricted to NW, SW and East Districts
Court Technology Fund	076	Restricted for County Courts use for technology needs. Created under the provisions of Article V, revision 7.
State Court Facility Capital Preservation	037	
Wild Space Public Places	021	Restricted Recreation & Land Acquisition
One Cent Infrastructure Surtax	140	Restricted Recreation & Land Acquisition
One Cent Infrastructure Surtax	142	Restricted Road & Work Force Housing
Boating Improvement Program	043	Boating Ramps, Access & Facilities
Capital Projects - General	300	

The FY25-FY29 Capital Budget and Financial Plan is primarily focused upon maintaining the County's infrastructure including roads, facilities, and land management.

The capital projects plan includes the implementation of the transportation pavement management plan adopted by the Board of County Commissioners along with Phase One of the Facilities Master Plan.

The full transportation plan can be found on the County Website.

Performance Management and Departmental Summaries of Service

Performance Management Overview:

Overview:

The county leadership envisions Alachua County, FL as a progressive and sustainable organization focusing on resiliency and equity. Leadership encourages staff participation at all levels, promotes the reduction and/or elimination of bureaucratic “silos” and ultimately memorialized the vision of county service through the Alachua County Board Level Strategic Guide.

The County’s Strategic Planning and Performance Management Program: Aligns the Board’s mission, values, and strategic guide to the County’s day-to-day operations and employee performance. The program guides the direction of our work to ensure support for identified strategies and goals, and accountability for our efforts. Performance Management and Measurement can be a powerful tool to integrate strategic planning, budgeting, and management with evaluation and reporting in a system that helps create an accountable, transparent, and responsive organization.

Alachua County uses the performance management system to help set program priorities and to ensure our organizational priorities match those of the community via the Board’s guidance. This performance management system also helps to develop meaningful measures, especially efficiency, effectiveness, and outcome measures, to gauge program success. These measures are then able to provide the tools and data necessary to help every employee focus on delivering desired outcomes. Moreover, the Performance Management Program increases organizational coordination by providing managers with data for necessary management decisions in order to achieve desired results more effectively and efficiently.

AWARDS:

Alachua County was recently awarded the ‘Special Recognition for both ‘Performance Measures’ and ‘Strategic Goals & Strategies’ by the Government Finance Officers Association (GFOA) for the strategic planning and performance management information contained in the County’s Adopted Budget Document for the fiscal year beginning October 1, 2023. The County was rated as ‘Outstanding’ by three independent raters in each of those related rating categories.

Performance Management Overview:

History:

Alachua County has been actively involved in operational analysis and performance management for almost two decades. In 2014, Alachua County adopted the first Board Level Strategic Guide. In 2017, the County implemented a new performance management and strategic planning software system to align more than 170 operational measures with the Board's Strategic Guide. Each of the operational performance measures were aligned with the applicable Board Focus Areas and Objectives.

Strategic Planning Process:

Alachua County Board of County Commissioners and County Leadership began a new strategic planning process in 2020. Below is an outline of the steps taken to develop the new Board Level Strategic Guide, which is intended to be a multi-year guide:

Date	Action
March – June 2020	Employee Focus Groups
February 2021	Individual Commissioner Strategic Planning Sessions
March 4, 2021	Board Workshop – Facilitated Strategic Planning Session
May 4, 2021	Draft Strategic Guide presented at Board Special Meeting
May 25, 2021	Strategic Guide adopted at Board Regular Meeting
February 28, 2023	Refined Strategic Guide - adopted at Board Regular Meeting

During Fiscal Year 2022, the County rolled out the new Strategic Guide, which was revised and updated in Fiscal year 2023 including, but not limited to the following:

- Align existing operational department performance measures with the new Focus Areas (5) and Objectives (26)
- Encourage departmental development of new program level objectives and measures that align with the newly adopted Strategic Guide and the recently updated Comprehensive Plan Elements
- Based on departmental input, Board adopted a refined the Strategic Guide
- (Future) Coordinate enhanced departmental outreach to incorporate Strategic Guide, Comprehensive Plan, and Equity considerations into operational performance and transparency reporting

While the adoption of a formal Strategic Guide is a major milestone, the County periodically evaluates the progress of our Performance Management program and provides input for the County's future course.

Performance Management Overview:

Additionally, under the Performance Management and Measurement umbrella, the following major milestones were achieved:

- Utilized the established Performance Management & Strategic Planning software (AchieveIT) to link dashboards to the County's transparency website
- Reinforced operational alignment with the Board Level Strategic Guide
- Awarded the Certificate of Excellence through the ICMA Center for Performance Analytics for seven (7) consecutive years (2015-2021), the ICMA program has been on hiatus since the last awards year in 2021
- Received the Government Finance Officers Association (GFOA) Special Recognition in both 'Performance Measures' and 'Strategic Goals & Strategies' in 2024 for the Budget Document beginning October 1, 2023
- Enhanced community knowledge of performance results through the budget document, performance chapter, transparency website, and community outreach and educational meetings

All of these accomplishments occurred as a result of an integrated and collaborative effort by the County Manager, Leadership, Performance Liaisons, and direct support staff.

Future:

The Strategic Planning and Performance Management and Measurement Program is a living, dynamic program. The nature of the program requires continuous monitoring and improvement in order for this program to survive and be successful.

- In alignment with the County's Comprehensive Plan Elements, departments will be expected to identify measures with multi-year targets, and report the corresponding data into the performance management system for reporting to the Board of County Commissioners and the public. This activity will coincide with the development of a new program level objectives and measures that align with the adopted Board Level Strategic Guide.
- The cascade philosophy will continue to be supported and reinforced with focus on educating all staff at all levels of the organization.
- Operational Performance Audits will continue for the foreseeable future. Those audits include operational performance and benchmarking and involve a centralized staff to oversee the audit recommendation implementation.
- Best management practices outlined by the Government Finance Officers Association (GFOA), the International City/County Managers Association (ICMA) – Center for Performance Management, and the Government Accounting Standards Board (GASB) – Service Effort and Accomplishment Performance Information standard will continue to be evaluated and implemented within our performance management program.

Performance Management Overview:

Performance Measures:

Performance measurement is the practice of regular and continuous data collection and reporting on important aspects of an organization's services, programs, or processes. Performance measures are numeric indicators representing specific process or service delivery activities. When done well and used effectively, performance measures enhance a manager's ability to make decision, ensure service delivery, evaluate program performance, communicate program results, and improve program effectiveness.

Effective performance measurement will:

- Instill a sense of mission and focus
- Indicate where the local government has made progress
- Assist leaders in making day-to-day decisions
- Provide a tool to communicate agency's performance
- Increase program accountability
- Identify improvement areas

Additional details on the performance management process can be obtained through the adopted Performance Management Administrative Procedure. Each department reports, on a quarterly basis, operational performance measures, which are displayed in the Business Center Budgets Chapter.

The Constitutional and Judicial Officers do not report to the County Commission, and as such, choose to report their performance separate of the County's budget book.

Reporting:

The reporting of performance measures in Alachua County, through the Performance Management and Measurement program is multi-layered. Below is a listing of the documents in this chapter, the Performance Management Chapter, which will help to outline our performance management program.

4.2 Looking Forward to a Sustainable Future: Framework for Success – This document is an overview of the agency's management philosophy, including the mission and values of the County.

4.3 Strategic Planning - Cascade Chart – This document reflects the alignment of the Board's mission, values and strategic guide to our day-to-day operations and personal performance. This chart is used to help all employees understand how they personally impact our agency goals.

Performance Management Overview:

4.4 Strategic Guide – This Board approved document identifies the Board of County Commissioner identified Focus Areas and Objectives, which are those service area categories integral to our operations. The use of this chart helps the departments break away from the ‘silo’ mentality to help focus outcomes cross-departmentally in order to achieve desired objectives.

4.5 Strategic Guide Outcome Report - This document summarizes operational information by Focus Area. It provides:

- Focus Area Title
- Focus Area Objectives
- Focus Area Examples of Services Provided
- Showcase measures directly aligned with the identified Focus Area.
(All measures, regardless of Strategic Guide alignment, are contained within the Functional Department Budgets section of the Budget Document.)

Communication: We encourage open communication and the sharing of ideas to enhance the decision-making process.

Commission Goals:

Resiliency: Integrating the environment, the local economy, and equity to achieve sustainability.

Equity: Treating everyone justly according to their circumstances, providing opportunity and access for everyone, while focusing on closing existing equity and access gaps.

Excellence in County

Government: Providing mandatory and discretionary services expected by our constituents in a transparent, accountable, efficient, and effective manner.

Major Opportunities and Challenges in Fiscal Year 2025

- Manage activities associated with the 10-year Alachua County 1.0% Infrastructure Surtax, approved by voter referendum in 2022
- Establish and address affordable housing needs through the Affordable Housing Trust
- Build, maintain, and improve the County's public-facing buildings, transportation, mobility, and public safety infrastructure
- Increase access to conservation land and support food/agricultural producers
- Evaluate, manage, and provide recommendations regarding Medical Examiner transition and CareerSource merger
- Develop and conduct community engagement activities to promote social and economic opportunities and ensure that all voices are heard

Strategic Planning Cascade Chart

Alachua County

Strategic Guide – FY 2023

Guiding Principles:

- Address the root cause of issues and inequities
- Utilize a collaborative approach where we seek to hear from all the voices, consider other points of view, and coordinate and leverage relationships to get more done than we could on our own
- Continue to provide mandated services and discretionary services expected by our constituents in a transparent, accountable, efficient and effective manner

Achieve Social and Economic Opportunity for All

- Promote proactive, collaborative leadership to make the most of Alachua County's resources
- Build equitable access to health (physical and mental), safety, and opportunity, especially for people who haven't traditionally had access to those systems
- Create an inclusive process that gets all voices heard
- Focus our Economic Development efforts on local businesses and removing barriers to economic opportunity
- Drive the discussion and implement a central receiving facility as a way to deliver coordinated services
- Enhance public safety and services to shift the focus from reactionary to life-improving interventions and support innovative models for blight reduction, citizen safety and education, alternatives to incarceration, and public safety advocacy for disadvantaged populations
- Work with private and public partnerships, including farms and local food entrepreneurs to build a community food system

Provide for the Welfare and Protection of the Public

- Provide resources necessary to meet fire prevention and protection, law enforcement, criminal justice, 911 Communications Center, and Jail services
- Coordinate countywide resources in conjunction with our community partners for the prevention, protection, mitigation, response, and recovery from man-made, environmental, and/or natural disasters
- Manage public safety components of capital infrastructure, roadway maintenance, development review, public facility life-safety maintenance, solid waste removal, and building inspections

Equitable and Resilient Community

- Resilient means integrating the environment, the local economy, and equity to achieve sustainability
- Equitable means striving to treat everyone justly according to their circumstances, providing opportunity and access for everyone, while focusing on closing existing equity and access gaps

Address the Housing Gap

- Invest intentionally to reduce the gap in available public housing
- Coordinate proactively with agencies, municipalities, and other entities
- Define clearly the policies and expectations to make it predictable and more likely to be implemented
- Focus on extremely-low and low income housing
- Develop a "whole cost" approach, including operating costs, not just construction and development costs

Invest in and Protect Our Environment

- Continue Wild Spaces & Public Places and include agricultural lands as well
- Focus community planning and growth to address climate change and community and environmental resiliency
- Create a Climate Action Plan and implement Climate Action Plan recommendations
- Implement and refine adopted energy, water, and environmental conservation and preservation plans to benefit all inhabitants, and ensure activities are aligned with the Climate Action Plan

Accelerate Progress on Infrastructure

- Identify and report transparent priorities and progress dashboards
- Investigate Infrastructure Sales Tax in conjunction with Housing Trust Fund, and renewal of Wild Spaces & Public Places
- Research, apply for, and prepare to implement federal investments for the benefit of our local community
- Develop a 'Today's design for tomorrow's roads and infrastructure' mindset
- Address internet affordability and accessibility gaps throughout the County
- Provide for Public Safety infrastructure
- Improve community mobility and transportation options

FOCUS AREA: ACHIEVE SOCIAL AND ECONOMIC OPPORTUNITY FOR ALL

Investigations and Community Supervision	Investigations	<p>Per Florida Statute, Pretrial Investigations are completed on arrestees for First Appearance Hearings 365 days a year. Staff interviews defendants and verifies information via phone contact with relatives, friends, employers, etc.; and reviews local, State and National criminal histories. Staff also complete and review pretrial risk and needs assessments on all interviewees. Staff compile and present Pretrial Investigative Summaries to the Court that include a criminal history review, preliminary risk / needs assessments and information related to whether the persons are designated a violent felony offender of special concern (AMA/JLA). Pretrial Services Court Officers also attempt to contact victims of domestic violence during the investigation process to ascertain whether there are safety and/or security concerns that need to be reported to the Judge during First Appearance. The Judiciary uses the investigation information to make informed release or detention decisions, including orders for treatment and/or other special release conditions, based on Florida Statutes which address public safety.</p>

Division Name	Program Name	Description
Investigations and Community Supervision	Centralized Screening Team (CST)	<p>Court Services has a jail population review process that is performed by a Centralized Screening Team (CST). CST screens eligible detainees who remain in custody within 96 hours after their First Appearance Hearing. In collaboration with the Department of the Jail, the judiciary and treatment partners, the Pretrial Release Assessment Specialists develop and propose release options to manage and supervise low and high risk offenders ordered to participate in community based supervision programs. Referrals for program screenings can be made by defense attorneys and community partners for defendants in a pretrial status who remain in custody and are appropriate for Court Services programs. CST also provides screening results to attorneys to expedite releases at bond reduction hearings.</p>
Investigations and Community Supervision	Case Management	<p>Pretrial Case Management provides the judiciary with a cost effective alternative to incarceration pending case disposition. The defendant's supervision can be customized to address their risk and needs, while addressing concerns the Court may have about an unsupervised release. Defendants supervised in the community pending case disposition have the opportunity to work and take care of their family while freeing up jail bed space for high risk defendants. Pretrial Services works in partnership with community based social service and treatment providers. Pretrial defendants are referred to local community treatment providers for services as ordered by the court. Substance abuse, mental health and other forms of treatment reduce the likelihood of re-arrest and failure to appear for court.</p>

Investigations and Community Supervision	Electronic Monitoring/Global Positioning Satellite (EM/GPS/TAD)	<p>Pretrial Services fully utilizes technology and provides Electronic Monitoring (EM), Global Positioning Satellite (GPS) and EM monitors compliance with curfew conditions. GPS monitors their whereabouts 24/7 and is an excellent tool to monitor compliance with inclusion and exclusion zones. Participants are allowed to maintain employment, stay or enroll in school, attend treatment and medical appointments. Defendants who are not indigent are required to pay the fees associated with their supervision. This program is also an alternative to jail for inmates with significant medical issues. Staff in this program also supervise Thermal Alcohol Detection (TAD). TAD is for pretrial defendants and sentenced misdemeanor offenders needing the most intensive level of community supervision in all Court Services venues. TAD monitors their compliance with abstaining from the use of alcohol.</p>
Investigations and Community Supervision	Probation	<p>The Probation program provides judges with a cost effective alternative to sentencing misdemeanor and traffic offenders to jail. Probationers are supervised in the community by staff who monitor compliance with conditions ordered by the court. Conditions of supervision may include monthly reporting, participating in treatment, maintaining employment, completing community service work, paying court assessed fines/court cost, restitution and cost of supervision and to incur no new law violations. Probation officers are required to visit probationers at their place of residence and/or their place of employment.</p>

Division Name	Program Name	Description
Investigations and Community Supervision	Probation - Domestic Violence	Specialized caseloads are designated for offenders charged with domestic battery. These caseloads require specialized training and experience dealing with probationers who exert abusive power and control issues over their victims. Additionally, caseloads involve a high level of victim contact and rapid response when victims may be endangered by probationers who violate court orders. Supervising Officers operate with public safety of victims as their primary concern. Violation of no-contact with victim orders could result in jail sentences of up to 364 days.
Investigations and Community Supervision	Day Reporting	Day Reporting is an intensive form of community supervision designed for pretrial defendants and sentenced offenders who pose high risks with accompanying high needs. Consequently, program participants have daily contact with program staff to allow for effective oversight and supervision of their cases in a community based program verses being incarcerated in jail. Individuals are required to participate in treatment, educational, and rehabilitative activities according to structured schedules. In addition to being utilized as a final alternative for individuals failing to comply with previous county probation sentences, the program also serves as an alternative to pretrial incarceration for defendants who would remain in custody but for the structure provided through Day Reporting Program.

Investigations and Community Supervision	Community Service	<p>The Community Services Program recruits and coordinates governmental and non-profit agencies as worksites so that individuals can complete community service hours as ordered by the Court. These hours are ordered as a condition of county or state probation, as conditions of deferred prosecution and other diversion agreements with the State Attorney and City Attorney Offices, Treatment Courts, Civil Court and other County Compliance Courts. Staff monitors the completion of hours/days worked. Compliance is reported back to the Court and other appropriate entities. Program participants assigned to do community service hours are placed at worksites according to their skills, location, and criminal history. Worksites, including agencies that address the needs of children and their families are available to be worked days, nights, and weekends.</p>
Investigations and Community Supervision	Community Service -Work Crew	<p>The Community Service Work Crew Program provides a sentencing option for Courts in lieu of weekend and short term jail sentences. Judges sentence offenders to a specified number of days on the Work Crew, which operates 7 days a week. Work Crews provide assistance to non-profit and governmental agencies, including other County Departments that experienced staff and service level reductions, and to agencies with a focus on preservation of natural resources. This program is also used to perform designated community projects. Within Court Services, Work Crew is used to sanction Drug Court participants who do not adhere to program rules and policies, and to assist defendants with program fees.</p>

Long Term Financial Forecasting

LONG-TERM FINANCIAL FORECASTING

Long-term financial planning involves projecting revenues, expenses, and key factors that have a financial impact on the organization. Understanding long-term trends and potential risk factors that may impact overall financial sustainability allows the community to proactively address these issues.

Long-term financial planning:

- Creates a long-term outlook into other planning processes like budgeting, capital planning, and revenue forecasting.
- Help to diagnose potential risks and causes of fiscal distress.
- Stimulates “big picture thinking”
- Provides a tool for evaluating long-term compliance with financial policies.
- Allows for pre-emptive action to mitigate forecasted financial distress.
- Defines parameters for decision-making.
- Communicates long-term financial position to residents and other stakeholders, including rating agencies and bond investors.

WHAT IS A LONG-TERM FINANCIAL PLAN?

A long-term financial plan serves as a "road map" for the County's financial goals and the strategies to achieve them. The following sections include discussions and explanations of revenue, historical expense, and economic impacts. The forecasts are prepared after State Revenues are published. Revenues illustrate the sources of the County's funding, what controls these revenues, and future projections based on past and current collections as well as economic factors. Expenses demonstrate the costs related to personal services, operating and capital over time.

WHO BENEFITS FROM HAVING A LONG-TERM FINANCIAL PLAN?

- Citizens: Effective financial stewardship enhances the community's quality of life, making it a more desirable place to live.
- Commission: Long-term financial plans guide Commission members and provide a consistent framework for Commission decisions, ensuring quality control.
- Businesses: Long-term financial plans provide certainty for business decisions, making the community a more attractive location for businesses.
- Management, Department Heads, and Staff: Financial planning sets priorities and direction from the elected Commission

DEVELOPING THE FINANCIAL PLAN

ELEMENTS

Time Horizon: Preliminary financial forecasts include an overview of the prior- year performance; expectations for the current year; and revenue estimates for the budget year. A further 3–5-year forecast projection will be developed.

Frequency: OMB works with each County department to develop expense requests and revenue estimates. OMB also works with departments to identify repurposing opportunities and provide advice based on the County’s overall revenue and expense outlook. OMB monitors financial performance and economic conditions underlying the financial forecast. Forecasts are reviewed annually during the budget process as well as monitored due to economic conditions impacting revenue collections.

Scope: The General Fund, MSTU-Law Enforcement, MSBU Fire Solid Waste, Stormwater, One Cent Surtax and Gas Tax Fund.

Content: Development will include analysis of the financial environment, revenue and expenditure forecasts, debt position and affordability analysis, strategies for achieving and maintaining financial balance and plan monitoring mechanisms.

Our financial model is always changing as we study and adjust our assumptions. It is a tool that shows how our decisions and trends can impact our finances.

BUDGET PRINCIPLES

We have a set of budget principles to guide us when we make our budget and financial plans:

- Funding ongoing operating expenditures with ongoing revenue sources.
- Using one-time revenues for one-time expenditures (capital projects, for example).
- Maintaining sufficient reserve balances to address unforeseen events.
- Using a conservative approach to revenue estimation to avoid budget shortfalls during the fiscal year.
- Preparing equipment replacement and building maintenance schedules (and providing appropriate funding for these schedules).
- Budgeting Estimated Ending Fund Balances at a minimum 10% of projected revenue.
- Budgeting Estimated Reserve Balances at a level not less than 5% of the General Fund operating revenues and not greater than 10% of the total budget of the General Fund.

MOBILIZATION PHASE

- Alignment of Resources
- Preliminary Analysis
- Identification of Service Policies and Priorities
- Validation and Promulgation of Financial Policies
- Definition of Purpose and Scope of Planning

ANALYSIS PHASE

- Information Gathering
- Trend Projection
- Analysis

DECISION PHASE

- Decide How to Use the Information Provided
- Participative Process
- Review with Stakeholders
- Process for Executing the Plan

EXECUTION PHASE

- Strategies Become Operational Through:
- The Budget
- Performance Measures
- Action Plans
- Monitoring

Alachua County Commission meets throughout the fiscal year to discuss future projects and needs of the community. The County holds Special Budget Meetings for which staff prepares documentation as to the County's long-term needs and the County's current and future funding sources.

All County agenda items reference the fiscal impact related to the item being presented to the Board. Quarterly a revenue/expenditure financial report is provided to the Board and citizens on the meeting agenda. The County's financial position is continually reviewed and discussed which ensures all are informed as to the County's financial resources and health as these long-term plans are implemented. Throughout the year at Commission meetings projects and needs are discussed as information becomes available and as the County works toward their goals and objectives.

Readers can find more in-depth information regarding the County's long-term financial planning in the following budget sections:

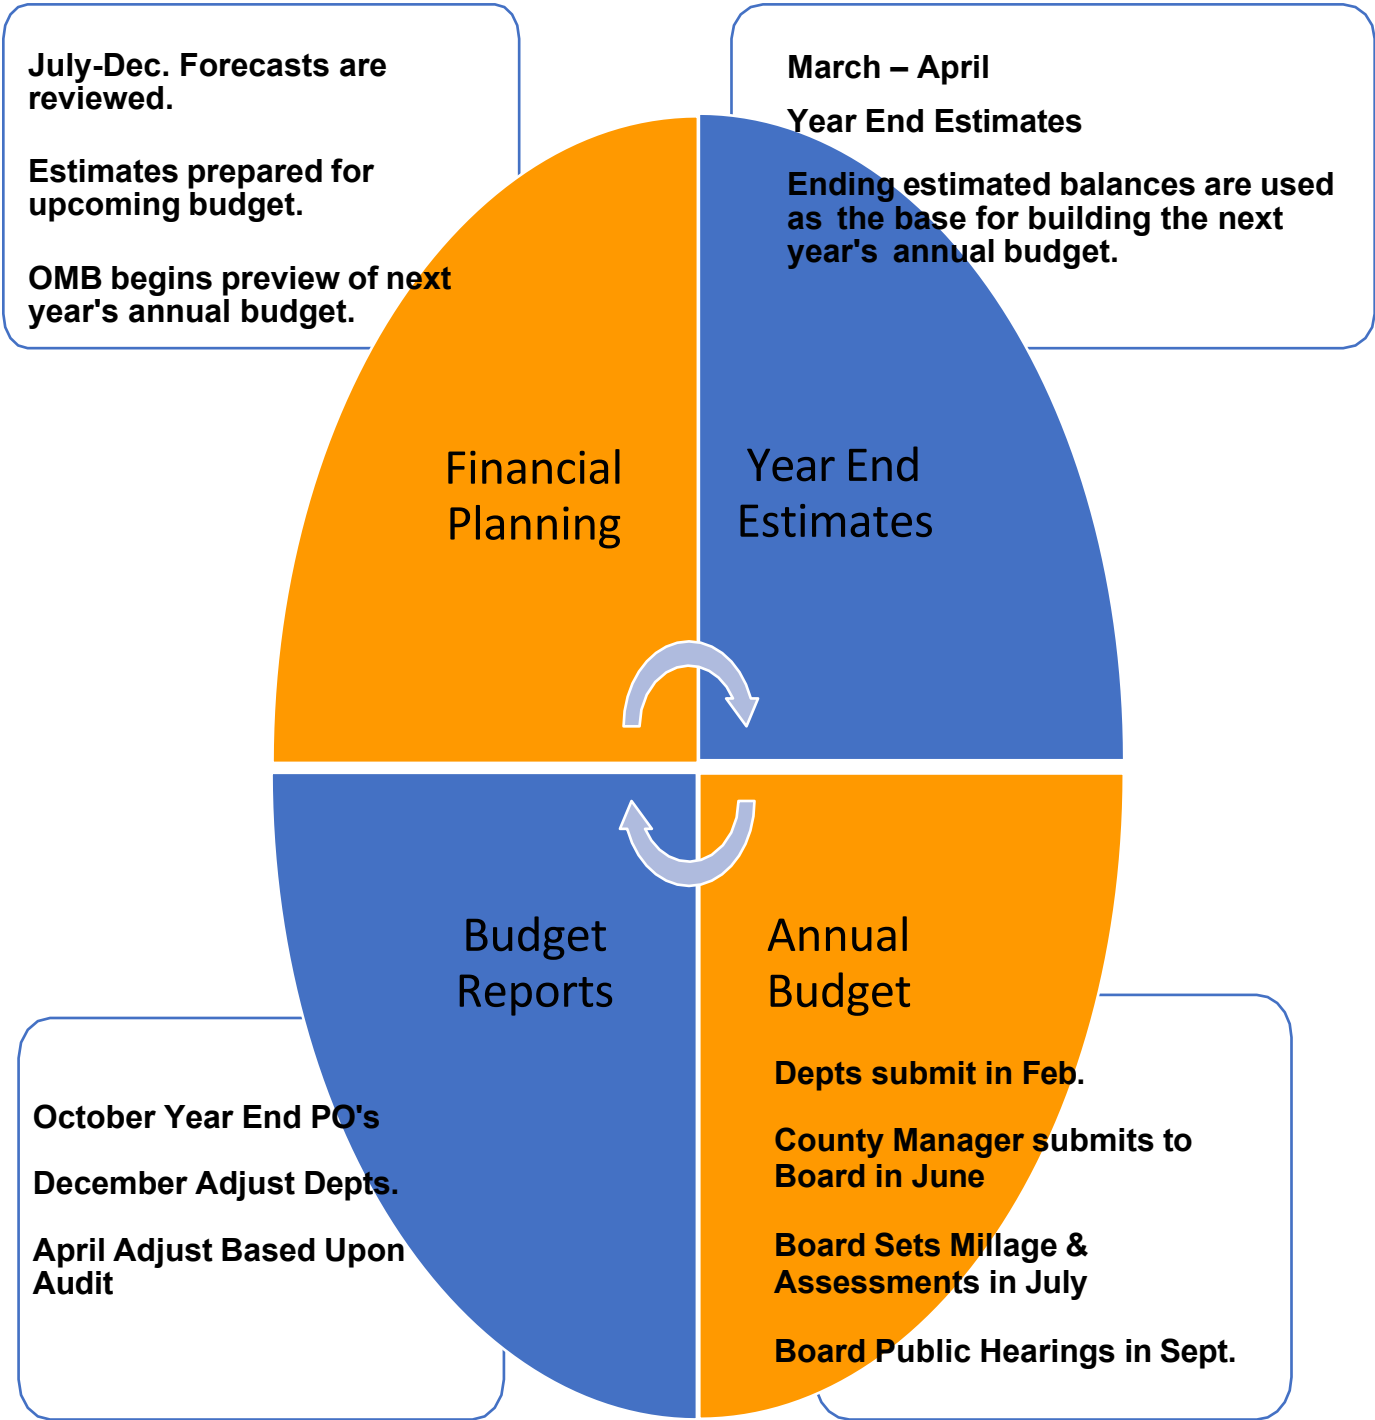

- Budget Overview and Policies
- Overview of Funds
- Fund Balance History (Fund Balance is where the County saves dollars for future projects)
- Strategic and Long-Term Planning
- Debt Information
- Capital Information

While the primary focus of a County's budget is to address the needs for the upcoming fiscal year, a broader range of economic factors must also be considered. These factors are crucial not only for determining the annual budget but also for planning future budgets, including allocating reserves or savings for future projects and purchases.

It is imperative that historical analysis be completed to determine what fiscal needs and impacts have changed and why. It is imperative to look forward as to what dollars the County will need in the future to address infrastructure and operational needs.

It is crucial to consider external impacts and trends that will affect the County's budgets. Analysis is needed to determine:

- What external factors will impact the County financially?
- Whether these factors can be adjusted for or controlled by the County.
- How will the County need to adjust or change to compensate for both negative and positive external impacts?

COUNTY REVENUES

Revenue estimates for the budget come from multiple sources:

- Operating departments, agencies, and Constitutional Officers provide estimates for program-related fees, grants, licenses, permits, and fines based on past trends and current conditions.
- The Florida Department of Revenue provides estimates for the Local Government Half-Cent Sales Tax, state-collected gasoline taxes, and the State Revenue Sharing program.
- Ad valorem tax revenue, a major source, is estimated using taxable property values provided by the Property Appraiser by July 1st each year, along with the applicable millage rates.

Alachua County funds its operations and capital projects through various revenue sources, including taxes, special assessments, fees, intergovernmental funding, and service charges. Key factors affecting these revenues are changes in taxable property values and millage rates, county population, service demands, real disposable income, and inflation. These "drivers" can directly or indirectly impact revenues. Therefore, the budget process includes forecasting and trend analysis to predict future revenue changes. To create the long-term financial plan, we start by reviewing County revenues and their historical changes.

AD VALOREM TAXES

Taxes obtained are affected by population, restrictions for use, distribution factors and other things outside the County's control and most often controlled by the State. While the County controls the millage rate that creates the property taxes obtained, there is still a cap (10 mil/\$1,000 of value) to how much the County can obtain in property taxes.

Other jurisdictions within the county also have the authority to levy property taxes. These entities include cities, the St. John's River Water Management District, the Suwannee River Water Management District, the Alachua County Library District, the Children's Trust, and the Alachua County School District. All these tax levies are itemized on a consolidated tax bill sent to individual taxpayers.

OTHER TAXES

The Other Taxes category includes receipts from non-ad valorem sources such as certain types of locally imposed gasoline and sales taxes, and tourist development taxes.

Local Option Tourist Development Tax – This tax is imposed primarily on tourist-related resorts and facilities and provides funding for tourist enhancement activities. Changes in this revenue are largely dependent on fluctuations in the hotel occupancy rate, which in turn depends on the performance of the state economy in general. A 1st and 2nd cent tax has been imposed and is used to fund capital projects and marketing. A 3rd cent tax funds the Tourism Grant Program. A 4th and 6th cent Tourist Development Tax was imposed during FY10; this revenue is used to fund operations of the Alachua County Visitors and Convention Bureau, known as Visit Gainesville, Alachua County, FL.

Fuel Taxes – This revenue category includes the Voted (9th Cent) Gasoline Tax and two Local Option taxes: the 1-6 cent Local Option Fuel Tax and the 1-5 cent Local Option Fuel Tax. The County Commission approved the 1-5 cent Local Option Fuel Tax in 2007, and it took effect on January 1, 2008, along with a two-cent constitutional tax and a one-cent county tax. Fuel taxes collected within Alachua County are distributed among the County and its nine municipalities. Fuel taxes are an important source of funds for road network improvement, maintenance, and road resurfacing. It is important to note that this tax is per gallon of gasoline and is not based upon the price of the fuel. Increases to fuel prices do not increase the revenue to the County.

Communications Services Tax – In 2001, Florida established the Communications Services Tax, which consolidated several state and local taxes into a single tax with two components: the Florida communications services tax and the local communications services tax. Alachua County currently has a rate of 6.90% for this tax, which is applied only in the unincorporated areas. Each of the nine municipalities levy their own communications services tax. This tax is likely to be affected by rapid changes in the communications industry, complicating revenue forecasting.

Public Service Tax – The public service tax is a 10% surcharge on consumption of utilities including electric, water, diesel, and propane.

Wild Spaces Public Places - 0.5% Infrastructure Surtax – In November 2016, Alachua County voters approved a 0.5 percent local government infrastructure surtax, to be effective for eight years, from January 1, 2017, through December 31, 2024. The total is split among the municipalities within the county and Alachua County received 57% of the total. This infrastructure tax ended December 31, 2022, and the County will spend the remainder of unspent funds that have been collected to that date split 90% for land conservation and 10% for parks and recreational locations.

1.0% Infrastructure Surtax – On November 8, 2022, Alachua County voters approved a 1.0 percent local government infrastructure surtax, to be effective for ten years, from January 1, 2023, through December 31, 2032. The total is split among the municipalities within the county and Alachua County receives 57% of the total.

One half of revenues from this surtax is be used to acquire and improve conservation lands, and create, improve, and maintain parks and recreational facilities. This portion is split 80% for land conservation and 20% for parks and recreational locations. The other half of revenues is to be used for other infrastructure, including repaving, and repairing roads and acquiring or building affordable housing. This portion is split 70% for roads and 30% work force housing.

INTERGOVERNMENTAL REVENUES

Grants – Major grants received by the county include funding for Foster Grandparents, Victims of Crime Advocacy (VOCA), anti-drug and mental health programs, environmental issues, and housing grants for community development and housing rental.

State-Shared Revenues – The County Revenue Sharing and Local Government Half-Cent Sales Tax Programs are important sources of funding for the County.

County Revenue Sharing Program created through The Florida Revenue Sharing Act of 1972 was an attempt to ensure a minimum level of revenue parity across units of local government. This program is funded by net cigarette tax and sales and use tax collections.

Local Government Half-Cent Sales Tax Program was authorized in 1982, this program generates the largest amount of revenue for local governments among the state-shared revenue sources. It distributes a portion of state sales tax revenue, and a portion of communications services tax revenue. This program's primary purpose is to provide relief from ad valorem and utility taxes in addition to providing revenues for local programs.

The Constitutional Fuel Tax is a 2-cent levy shared with counties only. Eighty percent of the revenue can be used for debt service, if any, to be managed by the State Board of Administration. Any remainder of the 80 percent portion is then distributed to the County. The other 20 percent is given to the County for the acquisition, construction, and maintenance of roads. This revenue will remain a continuous source of income.

The County (1 Cent) Fuel Tax is considered a State-Shared Revenue since its distribution is based on a State-set formula – not based solely on total collections within the county of collection. This revenue, along with other gasoline taxes and road network impact fees, is used to finance road network improvements and maintenance.

The Documentary Stamp Tax is levied at the rate of \$.70 per \$100 (or portion thereof) on documents that transfer interest in Florida real property, such as warranty deeds and quit claim deeds. This tax is paid to the Clerk of Court when the document is recorded. The Clerk of Court sends the money to the Department of Revenue which then distributes the funds according to law. Portions of the documentary stamp tax are transferred into the Local Government Housing Trust Fund for distribution to eligible county and municipal governments to fund the implementation of local housing assistance plans.

CHARGES FOR SERVICES

Charges for Services comprise receipts from such services as ambulance transports, pet adoptions, parking fees at Poe Springs Park, internal service charges, fees for housing federal prisoners, and municipal, commercial and franchise solid waste disposal fees. In preparing the County’s annual budget, the departments whose operations are supported by these fees provide the estimates of anticipated revenue. Departments rely upon past trends and their accumulated expert knowledge to construct these estimates.

Enhanced 911 Fee is a fee paid by landline telephone subscribers within Alachua County to fund the 911 emergency service programs. The monthly rate is 40 cents per access line. There is a similar fee imposed by the State of Florida on cellular telephone subscribers to fund the electronic 911 system. Part of this levy is shared with the Counties.

MISCELLANEOUS REVENUES

Miscellaneous Revenues account for interest, special assessments, impact fees, rental income, sale of surplus equipment, property and land, and contributions and donations. The County does not currently budget for unrealized changes in the value of its investments, but they are reflected in its financial statements, and they impact future years’ budgets through changes in the fund balance brought forward.

Fines and Forfeitures consist mainly of court and local ordinance violation fines.

Interest Earnings are revenues earned from the County’s investments. The majority of the County’s investments are with the State Board of Administration. All interest earned is remitted to the County.

Impact Fees on new construction were implemented to finance capital facilities needed to maintain service levels in areas of growth, including roads, parks, and fire.

FIRE PROTECTION ASSESSMENT

The fire assessment in Alachua County is a non-ad valorem fee imposed on property owners to fund fire protection services. This assessment is designed to cover the costs associated with fire prevention, fire suppression, emergency response, and related services provided by the county.

Tier 1 – Based on the simple availability of Fire Protection service which is available equally to all parcels of all types within the County by virtue of the continued state of fire protection readiness provided and maintained by the County. This tier is equal for all parcels.

Tier 2 – In order for the assessment to be fairly and reasonably apportioned among the properties that receive the special benefit, Tier 2 is based on the level of improvement related to each parcel. Thus, the higher the level of improvement, the higher the Tier 2 Assessment that would be charged. This tier is based on Equivalent Benefit Units (EBUs). Each EBU is representative of each \$5,000 of structure value. For example, a structure with a value of \$15,000 would equate to 3 EBUs.

Exemptions include government, agricultural, faith based, and charitable properties.

Fire Assessment	Unit Type	FY23 Assessment (Per Unit)	FY24 Adopted Assessment (Per Unit)
Tier 1 - Response Readiness	Per Parcel	\$90.69	\$90.69
Tier 2 - Structure Loss Protection	Per EBU	\$8.31	\$8.31

STORMWATER ASSESSMENT

The Florida Legislature mandates that local governments, including the County, develop compatible storm water management programs aligned with state and local regulations. The County's storm water management system includes inlets, conduits, manholes, channels, ditches, drainage easements, retention and detention basins, infiltration facilities, and natural waterways. These elements benefit properties by managing storm water collection, storage, treatment, and conveyance. Costs for operating, maintaining, repairing, and improving the system should be allocated based on the benefits received, services provided, or burdens imposed. Poor storm water management adversely affects public health, safety, and welfare due to poor water quality and flooding.

Benefitted Property gains from the operation of the storm water management system through:

- Storm water management services and facilities for safe detention, retention, conveyance, or treatment of discharged storm water.
- Stabilized or increased property values.
- Increased safety and better property access.
- Improved property appearance.
- Enhanced adaptability for current or future higher uses.
- Alleviation of storm water runoff burdens.
- Promotion of environmentally responsible use and enjoyment of natural resources.
- Storm water charges equitably fund capital improvements and service costs by allocating expenses based on the storm water burden generated by each property's physical characteristics and use.

Stormwater Assessments shall be collected pursuant to the Uniform Assessment Collection Act, and the County shall comply with all applicable provisions thereof.

STORMWATER EXEMPTIONS

Florida law provides specific exemptions to reduce the value of property subject to taxation exemptions.

[Hardship Exemption](#) – To qualify for a hardship exemption for residential property, the owner must meet the following criteria:

- Occupy the property and have a homestead exemption per Chapter 196, Florida Statutes.
- For the 12 months prior to the application, the combined income of all occupants must be below the Income Exemption Standard, or the owner must have received AFDC, Supplemental Security Income, or services from the Office of Social Services within the past year.
- Intend to maintain the property as their permanent residence for the entire Fiscal Year for which the exemption is sought.
- Entities also exempt include charitable, religious non-profit organizations, burial grounds, or Disabled Veterans.

STORMWATER ASSESSMENT	Unit Type	FY23 Assessment (Per Unit)	FY24 Adopted Assessment (Per Unit)
Equivalent Residential Unit (ERU)	ERU	\$40.00	\$50.00

SOLID WASTE ASSESSMENT

The Solid Waste Assessment is a non-ad valorem fee imposed by the County on residential property to fund solid waste management, including collection and disposal services, and to generate necessary revenue.

Solid waste cost includes:

- The annual funding required for solid waste management, recycling, and disposal services.
- The estimated costs for collecting the assessment, including Tax Collector and Property Appraiser fees, and discounts for early payment.
- This regulation serves a public purpose by promoting the health, safety, and welfare of Alachua County residents.

SOLID WASTE EXEMPTIONS

Florida law provides specific exemptions to reduce the value of property subject to taxation exemptions. The Solid Waste Assessment exemptions include those of the property taxation exemptions, as well as:

[Hardship Exemption](#) – To qualify for a hardship exemption for Residential Property, the owner must meet the following criteria:

- Occupy the property and have a homestead exemption per Chapter 196, Florida Statutes.
- For the 12 months prior to the application, the combined income of all occupants must be below the Income Exemption Standard, or the owner must have received AFDC, Supplemental Security Income, or services from the Office of Social Services.
- Intend to maintain the property as their permanent residence for the entire Fiscal Year for which the exemption is sought.

[Exemption for Inaccessibility](#)- Residential property in the Mandatory Area, which is inaccessible to a contractor, may apply for a partial exemption from the Solid Waste Assessment.

SOLID WASTE RESIDENTIAL ASSESSMENTS

Non-ad valorem assessments, which appear on the ad valorem tax bill, fund residential solid waste collection and disposal, providing a stable revenue source. These assessments began in the mid-1980s, requiring all County residents to pay for refuse disposal. The fee varies based on residency in an incorporated town, the "mandatory collection urban area," or rural areas. Additionally, a management assessment is charged. Most residents are charged based on the quantity of refuse, and franchise haulers must purchase a franchise license. All users of the transfer station pay a tipping fee.

ECONOMIC CONDITIONS TO CONSIDER

Items	Impact	Strategy
Property Values Increase in property values over the past three years has been an average of 9.11%	Increased property values have provided the County the ability to reduce millage rates	Monitoring of home sales throughout the year to determine stability of property values as well as concern for plateau
Property Values Concern that housing market will slow or plateau	Lower property values affect baseline to calculate millage rates.	Monitor trends and evaluate service levels to determine impacts
Property Values Foreclosures	Increased foreclosures can result in lower property values	Monitor foreclosure and home value rates
State Revenue Sharing	Consistent – return to pre-pandemic levels but cautious due to rising food and fuel prices	Monitor monthly trends to watch for mix of purchasing goods and services, savings, and inflation levels
Gas Tax Revenues	Increased gas price does not directly increase gas tax revenue	Monitor monthly revenues taking into account seasonal adjustments for trend analysis
Supply Chain	Impacts on project timelines, vendor hesitancy to commit due to fluctuating labor and materials costs	Review of vehicle and technology assets will occur to determine supply chain delay impacts as well as future project related cost updates
Energy Costs	Rising cost of Gasoline and Diesel	Quarterly review of gasoline and diesel pricing to monitor the impact on County operational expenses
Employment	Multiple impacts, Job Recruitment & Retention, Remote Work, Hybrids, Work-Life Balance	Monitor employment industry changes and unemployment rates

CITIZENS GUIDE TO BUDGET TERMS

ACCRUAL is a method of accounting that recognizes the financial impact of transactions, events, and inter-fund activities when they occur, regardless of the timing of the cash flow.

AD VALOREM TAX is a tax levied in proportion (usually expressed in mills) to the assessed value of the property on which it is levied. This tax is also called **PROPERTY TAX**.

ADOPTED BUDGET is the financial plan for the fiscal year beginning October 1. Florida Statutes require the Board of County Commissioners to approve this budget at the second of two public hearings.

AMENDED OR REVISED BUDGET is the current year adopted budget adjusted to reflect all budget amendments approved by the Board of County Commissioners through the date indicated.

AMORTIZATION is the gradual elimination of a liability, such as a mortgage in regular payments over a specified period of time and the method used to prorate the cost of a specific type of asset to the asset's life.

ANNEXATION is the legal process of merging land from one governing authority to another. An example would be when an incorporated body annexes land previously governed as unincorporated by a county.

APPROPRIATION is the legal authorization of funds granted by a legislative body such as Alachua County's Board of County Commissioners to make expenditures and to incur obligations for specific purposes. An appropriation is usually limited in amount and to a time period within which it may be expended. It is the act of appropriation that funds a budget.

ARBITRAGE is a term used to describe the exploitation of inefficiencies within the financial market resulting in risk-free profit.

ASSESSED VALUE is a value set upon real estate or other personal property by a government as a basis for levying taxes. The assessed value in Alachua County is set by the Property Appraiser.

AUDIT is an unbiased examination and evaluation of the financial statements of the organization. Conducted to provide an opinion whether the financial statements are stated in accordance with specified criteria.

BALANCED BUDGET is a budget in which revenues and expenditures are equal.

BEGINNING FUND BALANCE is the Ending Fund Balance of the previous period. See the definition for **ENDING FUND BALANCE**.

BOARD OF COUNTY COMMISSIONERS is the five-member legislative body of Alachua County's general-purpose government. This board is governed by State law and County Charter.

BOND is written evidence of the issuer's obligation to repay a specified principal amount on a certain date (maturity date), together with interest at a stated rate, or according to a formula for determining that rate.

BUDGET is a comprehensive financial operating plan that allocates limited revenues among competing expenditure requirements for a given time period. The budget, once adopted, is the legal authorization to expend County funds during the fiscal year. It may be amended during the fiscal year by the governing body and/or management in accordance with procedures, rules, and regulations. The Alachua County budget progresses in three stages: Tentative Budget, Final Budget, and Adopted Budget. See the definitions for each term.

BUSINESS UNIT is similar to a "division" as it is a sub-unit of a business center and provides one of the many functions of a larger governmental program.

CAPITAL BUDGET is the financial plan of capital project expenditures for the fiscal year beginning October 1. It incorporates anticipated revenues and appropriations included in the first year of the five- year Capital Budget Financial Plan (CBFP), and any anticipated unspent budget appropriation balances from the previous fiscal year. It is adopted by the Board of County Commissioners as part of the annual County budget.

CAPITAL BUDGET FINANCIAL PLAN (CBFP), formerly the COMPREHENSIVE CAPITAL IMPROVEMENT PROGRAM (CCIP) is the financial plan of approved capital projects, their timing and cost over a five-year period. The plan is designed to meet County infrastructure needs in a responsive and efficient manner. It includes projects which are, or will become, the property of Alachua County, as well as projects that although not owned by the county, will be part of a joint project agreement.

CAPITAL OUTLAY or **CAPITAL EQUIPMENT** is an item such as office furniture, fleet equipment, data processing equipment or other operating equipment with a unit cost of \$5,000 or more.

CAPITAL PROJECT is any improvement or acquisition of major facilities with a useful life of at least five years such as roads, bridges, buildings, or land.

CAPITAL PROJECT FUNDS are used to account for financial resources to be used for acquisition or construction of major capital facilities (other than those financed by proprietary or trust funds).

CONDUIT DEBT incorporates limited obligation revenue bonds, certificates of participation, or similar debt instruments issued by state or local government entities for the express purpose of providing capital financing for a specific 3rd party that is not part of the issuer's financial reporting entity. Although the bonds issued bear the name of the governmental issuer, it has no debt service, or any other obligation beyond the resources provided to sell the debt on the 3rd party's behalf.

CONTINGENCY is an appropriation of funds set aside to cover unforeseen events that occur during the fiscal year, such as new federal mandates, shortfalls in revenue and unanticipated expenditures.

DEBT SERVICE is the dollars required to repay funds borrowed by means of an issuance of bonds or a bank loan. The components of the debt service payment typically include an amount to retire a portion of the principal amount borrowed (i.e., amortization), as well as interest on the remaining outstanding unpaid principal balance.

DEBT SERVICE FUNDS are used to account for accumulation of resources for, and payment of, general long-term debt principal and interest. Specific revenue sources are pledged to provide repayment of various bond issues.

DEMAND is a type of measurement category. Demand represents the external factors that demonstrate the needs for the service(s) or program(s), i.e., population, service area, complaints, and waiting lists.

DEPARTMENT is, for budgeting purposes, any distinct government organizational entity receiving direct funding approved by the Board of County Commissioners in order to provide a major governmental function, such as public safety or public works.

DEPRECIATION is the process of estimating and recording lost usefulness, expired life or decrease of service from a fixed asset that cannot or will not be restored by repair and will be replaced. The cost of the fixed asset's lost usefulness is the depreciation or the cost to reserve in order to replace the item at the end of its useful life.

DIVISION is a sub-unit of a department engaging in the provision of a large multi-service program. An example would be the division of Procurement within the department of Budget and Fiscal Services that provides numerous administrative functions.

ECONOMIC INDICATOR is economic information such as consumer price index, population, personal income, housing, wages, business activity and unemployment.

EFFECTIVENESS is a type of measure category sometimes referred to as quality indicators. Effectiveness measures examine the degree to which services are responsive to the needs and desires of the customers (both external and internal). These measures tell how well the job is being performed, how well the intent is being fulfilled. Effectiveness encompasses both quality and quantity. Demand and the response to demand are often linked in these measures. These are the most difficult measures to collect and use, because the organization must develop a method of retrieving the information from outside those served.

EFFICIENCY is a type of measurement category sometimes called productivity. This is often measured in terms of unit costs over time, increased timeliness of responses, or reduction in previous delays. Efficiency refers to the ratio of the quantity of service (tons, gallons, hospital care days, etc.) to the cost in dollars or labor or the time required to produce the service. An efficiency measure can be either an output or input ratio (e.g., the number of trees trimmed per crew per day or the dollar cost per permit application processed).

ENCUMBRANCE is an obligation in the form of a purchase order, contract, or formal agreement that is chargeable to an appropriation and for which a part of the appropriation is reserved.

ENDING FUND BALANCE is funds carried over at the end of the fiscal year. Within a fund, the revenue on hand at the beginning of the fiscal year, plus revenues received during the year, less expenses equals ending fund balance.

ENTERPRISE FUND is a fund used to account for operations that are financed and operated in a manner similar to private business enterprises, wherein the stated intent is that the costs (including depreciation) of providing goods and services be financed from revenues recovered primarily through user fees.

EXPENDITURES are amounts of money actually paid or obligated for payment from County funds.

FACILITY PRESERVATION EXPENSES are asset preservation costs generally considered to be outlays that extend the useful life of an asset beyond its original estimated useful life but do not increase the capacity or efficiency of the asset. Preservation costs are expensed under the modified approach and capitalized under the depreciation approach if they meet the capitalization threshold.

FIDUCIARY FUNDS are used to account for assets held by a governmental unit in a trustee capacity or as an agent for individuals, private organizations, other governmental units, or other funds.

FINAL BUDGET is the Board's modification to the budget made at the first public hearing (basis for the second public hearing).

FINANCIAL STATEMENTS show the revenue collected and the amounts the government spent for the fiscal year.

FISCAL YEAR is a twelve-month financial period used by the County, which begins October 1 and ends September 30 of the following year. A fiscal year is identified by the year in which it ends. Example, October 1, 2022, to September 30, 2023, is identified as fiscal year 2023 (also FY 2023 or FY23).

FIXED ASSETS are of a long-term character that are intended to continue to be held or used, such as land, infrastructure, buildings, construction in progress, improvements other than buildings, and equipment.

FULL-TIME EQUIVALENT (FTE) is one position funded for a full year. For example, a permanent employee funded and paid for 40 hours/week and 52 weeks/year, or 2 employees funded and paid for 20 hours/week and 52 weeks/year would be equal to one full-time equivalent.

FUND is an accounting entity used to record cash and other financial resources as well as an offsetting amount of liabilities and other uses. The resources and uses are segregated from other resources and uses for the purpose of carrying on specific activities or attaining specific objectives in accordance with special regulations, restrictions, or limitations.

FUND BALANCE represents the excess of a fund's current assets over its current liabilities. For accounting purposes, fund balance is calculated as of year-end and is based on the difference between actual revenues and expenditures for the fiscal year. If revenues exceed expenditures, fund balance is positive and carries forward as revenue to the following year. If expenditures exceed revenues, any existing fund balance from a prior year is reduced. A study of changes in fund balances can indicate financial trends and fiscal health. Extreme quantities of fund balances or large fluctuations may indicate possible policy adjustments by the governing body or changes in budget procedures.

FUNDING SOURCES is a term referring to the type or origination of funds to finance recurring or non-recurring expenditures. Examples include revenues such as ad valorem taxes, user fees, licenses, permits, and grants and non-revenues such as fund balance and interfund transfers.

FY 24 ADOPTED BUDGET refers to the budget period beginning October 1, 2023, and ending September 30, 2024.

FY 25 ADOPTED BUDGET refers to the budget period beginning October 1, 2024, and ending September 30, 2025.

GENERAL REVENUE FUND (GENERAL FUND) is a fund that accounts for all financial transactions except those required to be accounted for in all other funds. The fund's resources, ad valorem taxes, and other revenues provide services or benefits to all residents of Alachua County.

GENERALLY ACCEPTED ACCOUNTING PRINCIPLES (GAAP) comprises the uniform minimum standard of, and guidelines for, financial accounting and reporting. They govern the form and content of an entity's basic financial statements. GAAP encompasses the convention, rules, and procedures necessary to define accepted accounting practices at a particular time.

GOVERNMENTAL FUNDS are used to account for tax supported activities. Alachua uses four different types of governmental funds: the general fund, special revenue funds, debt service funds, and capital project funds.

GRANTS AND AIDS includes all grants, subsidies, and contributions from other government agencies or private organizations.

HOMESTEAD EXEMPTION is a deduction from the total taxable assessed value of owner-occupied property. The current maximum exemption is \$25,000 for all homesteaded properties, and an additional \$25,000 on the assessed value between \$50,000 and \$75,000. Exemptions must be requested by taxpayers.

IMPACT FEES are a type of charge for services imposed on new construction to support specific new demands on a given service, e.g., transportation, schools, parks, and fire protection.

INFRASTRUCTURE is a permanent installation such as a building, road, or water transmission system that provides public services.

INTER-FUND TRANSFER is the movement of funds from one accounting entity to another within a single government.

INTERGOVERNMENTAL REVENUES are revenues from other governments in the form of grants, entitlements, shared revenues, or payments in lieu of taxes.

INTERNAL SERVICE FUND is a fund established from the financing of goods or services provided by one department or agency to other departments or agencies on a cost reimbursement basis.

LEVY is the action of imposing taxes, special assessments, or service charges for the support of County activities.

LIABILITY is debt or other obligations arising out of transactions in the past which must be liquidated, renewed, or refunded at some future date. The term does not include encumbrances. See the definition of **ENCUMBRANCE**.

LOCAL OPTION SALES TAX is an infrastructure surtax to be levied by local governments as approved by referendum at a rate of 1/2 cent or 1 cent. Tax may be effective for up to fifteen years from the date of levy. Proceeds must be expended on fixed capital expenditures or fixed capital costs for construction, reconstruction, or improvement of public facilities that have a life expectancy of five or more years and land acquisition, land improvement, and related design and engineering costs. See also "Voter Approved Indigent Care Surtax."

MAJOR FUND is a title given a fund within the County that is large in proportion to other funds (e.g., General Fund, the MSTUs, and the Gas Tax Fund).

MANDATE is a requirement imposed by a legal act of the federal, state, or local government.

MEASURE is a term referring to any one of four different types of measure: a count, a ratio, a percentage, or a dollar amount. Before developing any measure, it is necessary to identify something that can be counted. To identify what is to be counted, the event being assessed must be determined, i.e., days spent in the hospital, certificates of occupancy issued, gallons of water treated, etc.

MILL is a monetary measure equating to 0.001 of a dollar. When referring to the **AD VALOREM TAX**, it means that a 1-mill tax is one dollar of tax on \$1,000 of taxable value.

MILLAGE RATE is the rate per one thousand dollars of taxable property value which, when multiplied by the taxable value, yields the tax billing for a given parcel.

MISCELLANEOUS (FUNDING SOURCE) is revenue other than those received from standard sources such as taxes, licenses and permits, grants and user fees.

MISSION STATEMENT is a broad statement of purpose derived from an organization's and/or community's values and goals.

MODIFIED ACCRUAL is the basis of accounting that is used in governmental funds where the focus is to measure current financial resources. Revenues are not recognized until they are measurable and available. Expenditures are recognized when the related liability is liquidated not when the liability is first incurred.

MUNICIPAL SERVICES BENEFIT UNIT (MSBU) A special assessment district authorized by Florida Statutes 125.01 to provide for improvements and/or services to a specifically defined area of the county and financed by a special assessment on only those properties receiving benefits of those improvements or services.

MUNICIPAL SERVICES TAXING UNIT (MSTU) is the taxing district authorized by State Constitution Article VII and Florida Statute 125.01 encompassing the unincorporated area of the County. It provides services typically provided by a municipality (e.g., Sheriff's patrol, paramedic services, fire protection, parks and recreation, code enforcement and road network maintenance) to the residents and businesses in the unincorporated area. The services are financed primarily by an ad valorem tax levied on all taxable property located in the unincorporated area.

NON-AD VALOREM ASSESSMENT is a fee levied on certain properties to defray all or part of the cost of a specific capital improvement or service deemed to benefit those properties. The value of the property is not considered when calculating a non-ad valorem assessment. Instead, the cost of the facility or the service is allocated proportionately to the benefited properties in a defined area. It is sometimes referred to as a "Special Assessment". Generally, this is collected by the Tax Collector's Office on the annual consolidated tax bill like ad valorem taxes.

NON-OPERATING EXPENDITURES are costs of government services that are not directly attributable to a specific County program or operation. Examples include debt service obligations and contributions to community service organizations.

NON-OPERATING REVENUES comprise income received by a government not directly attributable to providing a service. An example would be interest on investments.

OBJECTIVE is a specific step, with measurable terms, that contributes to achieving organizational goals. Considered a pre-requisite for budget planning.

OPERATING BUDGET is the budget including appropriations for recurring and certain one-time expenditures that will be consumed in a fixed period of time to provide for day-to-day operations (e.g., salaries and related benefits, operating supplies, contractual and maintenance services, professional services, and operating equipment). The operating budget does not include debt service payments (principal and interest), budgeted reserves, transfers between funds, and the capital projects program budget. It does include the Internal Service and Trust funds.

OPERATING EXPENDITURES / EXPENSES are the costs (expenses) directly related to a fund's primary service activities on an on-going or regular basis.

OPERATING REVENUES are the incomes (revenues) directly related to a fund's primary service activities. They consist primarily of user charges for services.

OPERATING TRANSFERS are legally authorized transfers of money from one fund to another fund from which the resources are to be expended.

PERFORMANCE MEASURES comprise a set of measures of service efforts and accomplishments. Six measure types include: 1) measure of efforts (inputs), 2) activity or process measures, 3) output measures, 4) service quality measures, 5) outcome measures, and 6) efficiency measures.

PERSONAL SERVICES characterize expenses for salaries, wages, and related employee benefits provided for all persons employed by the County whether on a full-time, part-time, or temporary basis. Employee benefits include employer contributions to a retirement system, social security, insurance, sick leave, and similar direct benefits as well as other costs such as Workers' Compensation and Unemployment Insurance.

PORTABILITY is a legislative provision that was enacted as part of Constitutional Amendment 1 that allows Florida homeowners to transfer a portion of their Save Our Homes taxable value reduction when they move to another homesteaded property in the State of Florida. Portability reduces the local government tax base by reducing taxable values of homesteaded properties. Portability benefits must be requested by taxpayers.

PROPERTY TAX is another term for ad valorem tax. See the definition for **AD VALOREM TAX**.

PROPRIETARY FUND is a fund category which often emulates the private sector and focuses on the measurement of net income. Expenditures are funded by user charges and fees.

PROPRIETARY FEES are home rule revenue sources, which are based on the assertion that local governments have the exclusive legal right to impose such fees. Examples of proprietary fees include admissions fees, franchise fees, user fees, and utility fees.

REGULATORY FEES are home rule revenue sources that may be imposed pursuant to a local government's police powers in the exercise of a sovereign function. Examples of regulatory fees include building permit fees, impact fees, inspection fees, and stormwater fees.

RESERVES AND REFUNDS refers to a budget category for funds required to meet both anticipated and unanticipated needs; the balance of anticipated earmarked revenues not required for operation in the budget year; estimated reimbursements to organizations, state, or federal governments for revenues received and not spent, and those required to be set aside by bond covenants.

RETAINED EARNINGS is a term the County uses as the amount of budget/cash set aside within an enterprise fund for possible, unforeseen expenditures. Similar to fund balance.

REVENUE are funds that governments receive as income, including such items as tax payments, fees for specific services, receipts from other governments, fines and forfeitures, grants, shared revenues, and interest income.

REVENUE BONDS are bonds usually sold for constructing or purchasing capital projects. Reliable revenue other than ad valorem taxes is pledged as the source for funding to pay bond principal and interest.

ROLLED-BACK RATE is the millage rate needed to be levied in the new fiscal year to generate the same amount of tax dollars as adopted in the previous fiscal year. Voter approved debt levies are excluded from the calculation. Value of new construction is excluded from the current year total. Rolled-back rate adjusts prior year for reappraisals based on market value of property and represents "no tax increase." The only source of additional tax revenue, if the rolled-back rate is levied, is the tax on new construction.

SAVE OUR HOMES is a voter approved amendment to the Florida Constitution which limits the size of the annual increase in the assessed value of owner-occupied residential properties which have homestead status. Increases in the annual assessment of homesteaded property shall not exceed the lower of either 1) three percent (3%) of the assessment of the prior year or 2) the percent increase in the Consumer Price Index for all urban consumers in the United States.

SPECIAL ASSESSMENT is the term used to designate a unique charge that government units can assess against real estate parcels for certain public projects.

SPECIAL REVENUE FUNDS are funds used to account for proceeds of specific revenue sources (other than special assessments, expendable trusts, or major capital projects) that are legally restricted to expenditures for specified purposes.

STATUTE is a written law enacted by a duly organized and constituted legislative body. Citations are often followed by "F.S." to indicate Florida Statute.

TANGIBLE PERSONAL PROPERTY is the non-real estate property, excluding motor vehicles, inventory, and household goods, that is owned by business enterprises and subject to ad valorem taxation. Constitutional Amendment 1 provides that the first \$25,000 of tangible personal property is exempt from ad valorem taxes starting with FY 09. It also imposes a 10% cap on annual increases in tangible property valuation.

TAX RATE is the amount of tax stated in terms of a unit of the tax base. For example, 5.000 mills yield \$5 per \$1,000 of taxable value.

TAXABLE VALUE is the value used for computing ad valorem taxes levied against property. Taxable value is the assessed value less any exemptions allowed by law. The most common exemption is the \$25,000 homestead exemption allowed when the owner uses the property as a principal residence, and an additional homestead exemption of \$25,000 on assessed value between \$50,000 and \$75,000 enacted as part of Constitutional Amendment 1 in January of 2008. Exemptions are also granted for disability, government owned and non-profit owned property.

TENTATIVE BUDGET is the County Manager's recommendation of the budget plan to the Board of County Commissioners.

TRANSFER IN/OUT TO CONSTITUTIONALS. There are five elected constitutional officers per Florida Constitution; the expenditure budgets for these officers are transferred out to each entity to manage on its own and revenues received from them are also accounted and recorded separately, in order to meet GASB/GAAP and statutory requirements. The details of the budgets are managed by the officers and not through the County system.

TRUTH IN MILLAGE LAW (TRIM) is a Florida Law enacted in 1980 which changed the budget process for local taxing governments. It was designed to keep the public informed about the taxing intentions of various taxing authorities.

TRUST AND AGENCY FUNDS are funds used to account for assets held by the County in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds.

USER (FEES) CHARGES are payments of a fee for receipt of a public service by those individuals benefiting from the service.

UNASSIGNED FUND BALANCE is the residual classification that includes amounts that are not included in other classifications. Unassigned amounts are the portion of fund balance which is not obligated or specifically designated and available for any purpose. The General Fund is the only accounting fund that can report unassigned fund balance.

UNINCORPORATED AREA is the portion of the County not within the boundaries of any municipality.

The Value Adjustment Board (VAB) provides property owners the opportunity to appeal a property value or denied exemption. Per Florida Statutes, the petition filing period begins when the Notices of Proposed Property Taxes are mailed in August and ends 25 days later, usually in mid-September. In 2023, the number of Value Adjustment Board petitions was 509 up from 393 in 2022 and there were 274 Value Adjustment Board Hearings, up from 70 the previous year.

In 2023, new construction values increased \$77,043,148 over 2022. The trend history demonstrates the 79.85% increase in 2017 and the 62.05% increase in 2021. The 12-year average is 11.71%.

Property owners in Florida may be eligible for exemptions and additional benefits that can reduce their property tax liability. The homestead exemption and Save Our Homes assessment limitation help thousands of Florida homeowners save money on their property taxes every year. Further benefits are available to property owners with disabilities, senior citizens, veterans, and active-duty military service members, disabled first responders, and properties with specialized uses.

Financial Policy Budget Management

Resolution Number 2024-15 Effective for the FY25 Budget 10/01/2024

BUDGET MANAGEMENT

Purpose: To establish and maintain practices for the adoption, administration, and amendment of the annual budget in accordance with Florida Statute Chapter 129.

Policy: To exercise the highest level of budgetary control per Florida Statute Chapter 129 with an emphasis on transparency to communicate the County's annual budget process from conception to finality including budget amendments and adjustments made throughout the fiscal year.

The Board of County Commissioners designates the County Manager to be the County Budget Officer pursuant to Florida Statute 129.025(1)

Procedure:

1. Revenues
 - A. The Office of Management and Budget (OMB) will estimate revenues as early as possible in the budget process in order to limit appropriation request. The Board of County Commissioners will establish the County's budget priorities based upon the revenue estimates and expenditure priorities.
 - B. The budget shall be balanced; the total estimated receipts (including balances brought forward) shall equal the total appropriations and reserves in accordance with Florida Statute Chapter 129.01(2)(b).
 - C. In general, current operating revenue should be sufficient to support current operating expenditures, with budget amendments and adjustments made to budgeted fund balance and/or appropriations if necessary.
 - D. "Earmarking" of available revenues that would unnecessarily restrict the full range of potential uses of such revenues will be limited. The use of various funds, however, will be consistent with generally accepted accounting principles and Florida Statute Chapter 129.02. Law Enforcement will be funded 54% from the MSTU-LE taxes and 46% from the General County taxes. State shared half-cent sales taxes that are in excess of debt obligation payments will be split 90% to the General Fund and 10% to the MSBU-Fire Fund. Public Service Tax and Communications Service Tax will be split 60% to the General Fund and 40% to the MSBU-Fire Fund.
 - E. One-time revenues will be utilized to fund one-time expenditures wherever possible. If one-time revenues are assigned to pay for

recurring expenditures a three-to-five-year plan for transferring the expenditure to a recurring revenue source will be adopted by the County as a part of the budget process in the initial year.

- F.** The Board of County Commissioners is authorized to establish and collect fees and charges for certain services rendered by the County. These services are available to all residents of the County but are not needed by the majority of residents, therefore, those utilizing the services are charged for the service.
 - I.** All Proprietary Fees, payments for use of facilities and services, are to be reasonable in relation to the County provided privilege or service to the fee payer that receives the special benefit.
 - II.** All Regulatory Fees, payments, whether designated as license fees, permit fees or by another name, which are required as an exercise of police power and as a part of or as an aid to regulation of an occupation, profession, or business, may not exceed the actual cost to the County of providing the service to the individual fee payer. Additionally, fees are solely based on the actual cost of providing what the user is consuming or are charged per direction from a regulatory authority.
 - III.** All requested changes to the Schedule of Fees during the fiscal year are presented to the Board of County Commissioners for its review and approval.
 - IV.** A fee schedule is therefore adopted and amended by resolution each fiscal year. Annually, fees will be reviewed by Departments and any requested modifications will include the full cost of activities, including direct and indirect costs currently supported by the fees to identify the impact of inflation and other cost increases. Supporting documentation showing calculations for fees changed will be submitted by Departments as part of the annual budget process. Departments shall retain supporting documentation for a period of two (2) years. A thorough review of the countywide fee schedule will be conducted periodically.
- 2.** Expenditures
- A.** The financial impact associated with new programs or program modifications will be analyzed and determined prior to adoption by the Board. When new programs or increased levels of service are proposed, departments will identify any applicable Federal or State mandates; outline client benefits and strategic initiatives; demonstrate alignment to organizational goals, objectives, and agreements; identify related health and safety issues; demonstrate conformance to

industry/professional standards; and identify all funding sources including fees or tax increases needed to partially or fully fund the program or service. The department will document any offsetting revenue or cost avoidance associated with this issue as well as consequences of not funding the proposal.

- B.** Understanding what a program or activity costs, and what benefits are derived from these programs or activities allows the County to make informed funding decisions. To that end, all expenditures will be analyzed to ensure service alignment with current Board priorities.
- C.** Departments shall utilize performance measures to track performance, support operational improvement, and determine effective use of resources for each program.
- D.** Inflationary factors and changes in population will be considered in preparing cost of service delivery.
- E.** Internal Service Funds will be self-supporting whenever possible. Internal service fees and the direct impact to County operating budgets shall be analyzed annually as part of the budget process and will be budgeted centrally for all departments.
- F.** Grant applications to fund services/programs with state or federal funds will be recommended to the Board upon review by the Office of Management and Budget and the County Manager, with significant consideration given to:
 - I.** The cost of administering the grant relative to the amount of the grant
 - II.** The availability of matching funds
 - III.** The extent to which locally generated funds will be required to support the program when the grant funding is no longer available.
 - IV.** The personnel impact to the department.
 - V.** Time is of the essence with grant applications and should an opportunity for an application submittal arise that does not coincide with established Board of County Commission meetings, the County Manager, or designee shall have authority to submit and sign the grant application and place the item on the next Board of County Commission agenda for an update.
 - VI.** All grant acceptance awards will be placed on Board of County Commission agendas for final approval.

3. Operating Budget

For purposes of budgetary control, expenditures cannot legally exceed the total annual budgeted appropriations at the financial reporting fund level (The Laws of Florida Chapter 65-1236 Sub 1 and County Ordinance 233.01). The County maintains both accounting funds and financial reporting funds defined as:

- A.** Financial Reporting Fund – Also known throughout the County as a “Superfund”, is an accounting entity with a self-balancing set of accounts that whenever possible will include a combination of similar “accounting funds”.
- B.** Accounting Fund – an accounting entity with a self-balancing set of accounts which are segregated for the purpose of detailing compliance with special regulations, restrictions, or limitations.
- C.** A Municipal Services Taxing Unit (MSTU) for Law Enforcement Services - This fund, established by ordinance, shall be administered by the Board and follow the established reserve for contingency policy. Current policies for estimating revenues and appropriating expenditures shall be applied to this fund.
- D.** A Municipal Services Benefit Unit (MSBU) for Fire Protection Services - This fund, established by ordinance, shall be administered by the Board and follow the established reserve for contingency policy. Current policies for estimating revenues and appropriating expenditures shall be applied to this fund.

Stated Shared Half Cent Sales Tax, Public Services Tax, and Communications Service Tax will be shared between the General Fund and MSBU - Fire. This allocation may be reviewed on a periodic basis.

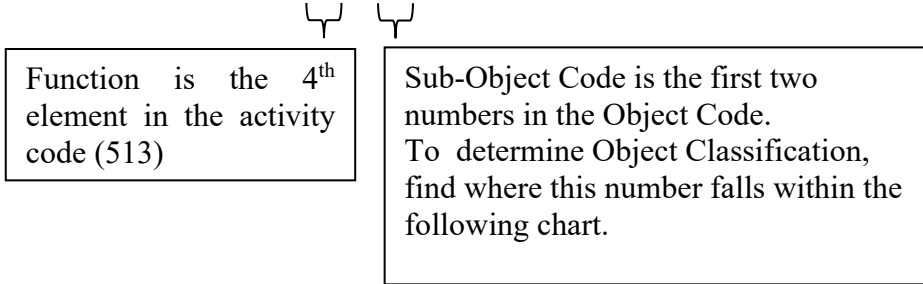

4. Budget Request

The County shall develop a proposed budget to include personal services, operating, capital outlay, debt service, grants and aids, and other uses categories.

- A.** All Board Departments shall submit a budget request in the manner and form prescribed by the County Manager and Office of Management and Budget no later than the date set forth in the budget calendar.
- B.** The Clerk of Court, Sheriff, and Supervisor of Elections shall submit a budget request in the manner and form prescribed by the Board of County Commissioners through the Office of Management and Budget no later than May 1st (Florida Statute 129.03(2)).

- C. It is requested by Resolution, that the Property Appraiser, Tax Collector, and Judicial Officers submit their budgets no later than May 1st of each year.

Example: **001.17.1720.513.31.00**

Code	Object Codes (AKA “Categories”)
10	Personal Services Includes Sub-Object Codes 11-29
30	Operating Expenditures Includes Sub-Object Codes 31-59
60	Capital Outlay Includes Sub-Object Codes 61-68
70	Debt Service Includes Sub-Object Codes 71-73
80	Grants and Aids Includes Sub-Object Codes 81-83
90	Other Uses Includes Sub-Object Codes 91-99

5. Budget Appropriations, Amendments and Adjustments – Budgetary levels of authority are as follows:

A. Budget Appropriation

- I. Appropriations will be made at the Fund (Superfund), Functional Category, and Object Classification (Also Known As “AKA” “categories”; personal services, operating expense, capital outlay, debt service, grants, and aids, and “other use” expenses).

- II. The Office of Management and Budget will ensure that the application of the indirect charges do not adversely affect the provision of services of the fund receiving the indirect charge.
- III. A fund for private, not-for-profit outside agencies may be maintained with an annual appropriation as available with consideration of budgetary constraints and Board Policies. All agencies seeking funding from the Board should do so during the annual open application process through the appropriate department, such as Community Support Services Department and the Outside Agency Funding Advisory Board.
- IV. All requests to fund discretionary court programs, otherwise known as “local requirements,” as defined within Article V of the Florida Constitution and the supporting Florida Statutes (28.24, 29.008) require Board approval during each budget process.

B. Amendments and Adjustments:

- I. Budget amendments between reporting funds that change the fund’s total appropriation require the approval of the Board of County Commissioners and an advertised public hearing. The Board, at any time within a fiscal year, may amend a budget for that year, and may within the first 60 days of a fiscal year amend the budget for the prior fiscal year.
- II. Budget adjustments between Functions, as defined by the Uniform Chart of Accounts (Also Known As Uniform Accounting System Manual for Florida Local Governments), up to and including \$50,000 can be approved by the County Manager. Budget adjustments between Functions over \$50,000 require approval of the Board of County Commissioners. Budget adjustments between categories that do not impact Function or Accounting Fund totals can be approved by the County Manager. A quarterly report of budget adjustments will be generated and published in the Board agenda with the quarterly Financial Reports.
- III. Per Florida Statute 129.06(2), appropriations related to prior year non-operating encumbrances, grants, and capital projects not completed will be submitted to the Board of County Commissioners as a budget amendment no later than the deadline set by OMB or November 15th of each fiscal year whichever is earlier. This is considered the “Carry-Forward” budget amendment. Transfers from the Reserve for Contingency in the General Fund, MSTU Law Enforcement and MSBU Fire Funds require Board of County Commission approval.

- IV. Establishing a budget for revenues that were not anticipated during the annual budget process requires that the Board of County Commissioners adopt a resolution to recognize the revenue, appropriate the revenue, and establish a new fund if appropriate (Florida Statute 129.06(2) (d) and(e)).
- V. Upon completion of the prior fiscal year's Annual Comprehensive Financial Report, the operating budget may be adjusted to reflect actual beginning fund balances if deemed necessary by the Office of Management and Budget. Audited fund balances will be adjusted during this "Mid-Year" budget amendment process to prevent spending of resources not available (Florida Statute 129.06(2)(f)).
- VI. Amendments not specifically authorized in Florida Statute Chapter 129.06(2) (a-e) require the amendment to be authorized by resolution or ordinance of the Board of County Commissioners and adopted following a public hearing. The public hearing must be advertised at least two (2) days, but not more than five (5) days, before the date of the hearing. The advertisement and adoption procedures are similar to those required for adoption of the annual budget (Florida Statute 129.06(2)(f)) and Florida Statute 50.0311.
- VII. Pursuant to Florida Statute 129.06(2)(f)2, budget amendments must be posted to the County's official website within 5 days of adoption/approval.

6. Fund Balance

A. Minimum Fund Balances

- I. General Fund – The budgeted Estimated Ending Fund balance will be at a minimum 10% of projected revenue.
- II. MSTU Law Enforcement, MSBU Fire Fund and Gas Tax Fund – The budgeted Estimated Ending Fund Balance will be at a minimum 5% of projected revenue.
- III. All Other Operating Funds – The amount of ending fund balance to be budgeted shall be analyzed and determined during the annual budget process; the Assistant County Manager for Budget and Fiscal Services and the Finance Director will jointly agree upon the ending fund balances.
- IV. To the extent feasible, the actual unassigned plus assigned ending fund balances for the County's General Fund, MSTU Law

Enforcement and MSBU Fire Funds will be at least 2 months of the appropriations.

- B.** During Carry Forward and Midyear budget amendments, fund balance may be used for:
 - I.** Appropriations related to prior year non-operating encumbrances, grants, and capital projects not completed. The total carry-forward amounts will be reported in the prior year Annual Comprehensive Financial Report as assigned fund balances.
 - II.** Funding for authorized mid-year increases that will provide for a level of service that was not anticipated during the budget process.
 - III.** Funding for unexpected increases in the cost of providing existing levels of service.
 - IV.** Temporary and nonrecurring funding for unanticipated projects.
 - V.** Funding of a local match for public or private grants.
 - VI.** Funding to off-set losses in revenue caused by actions of other governmental bodies and/or unanticipated economic downturns.
 - VII.** Funding to accommodate unanticipated program mandates from other governmental bodies.
 - VIII.** Funding for emergencies, whether economic, natural disaster or acts of war.
 - IX.** Funding for market and economic fluctuations in enterprise and internal service funds.
 - X.** Funding for contamination remediation.
 - XI.** Funding for rate stabilization.

- 7.** Budgeted Reserve for Contingency
 - A.** Reserve for contingency requests in the General Fund, MSTU Law Enforcement and MSBU Fire Funds and Gas Tax Fund must be approved by the Board of County Commissioners. The Board will use the procedures and evaluation criteria set forth in this, and other policies. Such requests will be evaluated as to the:

- I. Urgency of the request
 - II. Scope of services to be provided.
 - III. Short and long-term fiscal impact of the request
 - IV. Potential for alternative methods of funding or providing the service(s)
 - V. Review for duplication of service(s) with other agencies
 - VI. Review of efforts to secure non-County funding.
 - VII. Discussion of why funding was not sought during the normal budget cycle.
 - VIII. Review of the impact of not funding or delaying funding to the next fiscal year.
- B.** A reserve for contingency shall be calculated and budgeted by the Office of Management and Budget at a level not less than 5% of the General Fund, MSTU Law Fund, and MSBU Fire Fund and Gas Tax Fund operating revenues, respectively, and an amount not greater than 10% of the total budget and in accordance with Florida Statute Chapter 129.01(2)(c) for each operating fund. If the reserve for contingency falls below 50% of the minimum level, the reserves shall be reestablished over a period not to exceed three fiscal years.
- C.** The reserve for contingency shall be separate from any unallocated fund balances.
- D.** The County's budget will be amended at such time as the Board of County Commissioners authorizes the use of contingency reserves (Florida Statute 129.06(2)(b)). All requests for the use of any reserve for contingency as referenced in 7.B. shall be accompanied by information prepared by the Office of Management and Budget showing the year-to-date activity of the reserve account as well as the current account balance and the net effect on the account balance.
- E.** Self-Insurance Risk Fund will be maintained at a level that, together with purchased insurance policies, will adequately indemnify the County's property and liability risks in accordance with Chapter 28 of the Alachua County Code.
- I. A qualified actuarial firm shall be retained on an annual basis in order to recommend appropriate funding levels.

- II. The Self-Insurance Risk Program will be funded at a confidence level of a minimum of 75 percent, based on an annual Cost of Risk Allocation Study and may include use of accumulated retained earnings to maintain this confidence level. Changes and budget for the Self-Insurance Risk Program are made by Board approval as stated in Alachua County Code Chapter 28.
 - III. The County shall maintain two months of anticipated claims for a Reserve for Contingency/ Catastrophic Loss in the Self-Insurance Risk Fund. In the event that retained earnings fall below these designated levels due to a catastrophic loss, a recommendation to replenish retained earnings will be prepared by the Risk Management Division for the County Manager's review and submitted for Board approval.
 - IV. The Self-Insurance Risk Fund shall be analyzed as part of the annual budget process.
- F. Health Insurance Fund will be maintained at a level that will, together with purchased insurance policies, adequately fund medical claims risk in accordance with Chapter 28 of the Alachua County Code, as outlined in the Health Insurance Management Policy.
- I. A qualified actuarial firm shall be retained on an annual basis in order to recommend appropriate funding levels.
 - II. The Florida Office of Insurance Regulation strongly encourages at least 60 days of anticipated claims, as set by an actuary. An actuarial best practice is to establish 120 days of anticipated claims as a reserve, and as such will be the requirement for the fund.
 - III. For both Board of County Commission (BoCC) departments and non-BoCC departments (Constitutional and Legislative Offices), any excess budgetary dollars remaining in the health insurance line item of a department's budget at the end of the fiscal year, will be returned to the Health Insurance Fund.
 - IV. The Health Insurance Fund shall be analyzed as part of the annual budget process.
- G. Retained Earnings in the Solid Waste Fund shall be maintained at a beginning balance of \$2,500,000. If Retained Earnings are depleted during a fiscal year, a plan will be developed and presented to the Financial Oversight Committee to restore Retained Earnings in its entirety the following year. If it is not feasible, the Department will present a plan to the Financial Oversight Committee which will be

forwarded to the Board of County Commissioners for their approval during the budget process.

H. Budget Amendment Internal Process

PROVISIONS:

Capital Budget & Financial Plan

Purpose:

To promote fiscal responsibility in the funding of projects as adopted by the Board through the budget process and prepared work plans related to capital planning and infrastructure aligned with the objectives and level of service addressed in the “Comprehensive Plan 2019-2040, Capital Improvements Element (CIE)”. The following financial policy is established for Alachua County’s Capital Budget and Financial Plan (CBFP). As a matter of general policy, the goals of the CBFP are to:

1. Prioritize and align funding to create capital and infrastructure project budgets.
2. Properly identify and record capital assets related to the physical and economic development of the community.
3. Promote financial stability and focus attention on the County’s long term financial capacity to meet capital needs.
4. Recommend funding mechanisms and long-term financing of infrastructure.
5. Effectively communicate the County’s priorities and plans for undertaking capital projects to internal and external stakeholders, including Citizens, County staff, Constitutional Officers, and Judicial Officers.

Formulation:

Process

The CBFP consists of cross departmental activities designed to identify, plan, finance, and undertake acquisition of long-lived capital assets necessary to meet service level goals and objectives as identified in the CIE. The CBFP functions as:

1. A multi-year projection of the County’s major capital needs.
2. A formal mechanism for decision making related to planning and budgeting for major capital acquisitions.
3. A link to the County’s long-range plans concerning the economic and physical development of the community, and the provision of public services.
4. A financial management tool identifying future financing requirements for major capital acquisitions over the planning period.
5. A communications device for reporting to internal and external stakeholders the County’s capital priorities, and plans for implementing capital projects.

The major output of the program is the annually updated Capital Budget. The CBFP plans for the allocation of existing and anticipated financial resources to replace, renew, expand, or acquire new capital stock, facilities, and infrastructure. The CBFP is a five (5) year funding plan identifying the priority, scheduling, and financing of major capital projects to

be undertaken over the planning period. The CBFP represents a management and financial plan to guide capital financing and acquisition activities and is subject to annual review and modification by County staff, and approval by the Board of County Commissioners as part of the budget process.

Definition Statement of a Capital Project

Notwithstanding the definition of capital items and fixed assets established for capital budgeting and accounting, capital projects shall be defined for the purposes of the CBFP as follows:

A capital project is an outlay that results in or contributes to the acquisition of or addition to a capital asset with an anticipated cost equal to or exceeding one hundred and fifty thousand dollars (\$150,000) **and** with an anticipated useful life equal to or exceeding ten (10) years. This definition includes, but is not limited to, capital projects undertaken to:

1. Acquire new or expand existing physical facilities or infrastructure.
2. Acquire large scale renewal, improvement, or replacement of physical facilities or infrastructure that is not routine maintenance. Renewal and improvement expenditures are those that improve an asset's productivity, significantly extend its useful life, change the character of the asset, or be an element of the larger project which enhances or contributes to its functionality.
3. Acquire major pieces of equipment, vehicles, and other capital stock, including expenditures when aggregated or consolidated into a single project meet both criteria set forth above.
4. Procure engineering or architectural studies and services related to public improvements.
5. Acquire land or make improvements to land.

Projects meeting the above definition shall be eligible for consideration and inclusion in the annually updated CBFP. All expenditures meeting the criteria for fixed assets as defined by the County's Fixed Asset Policy shall continue to be budgeted and accounted for as capital expenditures, however, will not be eligible for inclusion in the CBFP unless they meet the above definition of a capital project. Staff with questions regarding the definition of a capital project should contact the Office of Management and Budget.

CBFP Development Responsibility

The Office of Management and Budget shall have lead responsibility in coordinating the tasks and activities, necessary to successfully develop and administer the CBFP, including but not limited to establishing policies, procedures, schedules, and deadlines for formulation, defining roles and responsibilities of participants, obtaining relevant and reliable documentation and information for capital projects, establishing project evaluation

criteria and rating systems, developing the Capital Budget document for governing body approval, and monitoring implementation of capital planning efforts.

Project Requests and Consideration

The basis of project identification will mainly be formulated from the Board approved or adopted “Master Plans” for County Facilities, Transportation, Parks and Recreation and Conservation Lands. To evaluate the merits of capital project requests and to allow each project due process in evaluations, capital projects proposed during the annual CBFP process shall be accompanied, at a minimum, by the following information:

1. Project Title, Physical Description, and Definition of Scope
2. Demonstration/Justification of Need – Classification of Asset & Service Expectations
3. Alignment with Level of Service in the CIE
4. Project Schedule
5. Capital Cost Estimate
6. Statement of Impact on the Operating Budget
7. Relationship to other Planned Projects
8. Project’s Department Rank Priority
9. Recommended/Anticipated Funding Sources

The Office of Management and Budget shall establish forms, instructions, deadlines, and procedures for project submittal and review.

Service Expectations

- A. Desired level of service of the asset. This includes the desired life span, functionality, and efficiency.
- B. Required or desired components, amenities and enhancements of the asset or components of the asset. This includes sustainability enhancements, energy conservation measure, or certification requirements.
- C. Identify options to augment life span or use consistent with the desired efficiency or level of service. This includes reviewing options for replacement, renovation, repair, or rehabilitation of the asset to meet desired service level, based on the cost of effectiveness of those options.

Needs Determination and Prioritization

Through a review of the condition assessment, level of service needs, and Board direction, each department can identify their needs and prioritize these needs for consideration in developing the 5 Year Capital Budget.

Financial Policy Capital Budget & Financial Plan

Resolution Number 2024-15 Effective for the FY25 Budget 10-01-2024

This Financial Policy supersedes and replaces any previous versions.

Project Prioritization:

Step #1: Policy considerations for each asset.

The objective of this step is to determine the priority of asset improvements necessary and how they are affected by or are related to other assets. This is also the point to review potential policy updates that would drive changes to the asset or improvement considerations, such as location, energy efficiency, or relationship to other assets.

- Are there required system needs, improvements, or enhancements needed to meet code and legal requirements?
- Are there improvements, renovations, rehabilitation, or enhancements needed to meet the desired level of service to be provided by the asset?
- Are the ancillary or interrelated systems or assets to be considered?
- What is the mission critical systems or back up needs associated with the asset?

Step #2: Classification of Asset

Classify assets according to the following:

ADEQUATE: There is a high level of confidence that the asset is performing as designed and is reasonably meeting original design or engineering parameters and industry standards. There is limited to no probability that any degraded conditions are affecting operations or resulting in a loss of service.

PROBABLY ADEQUATE: The system is still performing and generally achieving the desired outcomes and level of service, but may not be meeting the design or engineering parameters. There is limited to low probability that any degraded conditions are resulting in significant loss of efficiency or degradation in level of service.

PROBABLY INADEQUATE: There is low level of confidence the system is performing as designed and as originally intended. Even though the asset is performing, it is not to the desired efficiency or level of service. The asset does not meet current design or engineering standards or parameters. The asset is resulting in inefficient operations and degradation of level of service.

INADEQUATE: There is a high level of confidence that the asset will not perform as designed or originally intended. The asset is not performing regularly and requires attention to address repeated deficiencies. The asset does not meet current design or engineering standards or parameters. The asset is resulting in inefficient operation and degradation of level of service.

Financial Policy Capital Budget & Financial Plan

Resolution Number 2024-15 Effective for the FY25 Budget 10-01-2024

This Financial Policy supersedes and replaces any previous versions.

FAILED: The asset is not operational or is operating without any sustainable predictability. The asset experiences regular and random loss of operation and does not meet any current design or engineering parameters.

Step #3: Develop Cost Estimates

The goal is to develop the most accurate cost estimate for the project as possible, considering all aspects of delivering project from inception to completion of the project. This project estimate would include all necessary design, property needs, construction, and project support. The cost estimate should be itemized by component by the best method possible and address project synergies, interdependence, and interaction of critical asset types.

There are many factors to developing an estimate, including but not limited to architecture/engineering design estimates, unit cost, historical background for similar projects, as well as inflation and other economic factors. All relevant information known and available should be used to validate the cost estimate.

Step #4: Funding and Program Development

Funding options should be developed with the goal of optimizing the number of priority projects to be completed during the funded year. The funding should be identified and applied to project priorities to the extent the funds are available.

Program development for the next fiscal year shall start during the first/second quarter of the current fiscal year. Staff will review all projects underway or planned to be underway during the current fiscal year, as well as all anticipated projects in the next fiscal year proposed for adoption and the four years that follow the proposed year.

For projects underway or planned for the current fiscal year, a review of funding necessary to complete the project will be conducted, resulting in positive or negative funding adjustments for each project. Once a project is underway, the project progress and cash flow should be monitored, allowing for funding adjustments. Adding to the overall scope of the project because of available funding reviews is not permitted without County Manager, or County Manager Designee or Board of County Commissioner approval.

Each review period, the proposed year and the following four years will be programmed and fiscally balanced for the proposed fiscal year, as well as for the 5-year funding program.

Project estimates will be programmed by phase of the project (i.e., design, property/rights of way, construction, and project support) for the year the funds are to be anticipated to be needed.

Financial Policy Capital Budget & Financial Plan

Resolution Number 2024-15 Effective for the FY25 Budget 10-01-2024

This Financial Policy supersedes and replaces any previous versions.

The current year and proposed year estimate will be based on the best estimation available at the time. The last four planned years of the Capital Budget will also be programmed with the best estimation available for the year being programmed. Consideration should be given to the change in costs expected due to the date of the project phase.

During the Board's budget workshops, staff will present the proposed fiscal year to be adopted and the planned projects for the next four years. The Board's review will result in adopting or revising staff recommendations for the proposed fiscal year as part of the budget approval in September of each year.

Other considerations in developing the CBFP include:

1. Capital expenditures for court-related facility needs should be funded first from revenue generated through the collection of a traffic citation surcharge as provided for by Florida Statute 318.18(13)(a) and Section 123.20 of the Alachua County Code. Revenues from this surcharge may also be used to fund Court Facilities, including office space leases and utilities.
2. The County shall utilize a combination of debt and pay-as-you-go financing for capital projects. The funding mechanism for each project will be determined and included in the CBFP, and the annual budget.
3. The Financial Oversight Committee, consisting of the Assistant County Manager for Budget and Fiscal Services, Assistant County Manager for Public Works and Growth Management, Budget Manager from OMB, Senior Administrative Support Manager for Fiscal Services, an attorney from the County Attorney's office and financial staff representatives from the Clerk of the Court's office, Tax Collector's office, Sheriff's Office, and Judicial Offices, will review the CBFP for financial feasibility and funding availability.
4. Project Budgeting
In addition to the actual cost of a project, the following budgets shall be included:
 - A. Energy and Water Considerations for Capital Projects
 - I. Energy usage and costs shall be considered as part of the life cycle analysis required for capital project decisions by the County.
 - II. An energy and water conservation component shall be included for consideration by the Board.
 - III. Energy components shall include:
 1. Energy conservation power down plans that ensure all unnecessary energy consumption ends after business hours.
 2. Building envelope weatherization where possible
 3. Efficiency improvements to the building equipment and machinery

Financial Policy Capital Budget & Financial Plan

Resolution Number 2024-15 Effective for the FY25 Budget 10-01-2024

This Financial Policy supersedes and replaces any previous versions.

4. Renewable energy additions for all new county construction and where possible existing buildings
5. Water conservation and efficiency improvements

B. Art in Public Places

- I. Art in Public Places funds will be used in accordance with Alachua County Code Chapter 29.
- II. Any original construction or major renovation of a County building, facility, park, or space (excluding transportation and land conservation projects) of at least \$300,000 shall include in its budget 1%, up to \$100,000, of the construction costs for architectural enhancements, special landscape treatments, paintings, sculpture, engravings, murals, mobiles, photographs, drawings and/or works in fabric for the project.
- III. The County will use the Alachua County Arts Council to assist in the selection of art from capital projects of \$1.0 million and above. For projects under \$1.0 million, staff may make recommendations consistent with Alachua County Code Chapter 29. The Board may make the final selection from those options presented or any option upon its own motion.

C. Project Audit

- I. A construction manager-at-risk contract audit shall be performed on all capital projects with budgets of \$5 million or more.
- II. A contract audit for unit cost bids shall be performed on all capital projects with a budget of \$5 million or more.
- III. Cost of the audit shall be included in the project's budget.
- IV. Audits will be conducted in coordination with the Office of Management & Budget upon completion.

Step #5: Updates

The Office of Management and Budget will report an updated summary to the Board on a quarterly basis.

Annual Capital Budget:

The CBFP represents the County's multi-year projection of capital needs and is a picture of future financing requirements, plans, and project scheduling. The CBFP does not impart spending authority for capital projects, but rather constitutes the primary basis upon which the annual capital budget is formulated. While the CBFP is a management plan, the annual capital budget is the current year spending authorization for capital expenditures, including capital projects identified in the CBFP.

The following policies apply to the relationship between the CBFP and the annual capital budget, and the formulation of the annual capital budget:

Financial Policy Capital Budget & Financial Plan

Resolution Number 2024-15 Effective for the FY25 Budget 10-01-2024

This Financial Policy supersedes and replaces any previous versions.

1. The County shall enact an annual capital budget based on capital project priorities and schedules as established in the multi-year CBFP.
2. The annual capital budget shall be developed and adopted concurrently with the annual operating budget. Operating impacts of capital expenditures shall be projected and included in operating budget forecasts.
3. Transition of a capital project from a planned expenditure in the CBFP to an appropriated one in the annual capital budget shall be achieved through the annual budget process by which staff submit capital outlay requests as part of their overall budget requests for the upcoming fiscal year.

Project Financing:

The County recognizes that an effective capital funding strategy requires consideration of a broad mix of funding mechanisms, including but not limited to pay-as-you-go, capital leases, and traditional debt. The County will maintain a balanced mix of financing sources without excessive reliance on any one source, and shall consider the following factors in evaluating the suitability of funding options for projects:

1. Legality
2. Equity
3. Effectiveness
4. Acceptability
5. Affordability
6. Ease of Administration
7. Efficiency

Pay-as-you-go and Pay-as-you-use Financing

Pay-as-you-go financing refers to the use of current financial resources to fund capital projects, including current revenues, fund balances, grants, and donations. Pay-as-you-use financing refers to the issuance of various debt instruments to fund capital projects. In considering which funding method to utilize for projects, the County shall strive to match benefit streams to cost streams as closely as possible over the anticipated useful life of the project and across constituency groups to achieve intergenerational and intra-jurisdictional equity respectively in project financing arrangements.

Regarding intergovernmental grants and private donations, the County will seek to leverage such resources whenever available, provided those capital projects identified are consistent with capital planning and infrastructure plans and County priorities, and whose operating impact have been documented in operating budget forecasts.

Financial Policy Capital Budget & Financial Plan

Resolution Number 2024-15 Effective for the FY25 Budget 10-01-2024

This Financial Policy supersedes and replaces any previous versions.

Post Project Evaluation:

Capital Inventory

The County shall maintain its capital asset inventory at a level adequate to protect the County's capital investment, avoid disruption of service delivery, and to minimize future maintenance and replacement costs. To that end, the County shall conduct and prepare a capital assets inventory biannually to report on the age, condition, and replacement cost of major capital assets.

Recording and Controlling Capitalizable Assets

The Clerk of the Court has been delegated the responsibility to develop administrative guidelines in determining Capitalization thresholds and proper financial recording of assets. These guidelines include:

1. Capitalization of buildings, infrastructure, and equipment
2. Depreciation methodology and application
3. Procedures for control over items that are not capitalized

Project Progress Reporting

The Office of Management and Budget (OMB) shall establish procedural guidelines for project progress reporting as part of the annual capital budget and CBFP development processes.

Financial Policy Debt Management

Resolution Number 2024-15 Effective for the FY25 Budget 10-01-2024
This Financial Policy supersedes and replaces any previous versions

DEBT MANAGEMENT

Purpose: To provide a comprehensive and viable debt management policy which recognizes the capital improvement needs of the County.

Policy: Utilize debt to maximize the County's ability to provide the highest-level services and infrastructure taking into account existing legal, economic, financial, and debt market considerations while balancing the taxpayers' ability, and desire, to pay.

Procedure:

1. No County debt issued for the purpose of funding capital projects shall be authorized by the Board of County Commissioners unless it has been included in the Capital Budget and Financial Plan or the Board of County Commissioners has been notified.
2. The County shall issue long-term debt only for:
 - A. The purpose of constructing or acquiring capital facilities and other capital assets as defined by the Statement of Governmental Accounting Standards 34 (SGAS 34) (specifically, the approved schedule of capital improvements)
 - B. Making major renovations to existing capital facilities and other capital assets per SGAS 34
 - C. Refunding outstanding debt when sufficient cost savings can be realized, or it is advantageous to do so.
3. The County may enter leases or debt for the acquisition of major equipment or other capital assets when it is cost justifiable to do so.
4. Conduit debt, including bank eligible conduit bonds, may be issued/sponsored for activities (such as economic development, housing, or health facilities) that have a general public purpose and are consistent with the County's overall service and policy objectives. All conduit financings must insulate the County completely from any credit risk or exposure and must be approved by the County's bond counsel and financial advisor before being submitted to the Board of County Commissioners for authorization and implementation.
 - A. No conduit bonds shall be issued in any year if such conduit bonds constitute obligations ("bank eligible obligations") which would be taken into account in determining whether Alachua County, Florida is a "qualified small issuer" within the meaning of Section 265(b)(3) of the Internal Revenue Code of 1986, as amended, for such year, unless (A) a bank eligible obligation issuance fee, in addition to the amounts imposed by the County

in connection with any TEFRA approval of the obligations, has been remitted to the County with respect to such bank eligible obligations, or (B) the County Manager or County Manager's designee shall determine that the County has no intent to issue bank qualified bonds during such calendar year.

- B.** At the beginning of each calendar year, the County's Finance Director shall calculate, based on then-current market rates and assuming a \$10 million issue of bonds maturing in 10 years, (A) the difference between interest rates on bank eligible obligations and non-bank eligible obligations of the County (the "differential") and (B) the net present value amount determined by applying said differential over the projected 10 year period and based on the principal amount described above (the "bank eligible obligation issuance fee").
 - C.** If the bank eligible obligations are to be part of a single plan of finance for the issuance of multiple installments of bank eligible obligations during a calendar year, the bank eligible obligation issuance fee shall nonetheless be due upon the first installment issued.
 - D.** All bank eligible obligation issuance fees collected shall be held in trust by the County until the end of the calendar year in which they are collected. Notwithstanding the foregoing, if after a bank eligible obligation issuance fee shall be paid by one entity a second entity requests County approval of bank eligible obligations, the amount that would otherwise be paid by the second entity shall be one-half the bank eligible obligation fee paid by the first entity, and such payment when received by the County shall be paid over to the first entity. If a subsequent entity, then requests County approval of bank eligible obligations, the same process would be repeated except that one third of the fee would be paid to the County, which would distribute the same equally to the first two entities, and so on. If the County did not issue any county debt during such calendar year that would have been bank qualified but for the fact that that conduit bonds constituting bank qualified obligations were issued during such calendar year, the bank eligible obligation issuance fees shall be returned in proportionate amount to the entities that paid them; otherwise, said fees shall be retained by the County.
- 5. Financing Requirements**
- A.** Capital improvements related to enterprise fund operations should be financed solely by debt to be repaid from user fees and charges and other legally available sources generated from the respective enterprise fund's operation.
 - B.** Capital improvements not related to enterprise fund operations shall be financed by debt to be repaid from legally available revenue sources able to be pledged for same.

- C.** Cash surpluses, to the extent available and appropriable, shall be used to finance scheduled capital improvements if it is deemed to be the best financing method for that particular improvement.
- D.** Revenue sources shall be pledged for debt only when legally available and, in those situations where they have previously been used for operation and maintenance expenses and/or general operating expenditures, they shall be pledged for debt only when other sufficient revenue sources are available to replace operation and maintenance expenses and/or general operating expenditures as deemed appropriate by the Board of County Commissioners.
- E.** Where possible, capital expenditures shall be funded through pay-as-you-go programs, debt restructuring, and alternative financing mechanisms, such as grants, state loan programs or federal pilot projects.

6. Maturity Limitations

- A.** All capital improvements financed through the issuance of debt shall be financed for a period not to exceed the useful life of the improvements, but in no event to exceed 30 years.
- B.** All capital improvements financed through lease-purchase obligations shall be financed for a period not to exceed the useful life of the improvements.

7. General Debt Limitations

- A.** Rapid debt repayment is a goal of the County's debt management policies. Each borrowing shall be structured to repay principal as rapidly as the amount of the pledged revenue source will allow. Adjustment in repayment time frames may be modified to reflect changes in the interest rate environment, which may argue for shorter or longer retirement plans.
- B.** The County shall manage its debt and sustain its financial position in order to seek and maintain the highest credit rating possible.
- C.** The County shall strive to maintain debt ratios within the median range of benchmarks (performed by the County's Financial Advisor).
- D.** The County shall not construct or acquire a public facility if it is unable to adequately provide for the identifiable annual operation and maintenance costs of the facility.
- E.** The County shall consider coordinating with other local government entities, to the fullest extent possible, so as to minimize the overlapping debt burden to citizens.

- F.** The County shall ensure that an adequate system of internal control exists so as to provide reasonable assurance as to compliance with applicable laws, rules, regulations, and covenants associated with outstanding debt.
- 8.** Debt Issuance Restrictions
- A.** The County shall market its debt through the use of competitive bid whenever deemed feasible, cost effective, and advantageous to do so. However, it is recognized that, in some situations, certain complexities and intricacies of a particular debt issue are such that it may be advantageous to market the debt via negotiated sale.
- B.** The County shall use the services of outside finance professionals selected using competitive bid.
- C.** Credit enhancements (insurance, letters of credit, etc.) shall be used only in those instances where the anticipated present value savings in terms of reduced interest expense exceeds the cost of the credit enhancement.
- D.** In order to maintain a stable debt service burden, the County shall attempt to issue debt that carries a fixed interest rate. However, it is recognized that certain circumstances may warrant the issuances of variable rate debt. In those instances, the County should attempt to stabilize debt service payments through the use of an appropriate stabilization arrangement.
- 9.** Refunding
- A.** The County shall continually monitor its outstanding debt in relation to existing conditions in the debt market and shall refund any outstanding debt when sufficient cost savings can be realized.
- B.** Outstanding debt shall be refunded as long as the net present value savings between the refunded bonds and the refunding bonds is equal to or greater than three (3) percent without extending the maturity of the debt being refunded, unless extenuating circumstances would justify a smaller percentage savings (e.g., historically low interest rates).
- C.** The County may also refund existing debt for the purpose of revising existing bond covenants to meet particular organizational and/or strategic needs of the County when it is advantageous to do so.
- 10.** Disclosure Requirements – It is the policy of the County to endeavor to provide full and fair disclosure in connection with the initial sale and distribution of its publicly marketed debt instruments and to provide appropriate ongoing secondary market information, in compliance with the requirements of applicable federal and state securities laws, rules, and regulations, including Securities and Exchange Commission Rule 15c2-12.

- 11.** Arbitrage Reporting – Finance and Accounting shall establish a system of record keeping and reporting (or procure the services of a company specializing in arbitrage) to meet the arbitrage rebate compliance requirements of the federal tax code. This includes tracking investment earnings on bond proceeds, calculating rebate payments in compliance with tax law, and remitting any rebate earnings to the federal government in a timely manner in order to preserve the tax-exempt status of the County’s outstanding and future debt issues.
- 12.** Investment of Bond Proceeds – The investment of bond proceeds shall be governed by the County’s Investment Policy and any applicable bond covenants. In the event of conflicting policies, the more restrictive policy shall be enforced.
- 13.** Short-Term and Interim Financing
 - A.** Bond Anticipation Notes – Where their use is judged by the County/Clerk staff, County’s bond counsel and financial advisor to be prudent and advantageous to the County, the County may choose to issue Bond Anticipation Notes as a source of interim construction financing. Before issuing such notes, takeout financing for such must be planned for and determined to be feasible by the Financial Advisor.
 - B.** Tax (Revenue) Anticipation Notes – Where their use is judged by the County/Clerk staff, County’s bond counsel and financial advisor to be prudent and advantageous to the County, the County may choose to issue Tax or Revenue Anticipation Notes as a source of interim operating financing.
 - C.** Other – Where their use is judged by the County/Clerk staff, County’s bond counsel and financial advisor to be prudent and advantageous to the County, the County may choose to use other short-term financing tools such as a line of credit or pooled commercial paper programs.
- 14.** Debt Affordability Assessment
 - A.** Article VII Section 12 of the Florida Constitution requires that long-term debt pledged by the full faith and credit of the County can only be approved by voter referendum. For debt issues to be placed on the ballot, the Board must approve both the capital and financing proposals. There is no statutory limit on the amount of debt and corresponding tax levy the voters can approve.
 - B.** The Finance Team implements debt management policies throughout all funds. The Team consists of members including the Assistant County Manager for Budget and Fiscal Services, Finance Director, County Attorney or designee, and the County’s Financial Advisor. The Team is responsible for planning all debt issuance for the County including the use of short-term and long-term financing. The County shall not enter into financing

agreements without first having the alternatives reviewed by the Team and a recommendation forwarded to the County Manager or County Manager designee.

- C. The Finance Team shall be responsible for determining reasonable debt levels for the County as part of the annual budget process and capital improvement plan. Each year, the Team shall review the County's ability to absorb and pay for long-term obligations (including new bond issues). The review process shall include recommendations on how much new debt can be afforded by the County. The Team's recommendations shall be based on an analysis of the following measures using the below definitions:

The terms "Direct Debt" and "Revenue Debt" are defined in Government Finance Officers Association's Recommended Practice for Debt Management Policies as follows:

"Direct Debt" – Debt payable from general revenues, including General Obligation (G.O.) Bonds, capital leases, and notes payable.

"Revenue Debt" – Debt payable from a specific pledged revenue source.

Debt Limitations

1. Total current debt service on "Direct Debt" less any dedicated limited ad valorem debt service measured as a percent of the current total General Fund revenue less any General Fund ad valorem revenue (resulting in the Covenant to Budget and Appropriate (CBA) amount/limit). The current debt service costs without the dedicated limited ad valorem debt service shall not exceed 35% of the total General Fund CBA revenue.
2. Total current debt service on "Direct Debt" measured as a percent of current General Fund revenue. Debt service costs on "Direct Debt" shall not exceed 5% of total General Fund revenue.
3. Total current debt service on "Direct Debt" measured as a percent of General Fund operating expenditures. Debt service costs on "Direct Debt" shall not exceed 10% of total General Fund operating expenditures.
4. Total debt includes "Direct Debt" and "Revenue Debt" as a percent of assessed value. Total net direct indebtedness shall not exceed 3% of the full valuation of taxable property in the County.
5. Total debt includes "Direct Debt" and "Revenue Debt" per capita. Total net direct indebtedness shall not exceed \$750 per capita.

6. Per capita debt as a percentage of per capita income. Per capita debt shall not exceed 5% of per capita income.

Energy Conservation Investment Program

Purpose: To promote capital investments which conserve resources and reduce utility costs. The policy is intended as an annual investment in projects that promote utility conservation, efficiency and or renewable energy.

Policy: The Energy Conservation Investment Program (E-CIP) will annually fund capital projects that meet the Board's energy and utility objectives as found in the Comprehensive Plan and Financial Policies. Any E-CIP funds not expended at the end of each fiscal year shall return to the account the following year.

Procedure: The County Manager or his/her designee shall consider annually and recommend a prioritized list E-CIP Eligible capital projects to the Master Capital Improvement Program. This policy is effective upon adoption by the Board.

At a minimum, projects shall be documented for their:

1. estimated return on investment;
2. project life and cost;
3. estimated utility and cost avoidance;
4. potential rebates, other funding sources; and
5. projected start date.

This Financial Policy supersedes and replaces any previous versions.

FINANCIAL MANAGEMENT

Purpose: To establish the framework for the County's overall financial planning and management.

Policy: To show the citizens, credit rating industry and prospective investors (bond buyers) the County's commitment to sound financial management and fiscal integrity. To improve the County's fiscal stability by helping County officials plan fiscal strategy in a consistent manner.

Procedure:

1. Financial Goals

- A. To maintain the financial viability of the County to ensure adequate levels of County services.
- B. To maintain financial flexibility to continually adapt to local and regional economic and demographic changes.
- C. To maintain and enhance public infrastructure to provide for the health, safety, and welfare of the County's citizens.

2. Inter-fund Loan Policy –

Inter-fund Loan Policy is intended to provide parameters and guidance for the management of loans between funds. Inter-fund loans may be necessary to provide adequate cash flow for reimbursable grants and contractual obligations with deferred revenues.

- A. Repayment of any loan shall not exceed one year without approval of the Board of County Commissioners. Loans outstanding at fiscal year-end will be reported to the Board of County Commissioners.
- B. Any fund may receive an interfund loan of up to and including \$100,000 with approval from the Clerk of the Courts-Finance Director, and the Assistant County Manager for Budget and Fiscal Services or County Manager or County Manager designee.
- C. Any fund may receive an interfund loan in excess of \$100,000 with the approval from the Board of County Commissioners.
- D. Due to the receipts of ad-valorem taxes not being sufficiently received until the end of November, the County may not have sufficient cash to maintain an adequate cash flow in the beginning of the fiscal year. Therefore, upon

the approval from the Clerk of the Courts-Finance Director, and Assistant County Manager for Budget and Fiscal Services, or the County Manager or County Manager's designee, the General Fund, MSTU for Law Enforcement and MSBU – Fire Service Funds may borrow, short-term, from other appropriate funds until the receipts of ad-valorem tax or special assessment revenue provide adequate cash flow. In no instance, without approval of the Board of County Commissioners, shall the loan remain unpaid past December 31 of the year the loan is made.

3. Replacement Funds

- A.** The County shall maintain the replacement plan and the internal service funds that provide for the acquisition/replacement of fleet, , and other designated equipment. The replacement plan and funds will be maintained in such a way as to minimize the impact on other funds. It is the intent of the funds to capitalize as many purchases as appropriate under the County's capitalization guidelines.
- B.** A Vehicle/Fleet Replacement Fund will be maintained to ensure adequate systemic replacement of fleet vehicles. Operating departments will be charged for fleet operating costs per vehicle and replacement costs spread out over the useful life of the vehicles. Fleet vehicles and equipment being purchased may be excluded from the vehicle replacement fund as recommended by the Assistant County Manager for Budget and Fiscal Services.
- C.** A Gas Tax Vehicle/Fleet Replacement Fund shall be maintained to ensure adequate resources are available for the systematic replacement of rolling stock and fleet vehicles. Annual contributions will be based upon the replacement schedules developed and maintained by the Division of Fleet Management.
- D.** Vehicle/Fleet Replacement surplus sale proceeds, insurance claims, and investment income will be maintained within the applicable Vehicle Replacement Fund to help offset future vehicle and equipment costs.
- E.** A Rolling Stock Reserve shall be maintained in the Solid Waste Management Fund to ensure adequate resources are available for the systematic replacement of rolling stock and fleet vehicles. Annual contributions will be based upon the replacement schedules developed and maintained by the Division of Fleet Management.
- F.** An E-911 Equipment Replacement Reserve shall be maintained in the Emergency Communications E-911 System Fund to ensure adequate resources are available for the replacement and/or upgrade of equipment at the primary and back-up PSAP's (Public Safety Answering Point) as allowed by Florida Statute 365.172. Annual contributions will be made in

accordance with Florida Statute. 365.173 which restricts the amount of E-911 carryover revenues.

4. Fund Balance

- A.** The County will report Fund Balance in accordance with Governmental Accounting Standards Board Statement No. 54 Fund Balance Reporting and Government Fund Type Definitions. Each financial reporting fund's Fund Balance shall be composed of non-spendable, restricted, committed, assigned, and unassigned amounts.
- B.** The unassigned plus assigned fund balance for the MSTU Law Enforcement and MSBU Fire Funds, at each fiscal year end, shall not be less than 5% of the following year's projected operating revenue and the unassigned plus assigned fund balance of the General Fund shall be 10%. In any fiscal year where the County is unable to maintain the minimum fund balance as required in this section, the County shall reestablish the minimum amount over a period not to exceed 3 years. During the reestablishment period, the County shall not appropriate any amounts of such fund balance for the purpose of balancing the budget until the minimum is reached.

5. Reporting and Audits

- A.** Balanced revenue and expenditure forecasts will be prepared to examine the County's ability to absorb operating costs due to changes in the economy, service demands, and capital improvements.
- B.** The County's accounting and financial reporting systems will be maintained in conformance with all state, federal and local laws, and generally accepted accounting principles as required in Florida Statute Chapters 129 and 200.
- C.** An annual audit will be performed by an independent public accounting firm, as required by Florida Statute. The results of the audit will be reported to the Board of County Commissioners and the audit opinion included in the County's Annual Comprehensive Financial Report.
- D.** The Clerk's Office will be asked to submit the Annual Comprehensive Financial Report to the Government Finance Officers Association (GFOA)'s Certificate of Achievement for Excellence in Financial Reporting Program.
- E.** The Office of Management and Budget will submit the County's Budget to the GFOA's Distinguished Budget Presentation Program.
- F.** Financial information including the Annual Comprehensive Financial Report and the Budget will be published on the Clerk's and County's websites, respectively.

- G.** Secondary market disclosures will be included in the Annual Comprehensive Financial Report.
- H.** The Office of Management and Budget will perform quarterly reviews to determine if the budgetary plan is being followed and if budgetary expectations are being achieved. Any problems discovered in this process will be corrected at the appropriate level of budgetary control.
- I.** Property control shall be applied to all assets valued at the level required by State Statute, the current minimum monetary threshold for capitalization and the item shall be tagged and identified by asset number when appropriate. Each item is physically identified and assessed as to its condition at least once per fiscal year.
- J.** Travel reimbursement will be in accordance with administrative procedures adopted in compliance with Florida Statute 112.061 (14).

6. Annexation

- A.** The Office of Management and Budget will be responsible for providing the County's Annexation Team a fiscal analysis of the impact related to proposed annexations. The analysis will be performed, upon receiving a request from the Annexation Team, using the following criteria:
 - I.** Unincorporated area population reduction between 1% and 3%-base analysis.
 - II.** Unincorporated area taxable property value reduction between 1% and 3% - base analysis.
 - III.** Unincorporated area population reduction greater than 3% - countywide analysis.
 - IV.** Unincorporated area taxable property value reduction greater than 3% - countywide analysis.
- B.** A base analysis will include projections for all major revenues and expenditures that are impacted by unincorporated area population changes. A report on the base analysis will be sent to the Annexation Team within 5 business days of the request.
- C.** A countywide analysis will include a base analysis as well as a review by all departments of service delivery impacts in the area being annexed. A report on the countywide analysis will be sent to the Annexation Team within 30 days of the receipt of the request. A review checklist sent to all departments will be completed and returned within 14 days. OMB will also analyze the fiscal impact of annexations related to Constitutional Offices.

- D. The Annexation Team has the discretion of requesting an analysis from OMB for annexations that do not meet the criteria listed above. Such requests may be used to address annexations that fall below the 1% thresholds or to address the cumulative impact of annexations over a certain time period.

Financial Policy – Health Insurance Management

Resolution Number 2024- Effective for the FY25 Budget 10-01-2024

This Financial Policy supersedes and replaces any previous versions

HEALTH INSURANCE MANAGEMENT

Purpose: The Health Insurance Fund is an Internal Service Fund, created by Chapter 28 of the Alachua County Code, to account for health insurance transactions of the County where the County retains risk. The fund accounts for Health, Wellness, Prescriptions, Dental and Vision insurance coverage for employees and retirees of the County, Library, and Constitutional Officers. This document serves to establish the framework for the fund.

Policy: To show the citizens, elected officials, employees, unions, actuarial providers, health care providers and prospective investors (bond buyers) the County's commitment to sound financial management and fiscal integrity related to maintaining the County's health-insurance fund. To improve the County's fiscal stability by helping County officials plan fiscal strategy in a consistent manner.

Background: The County self-insures for the following employee benefits: health, primary care clinic, wellness program, and prescriptions. The County offers "off the shelf" policies for dental and vision. The County pays the premiums for the benefits as provided for in the union contracts and Board adopted shared rates. The employees pay a portion of the related costs and have the option to select and pay for additional benefits. Retirees and former employees and dependents covered by Consolidated Omnibus Budget Reconciliation Act (COBRA) may also purchase these benefits.

Procedure:

1) Financial Goals

- a) To maintain the financial viability of the Fund in order to ensure adequate levels to support the employee benefit.
- b) To maintain financial flexibility in order to continually adapt to claims and economic changes.
- c) To maintain and enhance appropriate levels of reserve to provide for the health, safety and welfare of the County's employees participating in the health plans.
- d) The Health Insurance Fund will be maintained at a level that will, together with purchased insurance policies, adequately fund medical claims risk in accordance with Chapter 28 of the Alachua County Code.
- e) A qualified actuarial firm shall be retained on an annual basis in order to recommend appropriate funding levels.

- f) The Health Insurance Fund shall be analyzed as part of the annual budget process.

2) Premiums

- a) Annually, the Risk Management Division shall recommend premium rates for each type of health benefit for single, employee+1, and family coverage. The rate shall be determined using current market data and the County's claims history.
- b) The Self Insurance Fund premiums charged to the various funds and departments will be the illustrated rate for the benefits selected by the employees assigned to them.
- c) Various credits and savings may be offered to offset premiums and employee cost, such as, wellness programs, vaccination programs, and HRA's for high deductible plans.
- d) Alachua County, Florida - Code of Ordinances Chapter 28 – Self-Insurance Programs Sec. 28.02(b)(2) – includes the administration of a health insurance supplement for employees retiring from Alachua County and participating governmental entities. Effective October 1, 2023, the supplement will match the State of Florida retiree health insurance supplement amount for the years of service with the County. Adjustments made by Florida legislative action that affect the retiree health insurance supplement rate will be incorporated into the County's plan and included in the budget pursuant to their effective date. All participants will follow the County's administrative procedures.

3) Reserve Funds

- a) The Florida Office of Insurance Regulation strongly encourages at least 60 days of anticipated claims, as set by an actuary. An actuarial best practice is to establish 120 days of anticipated claims as a reserve, and as such will be the requirement for the fund.
- b) No additional premiums will be charged to establish the reserve without County Commission approval.
- c) An annual evaluation will be made during the annual budget process to identify health insurance industry trends and projections to develop long range planning to fund reserves and premium costs to adequately support the funds claims and expenditures.

- d) In any fiscal year where the County is unable to maintain the minimum reserve as required in this section, Risk Management will present a strategy to comply within two (2) fiscal years.

4) Consultant Reviews

- a) An actuary will be retained to evaluate the position of the funds and project future costs to assist in establishing premium rates.
- b) The County may retain health consultants to review plan details, evaluate cost of changes, review programs such as the clinic or wellness efforts, notify and recommend changes based on industry activity, and assist with acquiring excess coverage or specialty insurances.

5) Reporting and Audits

- a) Balanced revenue and expenditure forecasts will be prepared to examine the County's ability to maintain health insurance benefits and control premium increases.
- b) The financial accounting of the fund will be included with the Annual Comprehensive Financial Report of the County and will be a part of the annual audit.
- c) Annual budget and actual reports will be presented to the Self-Insurance Review Committee (SIRC) to assist the committee in making recommendations to the Board of County Commissioners.
- d) As a part of the annual budget process, the County Manager will recommend appropriate premiums and funding levels to the Board of County Commissioners in conjunction with SIRC's recommendations.

Citizen Initiated MSBU Publically Owned Roads

Resolution Number 2024-15 Effective for the FY25 Budget 10-01-2024
This Financial Policy supersedes and replaces any previous versions.

CITIZEN-INITIATED MSBU PROGRAM FOR CAPITAL IMPROVEMENTS AND MAINTENANCE FOR PUBLICALLY OWNED ROADS

Purpose: To provide Alachua County Citizens and the Board of County Commissioners (Board) a mechanism to receive and provide municipal services and improvements for benefitting properties within the unincorporated area of Alachua County.

The Program is responsible for coordinating the public services and capital improvements funded by non-ad valorem assessments requested by the property owners of the benefitting properties. Administration of each assessment district (MSBU) shall include financial management of the fund; ensuring assessments are levied accurately per local and state requirements; monitoring service contracts; maintaining records for active and closed MSBUs, and responding to property owner interests and inquiries.

The Citizens-Initiated MSBU Program outlines the administration of non-ad valorem assessments levied for publically owned roads, road related capital improvements, and periodic maintenance of included roads.

Policy: To provide an orderly and efficient method for utilizing the statutory authority given to the Alachua County Board of County Commissioners by Florida Statue 125.01(1)(q) and Alachua County Code Chapter 37 to create a Municipal Services Benefit Unit (MSBU) Program, driven by citizen request, within the unincorporated area of Alachua County. It is the intention of this Administrative Procedure to supplement the established Florida Statutes and Alachua County Code; therefore, any perceived contradictions or omissions shall cede to these controlling entities.

This hereby establishes a policy for the creation of citizen initiated MSBUs along with the procedures for levying, collecting, adjusting, supporting, and enforcing created MSBUs.

Definitions:

Assessment Roll – Area or group of properties assigned a pro-rata amount to fund an essential public service or improvement offering benefit to those properties.

Benefit – Direct or indirect assistance or advantage.

Assessment/Benefit Unit – Equitable base or measure used for allocating cost, such as parcel, acreage, or dwelling.

Capital Improvement Assessment/Assessable Cost – Amount levied for a constructed improvement for which the amount is levied once but may be repaid in annual installments over a period of years.

Fee (Petition) – A non-refundable amount which must be included with the initial Citizen-Initiated MSBU Petition for administration and review of the request.

Liaison – Applicant or person that voluntarily serves as a spokesperson for the community during the various phases of the MSBU process. The liaison acts as a go-between for the benefiting property owners and the County and is authorized to request or approve minor changes in services or project(s) scope (increase in annual cost and/or assessments of no more than 10%) without Board action.

Lien – A legal claim upon property to secure the payment of a debt or obligation.

Municipal Service – Assistance or improvement provided by a local government to serve a public purpose.

Municipal Services Benefit Unit (MSBU) – An assessment district created to fund a localized public service.

Non-Ad Valorem Assessment – Amount levied on a property by criteria other than property value; typically assigned by units of benefit.

Ordinance – An authoritative order or legislation enacted by a municipal authority such as the Alachua County Board of County Commissioners.

Petition (MSBU Petition) – Document originated by citizens in the form of a request for an MSBU which should include general scope of services or project(s), a map depicting the proposed Unit boundaries, and the level of benefiting property owner’s support for its creation. The Petition is then further processed within the MSBU Program to determine a “honed” MSBU scope and cost including:

- Project analysis
- Engineering/design
- Construction
- Contracted services.
- Equipment Installation
- Utilities
- Administration
- Financing
- Reserves
- Contingencies
- Other direct and indirect costs

Pro-rata – A proportionate allocation.

Public Purpose – Available or pertinent to the people as a whole; open to all members of a community; may be provided by local authorities and supported by money from taxes, fees, or assessment.

Public Hearing – A special meeting which allows the public to comment on proposed plans and projects before the local government makes a final decision.

Public Service – Essential service provided by a government to people living within its jurisdiction.

Special Assessment District (SAD) – Also known as MSBU.

Unincorporated Area – A region of land outside the taxing boundary of a city; governed by the County.

Variable Rate Assessment – An amount levied annually to fund an ongoing service for which the service cost may change each year.

Procedure:

1. Creating and establishing an MSBU
 - A. It shall be the policy of the Board of County Commissioners to require an MSBU Petition and associated fee for consideration of a new MSBU. Such petition will define the general parameters of the MSBU, however; the Board, at its discretion, may establish a minimum service area requirement.
 - B. Petitions must be submitted by February in the year prior to the targeted beginning of MSBU revenue collections.
 - C. A petition process is used in establishing MSBUs to ensure community awareness and involvement in the decision-making process. This also increases recognition of the public nature of the improvements and the responsibility of property owners for payment of the assessments.
 - D. MSBUs must be created and utilized to provide road related services and/or infrastructure in accordance with Florida Statute 125.01(1)(q).
 - E. The Board will determine the best course of financing, including whether to provide initial internal or external funding, on a case-by-case basis.
 - F. If it is determined that outside funding (e.g., loans and bonds) is necessary to fund a requested MSBU the Board will absorb any issuance costs.
 - G. Each MSBU shall be maintained and managed individually in accordance with established “best practices” and Generally Accepted Accounting Principles (GAAP).

2. Processing requests

- A.** Citizen requests should be sent to the County Manager (CM) or County Manager designee in the form of a Petition for initial recording and collection of the associated fee. The County Manager or County Manager designee shall then forward the request to County staff (“staff”) to continue formulating the MSBU request. It is the responsibility of the citizens to:
 - I.** Organize support for the MSBU.
 - II.** Develop a general scope of work and/or services.
 - III.** Prepare the petition for submittal to the Board via the County Manager or County Manager Designee.
 - IV.** Designate a liaison.
- B.** Once the completed petition and associated fee is submitted, staff will prepare a cost estimate for the proposed improvements using current County standards. Estimates may also include eventual replacement and ongoing maintenance costs. Estimate(s) will then be presented to the Board no later than May in the year prior to the targeted beginning of MSBU revenue collections.
- C.** The Board may choose to conduct a Property Owner Interest Poll and send a letter and vote card, via First Class Mail, to the benefiting property owners. The letter shall describe the proposed improvement, the area to be specially benefitted, the estimated improvement cost, and the allocation of the cost to each property owner.
- D.** The voting card must be signed and returned within 45 days of the date of the letter. The vote cards will be verified to determine that at least 50% of the responding benefiting property owners within the proposed unit boundaries signed in favor of the petition. For proposed improvements to unpaved roads owners representing at least 60% of the benefiting property must respond and of those responses at least 75% must be in support of creating the MSBU.
- E.** Such verification shall be accomplished by comparing the vote card with the existing tax rolls of the Property Appraiser and voter registration rolls if applicable. The Board may also, at its discretion, increase the required percentage of signatures on a letter/vote card.

- F.** Upon verification that the appropriate percent of benefiting property owners signed in favor of the MSBU, staff shall proceed with scheduling the MSBU creation.
 - I.** Staff shall abide by Florida Statute 197.3632 and Sections 37.10 thru 37.14 of the Alachua County Code.
 - II.** Staff shall prepare ordinances and resolutions.
 - III.** Staff shall publish required legal and display notices.
 - IV.** Staff shall mail each benefitting property owner a first-class notice advising them of the date and time of the public hearing for the purpose of adopting the ordinance creating the MSBU.
 - G.** If the required percentage is not obtained within the 45-day period, the application will be deemed invalid, and a letter will be mailed to the applicant to notify them that the requested MSBU has not met the signature requirement.
 - H.** The Board of County Commissioners reserves the right to approve, deny, or modify MSBU requests.
- 3. Adopting MSBU budgets and assessment rolls**
- A.** Prior to January 1st of each year, the department will submit the proposed non-ad valorem assessment roll as part of a public hearing for adoption of each new MSBU created during the preceding year as prescribed in Florida Statute 197.3632(3)(a) through (4)(b).
 - B.** Prior to January 1 of each year, the Board of County Commissioners may adopt a resolution at a public hearing stating its intent to utilize the uniform method of collection of non-ad valorem assessments for all new MSBUs created during the preceding calendar year.
 - C.** All costs associated with publishing the public hearing notice will be divided equally among the MSBUs being brought to the Board and charged to the appropriate MSBU Fund and paid for by the non-ad valorem assessment levied against the benefitting property owners and included on the annual tax bill.
 - D.** The content of the resolution and conduct of the public hearing must be in accordance with Florida Statute. Chapter 197.3632(3)(a).
 - E.** First class mail notice shall be sent to each person owning property within the proposed MSBU boundaries.

- F.** A public hearing will be required in following years whenever there are changes in the boundaries or the purpose of the MSBU as outlined in Florida Statute. Chapter 197.3632(4)(a).
- G.** Any proposed revision resulting in an increase or decrease in the services provided by the MSBU shall be reviewed by County staff. If the revision cost is 10% or below the Board approved amount the approval authority is with the MSBU Citizen Liaison. Any changes above 10% require Board approval via the Public Hearing Process.
- H.** Staff shall prepare the budgets for their MSBUs during the annual budget process. The Office of Management & Budget shall prepare the resolutions documenting the Board's approval of the MSBU budgets at the public hearing adopting the County-wide budget and its corresponding resolutions.
- I.** Staff shall prepare the MSBU assessment rolls annually and submit them to the Office of Management and Budget so they may be included for adoption at the same time as the MSBU and County-wide budget resolutions go before the Board.
- J.** Staff will ensure that the assessment roll certifications are submitted to the Property Appraiser and Tax Collector for billing and collection as set forth by Florida Statute 197.

4. Levying and collecting MSBU assessments

- A.** An MSBU may be created at any time during the fiscal year as long as previously described deadlines have been met. However, implementation shall coincide with the adoption of the annual County budget beginning October 1.
- B.** All new MSBUs must be created (resolution adopted) by January 1 of each year in order to be implemented the following October.
- C.** The Board will levy the special assessment to be collected through the Uniform Method of Collection authorized by Florida Statute 197.3632.
- D.** In the case when an individual MSBU is closed out, residual monies remaining in the Fund totaling 5% or more of the original Board approved budget shall be refunded back to the property's current owner of record on a pro rata share as originally assessed. Any residual monies remaining in the fund totaling less than 5% of the original budget will be transferred to the responsible department's primary fund.

5. Contract and Purchasing

All contract and purchasing scenarios must be processed and managed by the responsible department in accordance with existing County policies and procedures.

6. Property Appraiser

The Property Appraiser will be asked to provide a section map(s) detailing the proposed MSBU area, the benefitting property owner's name, address, property value, and applicable frontage as well as the size and type of property structures.

7. Tax Collector

A. The Tax Collector is responsible for the annual billing and collection of the non-ad valorem assessments in the same fashion as the tax rolls are billed and collected each year.

B. Assessments become delinquent after April 1, and failure to pay may result in a lien levied against the property and may result in the sale of a tax certificate in accordance with Florida Statute 197.432.

8. Clerk of Court

The Clerk is responsible for recording and, when required, the administering of liens on unpaid non-ad valorem assessments.

9. Processing appeals of assessments.

A. Property owners wishing to appeal or request a review of their initial assessment may contact the responsible department to document the nature of the request.

B. All requests received prior to the deadline set forth by Florida Statutes (30 days after certification of the tax roll) each year shall be handled so as to allow payment of taxes before they become delinquent.

C. Staff shall investigate the request in consultation with the Property Appraiser and make a determination as to whether or not an adjustment is warranted.

D. In the event an adjustment to the initial assessment is warranted, staff shall prepare a "Certificate of Correction" and submit it to the Tax Collector and Property Appraiser. If a determination of adjustment is

made prior to payment of the current tax bill, a revised tax bill will be sent by the Tax Collector reflecting the adjusted assessment. If a determination of adjustment is made after payment of the current tax bill, the property owner may request a reimbursement for the assessment overpayment; otherwise, the overpayment will be reflected on the following year's tax bill.

- E. Adjustments to initial assessments resulting from appeal/review requests received after the deadline will be documented on a "Certificate of Correction" by the responsible department and reflected on the following year's tax bill.
 - I. Reimbursement will only be made on assessments paid within the previous three years.
 - II. Reimbursement will be reviewed and processed by the responsible department with the funding source being the appropriate MSBU Fund.

Effective for the FY25 Budget 10-01-2024

This Financial Policy supersedes and replaces any previous versions.

PERFORMANCE MANAGEMENT

Purpose: To establish the framework for the County’s commitment to performance management.

Policy: Performance Management has specific guidelines and best practices documented by the Government Finance Officers Association (GFOA) and the International City/County Management Association (ICMA). Performance Management is mandated to receive any Federal grants and/or pass-through grants as described in the Federal OMB Circular (2CFR Chapter 1 and Chapter 2 Part 200) Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Additionally, Performance Management is considered as part of Florida State Statute 212.055(11) Performance Audit, where any jurisdiction requesting consideration of a discretionary sales surtax referendum would have to submit to a performance audit including program efficiency, effectiveness, goals, objectives, and performance measures used by the program to monitor and report program accomplishments.

Alachua County’s performance program is managed by Budget and Fiscal Services. The program ensures performance results support identified strategies and requires regular reporting of the County’s performance efforts and outcomes.

Performance management improves organizational capacity by providing managers with data on established measures and operational performance. Performance data empowers managers by supplying data and information necessary to make effective, efficient, and timely management decisions to achieve desired results.

Performance management is a powerful tool used to integrate strategic planning, multi-year departmental planning, budgeting, and management with evaluation and reporting in a system that helps create an accountable, transparent, and responsive organization.

Department Responsibilities:

1. Document alignment of departmental performance to the County’s Mission, Values, Board Level Strategic Guide, and Comprehensive Plan.
2. Set program deliverables and ensure operational priorities match those of the community via the Board’s guidance.
3. Develop meaningful measures, focusing on key performance indicators and outcome measures, to gauge program success and inform future policy and budget decisions.
4. Increase organizational coordination to eliminate waste and duplication.

5. Make data available to the public periodically through the annual Adopted Budget documents, presentations to the Board, and the County's website thereby keeping government accountable and transparent to all stakeholders.

A. Process

I. Establish and updates the following:

- 1) Mission Statement
- 2) Vision Statement
- 3) Executive Summary
- 4) Current Year Accomplishments/Future Year Priorities
- 5) Significant Budget Variances (if applicable)
- 6) Budget Allocation by Board established Focus Area
- 7) List of Services Provided
- 8) Description of Services Provided and as applicable Governing Authority
- 9) Quarterly Performance Measures

II. Identify and provide quarterly updates to performance measures and targets in the Performance Management (PM) system.

- 1) Establish, review, and update performance measures on a quarterly basis, to ensure the regular collection and reporting of specific information about the effectiveness, the quality, and the efficiency of government services and programs.
- 2) Periodically add or modify existing performance measures as the need arises based upon changes in the Board's Strategic Guide, Comprehensive Plan, changes to the agency's objectives, changes in program scope or establishment of new programs, based upon mandated reporting requirements, or where program evaluation results in the need for additional measures.
- 3) Once a measure is established, and annually thereafter, record future projections in the Performance Management system based upon targets identified by staff and/or

published benchmarks. Typically, performance measures will have two to three years of targets identified within the system.

- 4) Track and record measures, on a monthly or quarterly basis, as determined by the Department, Division, or program, depending on the reporting frequency needed to effectively and efficiently react to performance changes that are out of line with performance targets and change management strategy and direction to provide the best results to stakeholders. The preferred reporting frequency is quarterly.
- 5) Ensure all performance management components reported within the budget document, performance chapter, website, and all other reporting methods are accurate and factual.

III. Identify and link showcase measures and community indicators to improve transparency. **Budget and Fiscal Services Operational Performance Staff Responsibilities:**

1. Provide training and support for development of performance measures and key performance indicators, ensuring their relevance, effectiveness, and alignment with the Board's Strategic Guide.
2. Review all narratives, measures, indicators, and level of service information prior to the submission of the final budget.
3. Review quarterly all performance measures and reported actuals within the Performance Management system to ensure alignment and consistency within the agency.
4. Publish performance measures, outcomes, and narratives through the Annual Budget Document, Performance Chapter, and/or website, as appropriate.

PUBLIC PURPOSE

Purpose: To establish the framework for the County's use of taxpayer's money for public purpose.

Policy: Revenues received by the County are public funds and as such their use must serve a public purpose. Public Purpose is defined as a county action or direction the primary purpose for which provides a declared public benefit. The Board hereby declares that the following objectives support the County's overall mission and serve a valid public purpose.

- A. Educate, inform, and maximize the involvement and participation of citizens in County government, including increased partnerships and economic development ventures with the private sector.
- B. Recognize employees to improve and enhance morale resulting in increased efficiency and effectiveness.
- C. Recognize employees for retirement, length of service or other milestone achievements.
- D. Recognize and encourage the continued participation of volunteers in various County programs.
- E. Promote tourism within the County.

Procedure: A proposed expenditure identified by a Department Director or his/her designee that meets one or more of the above declared objectives and supports the County's overall mission shall be submitted on a Public Purpose Form, with description and backup, for review by the Office of Management and Budget and approval by the County Manager or County Manager Designee according to procedures developed by the County Manager.

For any request, the County Manager or County Manager Designee may request the Board to declare a public purpose.

The Office of Management and Budget will report Public Purpose approved requests to the Board on a quarterly basis.

Resolution 23-08 Dated 02/28/2023

Resolution 24-15 Dated 03/12/2024

PUBLIC PURPOSE GUIDELINES AND PROCEDURES

**Require submission and all approvals before commitment or purchase.
Require available budget be identified prior to submission to Department Director
& OMB**

EXPENDITURES:

In considering whether an expenditure is a necessary expense it is important to remember that an expenditure should be more than merely desirable or even important to be approved under the necessary expense doctrine.

In addition, an expenditure should not be approved simply because it is considered a good idea or because it is like a practice engaged in by private businesses or other governmental entity.

County staff **shall not use appropriated funds** (whether from an annual appropriation, multi-year appropriation, appropriated user fee, mandatory appropriation, or reimbursements from such appropriations, etc.) **to purchase food** (whether for conferences or meetings; for meals, light refreshments, or beverages; or for participants) unless the funding source specifically allows for the use of funds for the specific expenditure or receives prior approval from the County Manager or County Manager Designee.

GRANTS AND COOPERATIVE AGREEMENTS:

Public funds garnered from state/federal grants cannot be expended for refreshments/meals unless there is a line item in the approved grant budget expressly detailed for meals/refreshments.

When a grantee conducts a conference as an ancillary effort under its grantor cooperative agreement, food-related costs may be considered allowable as prescribed in OMB Circular A-21 (cost principles applicable to educational institutions), OMB Circular A-122 (cost principles applicable to non-profits), and shall be documented utilizing the Public Purpose Form.

The type and amount of meals/refreshment shall be in concordance with the type of employee function. There should not be any question that the amount/meal type fits the type of the function. Any question on the type and amount of the meals/refreshments can be directed to the Deputy County or Assistant County Managers.

The intent is to not use public funds to offset a meal that the public / employees would normally consume, but rather to further the public interest by ensuring that County meetings are run efficiently with fewer/shorter breaks for meals. The County Manager or designee will manage and approve all public fund expenditures used for meals/refreshments consumed during public and/or County meetings.

DONATION FUNDS:

Although donated funds may not be subject to all the restrictions applicable to direct appropriations, they are still “public funds” and accounted for according to policy and procedures. When determining whether to use donation funds for food and beverage, sponsoring department should carefully consider the donor’s expectation on how the donation funds would be utilized. The purchase of refreshments should reflect that the purchase:

- (a) carries out the Alachua County mission.
- (b) satisfies the conditions of the donation.
- (c) is consistent with County policy on donations; and
- (d) is a necessary expense.

The recommending official role/responsibility will be at the Department Director or Deputy or Assistant County Manager.

Many donors might not expect that their donations are to be used for food and beverage for meetings, rather, to directly benefit a program or service or operational cost. Before such funds are used planners and approving officials need to consider that sensitivity and recognize that use of these funds for food and beverage, above exceptions notwithstanding, will likely be the subject of increased external scrutiny.

PROHIBITED USES:

1. Alcoholic Beverages: Any beverage containing alcoholic liquor – Alcoholic Beverages are never acceptable as a public purpose or County expense.
2. Food, unless funding source specifically allows, or County Manager or County Manager Designee provides pre-approval.
3. Political organizations, including events directly or indirectly associated with a political party, campaign, candidate, or group engaged to influence legislation, elections, referenda, or similar activities.
4. Holiday celebrations or meals for employees; Office parties or employee entertainment (both internal and external).
5. Refreshments or meals generally may not be provided in conjunction with ordinary, recurring staff meetings or other regularly scheduled business meeting of employees.
6. Ad-hoc committee meetings and informal meetings consisting solely of employees should not include breakfast, lunch, dinner, or coffee/beverage

service expenses (except events paid with pre-approval through the grant budget).

PARTICIPANTS:

Guest: Person who renders a service to the County or to whom the County wishes to extend goodwill and who is present at an event or meeting with an underlying business purpose. Typically, guests are visiting speakers, advisory board members, employees of outside Governmental agencies, citizens or other individuals not employed by the County.

Volunteers: Individuals assisting with a program, event, or other official function who must remain on site during mealtime.

County Employee: Individual who is as an employee selected by the appointing authority for a county department, agency, or office.

MEALS, FOOD, BEVERAGE, REFRESHMENTS

When allowable, prudent judgment for incurring meal and refreshment expenses is essential. Resources are limited, and meals and refreshments are subject to close public examination and audit. Meals and refreshments must be fully necessary, reasonable, and supportable in all instances.

Alcoholic Beverages: Any beverage containing alcoholic liquor – Alcoholic beverages are never acceptable as a public purpose or County expense.

Meals are defined to include food and non-alcoholic beverages provided at breakfast, lunch, or dinner to attendees of County-sponsored functions.

Refreshments are defined to include beverages such as coffee, tea, bottled water, juice, and soda, and food items such as pastries, fruit, chips, cookies, and cake.

EVENT TYPES:

Public Functions:

There must be a direct correlation between the event delineated on a calendar, supplanting a normal mealtime, the public benefit, and funding source in the organization/program budget.

A public function is when the majority of attendees are community members rather than County employees.

The type and amount of meals/refreshment shall be appropriate with the type of public event. There should not be any question that the amount/meal type fits the type of the

meeting. Any question on the type and amount of the meals/refreshments can be directed to the Deputy County or Assistant County Managers for determination.
